TransDigm Group Reports Fiscal 2022 Second Quarter Results

Cleveland, Ohio, May 10, 2022/PRNewswire/ -- TransDigm Group Incorporated (NYSE: TDG), a leading global designer, producer and supplier of highly engineered aircraft components, today reported results for the second quarter ended April 2, 2022.

Second quarter highlights include:

- Net sales of \$1,327 million, up 11% from \$1,194 million in the prior year's quarter;
- Income from continuing operations of \$199 million, up 90% from \$105 million in the prior year's quarter;
- Earnings per share from continuing operations of \$3.38, up 89% from \$1.79 in the prior year's quarter;
- EBITDA As Defined of \$633 million, up 22% from \$519 million in the prior year's quarter;
- EBITDA As Defined margin of 47.7%, up 420 basis points from the prior year's quarter;
- Adjusted earnings per share of \$3.86, up 50% from \$2.58 in the prior year's quarter; and
- Repurchase of \$667 million of Company stock during the quarter, equating to approximately 1.0 million shares.

The Company's full fiscal 2022 guidance remains suspended at this time as a result of the continued disruption in our primary commercial end markets. Refer to the "Fiscal 2022 Outlook" section below for further information.

Quarter-to-Date Results

Net sales for the quarter increased 11.1%, or \$133 million, to \$1,327 million from \$1,194 million in the comparable quarter a year ago. Organic sales growth as a percentage of net sales was 15.1%.

Income from continuing operations for the quarter increased \$94 million, or 89.5%, to \$199 million from \$105 million in the comparable quarter a year ago. The increase in income from continuing operations primarily reflects the increase in net sales described above and favorable sales mix, along with lower one-time refinancing costs and lower COVID-19 restructuring costs. The increase was partially offset by a higher effective tax rate and higher stock compensation expense. The comparable quarter a year ago also included the benefit of a gain recorded on the settlement of an insurance claim.

Adjusted net income for the quarter increased 50.3% to \$227 million, or \$3.86 per share, from \$151 million, or \$2.58 per share, in the comparable quarter a year ago.

EBITDA for the quarter increased 26.7% to \$588 million from \$464 million for the comparable quarter a year ago. EBITDA As Defined for the quarter increased 22.0% to \$633 million compared with \$519 million in the comparable quarter a year ago. EBITDA As Defined as a percentage of net sales for the quarter was 47.7% compared with 43.5% in the comparable quarter a year ago.

“It is encouraging that the global commercial aerospace recovery continues to steadily progress forward. As we expected, this recovery is not linear as the world experiences new COVID variants and certain countries deploy strict lockdown policies. However, despite these hurdles, the global commercial aerospace recovery is proceeding, led primarily by the pent-up demand for domestic leisure travel – though improving trends in international air traffic and business air travel are a positive,” stated Kevin Stein, TransDigm Group’s President and Chief Executive Officer. “I am very pleased to see another quarter of strong sequential improvement in our commercial aftermarket revenues and bookings, with bookings for the quarter significantly outpacing revenues. Our commercial aftermarket continues to lead the recovery of our commercial aerospace revenues, and we expect that trend to carry throughout the remainder of our fiscal 2022.

Additionally, during the quarter we returned \$667 million of capital to shareholders via open market repurchases of our common stock. We view these repurchases like any other capital investment, and we expect this investment will meet or exceed our long-term return objectives.”

For the quarter we had positive operating cash flow generation of \$87 million. The operating cash flow for the quarter was unfavorably impacted by the timing of cash interest payments and tax payments, as well as the timing of cash receipts related to the strong sales in March.

During the thirteen week period ended April 2, 2022, TransDigm repurchased 1,046,815 shares of its common stock with a weighted-average price per share of \$636.93 at an aggregate cost of approximately \$667 million. As previously reported, on January 27, 2022, our Board of Directors authorized a new \$2,200 million stock repurchase program to replace the existing program permitting the repurchase of a portion of TransDigm’s outstanding shares. As of April 2, 2022, the remaining amount of repurchases allowed under the new program was approximately \$1,533 million.

As previously reported, on March 14, 2022, TransDigm entered into a definitive agreement to acquire DART Aerospace (“DART”), a portfolio company of Greenbriar Equity Group, L.P. and First Aviation Services Inc., for approximately \$360 million in cash. The acquisition is expected to close during the second half of fiscal 2022, subject to regulatory approvals and customary closing conditions. DART is an industry leader in helicopter mission equipment with established positions on a diverse range of rotary-wing platforms.

Year-to-Date Results

Net sales for the twenty-six week period ended April 2, 2022 increased 9.6%, or \$220 million, to \$2,521 million from \$2,301 million in the comparable period a year ago. Organic sales growth as a percentage of net sales was 12.0%.

Income from continuing operations for the twenty-six week period ended April 2, 2022 increased \$207 million, or 133.5%, to \$362 million from \$155 million in the comparable period a year ago. The increase in income from continuing operations primarily reflects the increase in net sales described above and favorable sales mix, along with lower COVID-19 restructuring costs and lower one-time refinancing costs, partially offset by a higher effective tax rate. The comparable period a year ago also included the benefit of a gain recorded on the settlement of an insurance claim.

GAAP earnings per share were reduced in fiscal 2022 and 2021 by \$0.78 per share and \$1.24 per share, respectively, as a result of dividend equivalent payments made during each year. As a reminder, GAAP earnings per share are reduced when TransDigm makes dividend equivalent payments pursuant to the Company’s stock option plans. These dividend equivalent payments are made during the Company’s first fiscal quarter each year and also upon payment of any special dividends.

Adjusted net income for the twenty-six week period ended April 2, 2022 increased 52.3% to \$405 million, or \$6.85 per share, from \$266 million, or \$4.55 per share, in the comparable period a year ago.

EBITDA for the twenty-six week period ended April 2, 2022 increased 31.8% to \$1,110 million from \$842 million for the comparable period a year ago. EBITDA As Defined for the period increased 20.6% to \$1,198 million compared with \$993 million in the comparable period a year ago. EBITDA As Defined as a percentage of net sales for the period was 47.5% compared with 43.2% in the comparable period a year ago.

Please see the attached tables for a reconciliation of income from continuing operations to EBITDA, EBITDA As Defined, and adjusted net income; a reconciliation of net cash provided by operating activities to EBITDA and EBITDA As Defined, and a reconciliation of earnings per share to adjusted earnings per share for the periods discussed in this press release.

Fiscal 2022 Outlook

Given the considerable uncertainty around the extent and duration of business disruptions related to the COVID-19 pandemic and its impact on our primary commercial OEM and commercial aftermarket end markets, the Company will not provide full fiscal year 2022 guidance at this time. Information regarding fiscal 2022 EBITDA As Defined margins, expected defense market revenue growth, tax rates, interest expense, capital expenditures and select accounting information is included in the slide presentation available for today's earnings call.

Non-GAAP Supplemental Information

EBITDA, EBITDA As Defined, EBITDA As Defined Margin, adjusted net income and adjusted earnings per share are non-GAAP financial measures presented in this press release as supplemental disclosures to net income and reported results. TransDigm Group defines EBITDA as earnings before interest, taxes, depreciation and amortization and defines EBITDA As Defined as EBITDA plus certain non-operating items recorded as corporate expenses, including non-cash compensation charges incurred in connection with TransDigm Group's stock incentive plans, restructuring costs related to TransDigm Group's cost reduction measures in response to the COVID-19 pandemic, foreign currency gains and losses, acquisition-integration costs, acquisition and divestiture transaction-related expenses, and refinancing costs. COVID-19 restructuring costs represent actions taken by the Company to reduce its workforce to align with customer demand, as well as incremental costs related to the pandemic that are not expected to recur once the pandemic has subsided and are clearly separable from normal operations (e.g., additional cleaning and disinfecting of facilities by contractors above and beyond normal requirements, personal protective equipment). Acquisition and divestiture-related costs represent accounting adjustments to inventory associated with acquisitions of businesses and product lines that were charged to cost of sales when the inventory was sold; costs incurred to integrate acquired businesses and product lines into the Company's operations, facility relocation costs and other acquisition-related costs; transaction-related costs for both acquisitions and divestitures comprising deal fees; legal, financial and tax diligence expenses and valuation costs that are required to be expensed as incurred and other acquisition accounting adjustments. TransDigm Group defines adjusted net income as net income plus purchase accounting backlog amortization expense, effects from the sale on businesses, non-cash compensation charges incurred in connection with TransDigm Group's stock incentive plans, restructuring costs related to TransDigm Group's cost reduction measures in response to the COVID-19 pandemic, foreign currency gains and losses, acquisition-integration costs, acquisition transaction-related expenses, and refinancing costs. EBITDA As Defined Margin represents EBITDA As Defined as a percentage of net sales. TransDigm Group defines adjusted diluted earnings per share as adjusted net income divided by the total shares for basic and diluted earnings per share. For more information regarding the computation of EBITDA, EBITDA As Defined and adjusted net income and adjusted earnings per share, please see the attached financial tables.

TransDigm Group presents these non-GAAP financial measures because it believes that they are useful indicators of its operating performance. TransDigm Group believes that EBITDA is useful to investors because it is frequently used by securities analysts, investors and other interested parties to measure operating performance among companies with different capital structures, effective tax rates and tax attributes, capitalized asset values and employee compensation structures, all of which can vary substantially from company to company. In addition, analysts, rating agencies and others use EBITDA to evaluate a company's ability to incur and service debt. EBITDA As Defined is used to measure TransDigm Inc.'s compliance with the financial covenant contained in its credit facility. TransDigm Group's management also uses EBITDA As Defined to review and assess its operating performance, to prepare its annual budget and financial projections and to review and evaluate its management team in connection with employee incentive programs. Moreover, TransDigm Group's management uses EBITDA As Defined to evaluate acquisitions and as a liquidity measure. In addition, TransDigm Group's management uses adjusted net income as a measure of comparable operating performance between time periods and among companies as it is reflective of changes in pricing decisions, cost controls and other factors that affect operating performance.

None of EBITDA, EBITDA As Defined, EBITDA As Defined Margin, adjusted net income or adjusted earnings per share is a measurement of financial performance under U.S. GAAP and such financial measures should not be considered as an alternative to net income, operating income, earnings per share, cash flows from operating activities or other measures of performance determined in accordance with U.S. GAAP. In addition, TransDigm Group's calculation of these non-GAAP financial measures may not be comparable to the calculation of similarly titled measures reported by other companies.

Although we use EBITDA and EBITDA As Defined as measures to assess the performance of our business and for the other purposes set forth above, the use of these non-GAAP financial measures as analytical tools has limitations, and you should not consider any of them in isolation, or as a substitute for analysis of our results of operations as reported in accordance with U.S. GAAP. Some of these limitations are:

- neither EBITDA nor EBITDA As Defined reflects the significant interest expense, or the cash requirements, necessary to service interest payments on our indebtedness;
- although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and neither EBITDA nor EBITDA As Defined reflects any cash requirements for such replacements;
- the omission of the substantial amortization expense associated with our intangible assets further limits the usefulness of EBITDA and EBITDA As Defined;
- neither EBITDA nor EBITDA As Defined includes the payment of taxes, which is a necessary element of our operations; and
- EBITDA As Defined excludes the cash expense we have incurred to integrate acquired businesses into our operations, which is a necessary element of certain of our acquisitions.

Forward-Looking Statements

Statements in this press release that are not historical facts, including statements under the heading “Fiscal 2022 Outlook,” are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Words such as “believe,” “may,” “will,” “should,” “expect,” “intend,” “plan,” “predict,” “anticipate,” “estimate,” or “continue” and other words and terms of similar meaning may identify forward-looking statements.

All forward-looking statements involve risks and uncertainties that could cause TransDigm Group’s actual results to differ materially from those expressed or implied in any forward-looking statements made by, or on behalf of, TransDigm Group. These risks and uncertainties include but are not limited to: the impact that the COVID-19 pandemic has on the TransDigm Group's business, results of operations, financial condition and liquidity; the sensitivity of TransDigm Group's business to the number of flight hours that its customers’ planes spend aloft and its customers’ profitability, both of which are affected by general economic conditions; future geopolitical or other worldwide events; cyber-security threats, natural disasters and climate change-related events; TransDigm Group's reliance on certain customers; the U.S. defense budget and risks associated with being a government supplier including government audits and investigations; failure to maintain government or industry approvals; failure to complete or successfully integrate acquisitions; TransDigm Group's indebtedness; potential environmental liabilities; liabilities arising in connection with litigation; climate-related regulations; increases in raw material costs, taxes and labor costs that cannot be recovered in product pricing; risks and costs associated with TransDigm Group's international sales and operations; and other factors. Further information regarding the important factors that could cause actual results to differ materially from projected results can be found in TransDigm Group’s Annual Report on Form 10-K for the fiscal year ended September 30, 2021 and other reports that TransDigm Group or its subsidiaries have filed with the Securities and Exchange Commission. Except as required by law, TransDigm Group undertakes no obligation to revise or update the forward-looking statements contained in this press release.

⁽¹⁾ Represents interest expense excluding the amortization of debt issue costs and premium and discount on debt.

⁽²⁾ Represents the compensation expense recognized by TD Group under our stock incentive plans.

⁽³⁾ Represents costs expensed related to debt financing activities, including new issuances, extinguishments, refinancings and amendments to existing agreements.

⁽⁴⁾ Represents accounting adjustments to inventory associated with acquisitions of businesses and product lines that were charged to cost of sales when inventory was sold; costs incurred to integrate acquired businesses and product lines into TD Group's operations, facility relocation costs and other acquisition-related costs; transaction-related costs for both acquisitions and divestitures comprising deal fees, legal, financial and tax due diligence expenses, and valuation costs that are required to be expensed as incurred.

⁽⁵⁾ Represents restructuring costs related to the Company's cost reduction measures in response to the COVID-19 pandemic of \$36 million for the twenty-six week period ended April 3, 2021. These are costs related to the Company's actions to reduce its workforce and consolidate certain facilities to align with customer demand. This also includes \$3 million for the twenty-six week period ended April 3, 2021 of incremental costs related to the pandemic that are not expected to recur once the pandemic has subsided and are clearly separable from normal operations (e.g., additional cleaning and disinfecting of facilities by contractors above and beyond normal requirements, personal protective equipment, etc.). Restructuring costs incurred in response to the COVID-19 pandemic for the twenty-six week period ended April 2, 2022 were not material.

⁽⁶⁾ Primarily represents foreign currency transaction gain or loss, payroll withholding taxes related to special dividend and dividend equivalent payments and stock option exercises, non-service related pension costs, deferred compensation, proceeds received from a final working capital settlement for the ScioTeq and TREALITY divestiture and gain or loss on sale of fixed assets.
