Item 7.01 Regulation FD Disclosure.

The information in this Item 7.01 on Form 8-K is being furnished and shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, nor shall it be deemed incorporated by reference in filings under the Securities Act of 1933, as amended (the “Securities Act”).

TransDigm Inc., a wholly-owned subsidiary of TransDigm Group Incorporated (“TransDigm Group”), is commencing cash tender offers for any and all of the its outstanding 7³/₄% Senior Subordinated Notes due 2014 (the “2014 Notes”) and concurrent consent solicitations for proposed amendments to the supplemental indenture to the respective indentures governing each series of the 2014 Notes, among TransDigm Inc., the subsidiary guarantors party thereto and The Bank of New York Trust Company, as trustee, under which the 2014 Notes were issued.

TransDigm Group is hereby furnishing the following information, some of which has not been previously reported, derived from the supplement to the preliminary confidential offering memorandum, dated as of November 30, 2010, that is being circulated in connection with the upsizing of the Notes (defined hereinafter) as described in Item 8.01 on this Form 8-K.

Increased Offering Size

On November 30, 2010, we increased the aggregate principal amount of the previously announced offering of the notes to \$1,550 million. We expect to use the additional proceeds from the increased offering size to purchase any and all of our 2014 Notes pursuant to the Tender Offers as described below.

Concurrent Tender Offers and Consent Solicitations

On November 30, 2010, we commenced an offer to purchase and consent solicitation related to our 7³/₄% Senior Subordinated Notes due 2014.

Subject to the terms and conditions set forth in an Offer to Purchase and Consent Solicitation Statement dated November 30, 2010, we have offered to purchase any and all of our outstanding 2014 Notes, which have been issued pursuant to two indentures. The consummation of the Tender Offers is conditioned upon the satisfaction, or waiver by us, of certain conditions, including (1) receipt by us of net proceeds from this offering and our new senior secured credit facility, on terms and conditions satisfactory to us, which will aggregate to an amount that is sufficient to fund, in addition to the McKechnie Acquisition, the Total Consideration (as defined below) in respect of all of our 2014 Notes and estimated fees and expenses relating to the McKechnie Acquisition and the Tender Offers, and (2) that (a), with respect to each series of 2014 Notes, holders of at least a majority in aggregate principal amount of such series of our 2014 Notes validly deliver, and do not validly revoke, consents to amendments to the indenture governing such series of our 2014 Notes that would eliminate substantially all of the restrictive covenants and certain events of default contained in such indenture, and (b) a supplemental indenture with respect to such series of 2014 Notes is executed by the Company, the Guarantors and the trustee.

The Total Consideration for each \$1,000 aggregate principal amount of 2014 Notes validly tendered and not validly withdrawn in the Tender Offers at or prior to December 13, 2010 (as such date may be amended or extended) (the “Consent Expiration”) is \$1,042 (the “Total Consideration”). Holders that validly tender \$1,000 aggregate principal amount of our 2014 Notes after the Consent Expiration at or prior to 12:00 midnight on December 28, 2010 will be eligible to receive \$1,012.

Each series of our 2014 Notes are currently redeemable. We currently intend to redeem any and all of the 2014 Notes not purchased in the Tender Offers.

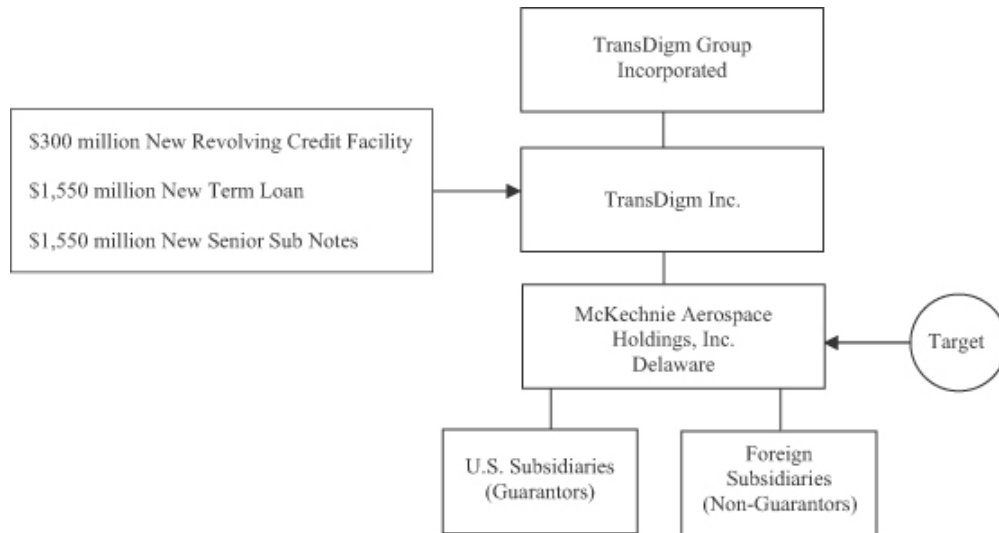

This description and the other information in this Supplemental Offering Memorandum regarding the Tender Offers is included in this Supplemental Offering Memorandum solely for informational purposes. Nothing in this Supplemental Offering Memorandum should be construed as an offer to purchase the 2014 Notes.

New Senior Secured Credit Facility

We currently anticipate that the new senior secured credit facility will consist of a new revolving credit facility of up to \$300 million, which will be undrawn at close, and a new \$1,550 million term loan facility. The existing senior secured credit facility will be repaid in full with proceeds from this offering and terminated.

Pro Forma Corporate Structure

The following chart sets forth our pro forma corporate structure, after giving effect to the McKechnie Acquisition, the offering of \$1,550 million of notes offered hereby and the entry into the new senior secured credit facility and assumes that all of the 2014 Notes are repurchased in the Tender Offers or are redeemed pursuant to the terms of the 2014 Notes.

Use of Proceeds

We estimate that we will receive net proceeds, after the initial purchasers' discounts and the payment of fees and expenses, of approximately \$ million from this offering. We expect to use the net proceeds from this offering, together with \$1,550 million of additional borrowings under our new senior secured credit facility, to repay our existing senior secured credit facility, to repurchase any and all of our outstanding 2014 Notes pursuant to the Tender Offers, to redeem any and all of the 2014 Notes that remain outstanding after the Tender Offers and to pay related transaction expenses. The McKechnie Acquisition will be funded, prior to the consummation of this offering, with cash on hand and borrowings under our existing and new senior secured credit facilities. The existing senior secured credit facility will be repaid in full with proceeds from this offering and terminated.

The following table sets forth the sources and uses of funds in connection with the issuance.

Sources of Funds	(In millions)		Uses of Funds
Notes offered hereby	\$1,550	McKechnie Acquisition	\$1,265
New Senior Secured Credit Facility ⁽¹⁾	1,550	Refinancing existing Term Loan ⁽²⁾	780

- (2) Affiliates of the initial purchasers will receive a portion of the proceeds from the offering as a result of the repayment of the existing term loan.
- (3) Assumes all outstanding 2014 Notes are purchased in the Tender Offers. If instead all 2014 Notes were redeemed, our use of funds with respect to the retirement of the 2014 Notes would increase by approximately \$6.5 million.
- (4) Balance represents additional 3.875% redemption premium on the principal amount of the 2014 Notes.
- (5) Includes interest accrued on the existing 2014 Notes payable semi-annually.

Capitalization

The following table sets forth the cash and cash equivalents and the consolidated capitalization of TD Group as of September 30, 2010, on a historical basis and on a pro forma basis to give effect to the Transactions and the Tender Offers as if each of the Transactions and the Tender Offers had occurred on that date. This table should be read in conjunction with the information in this Supplemental Offering Memorandum under “Use of Proceeds” and in the Preliminary Offering Memorandum under “Unaudited Pro Forma Condensed Combined Financial Data,” “Selected Consolidated Financial Information,” “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and the consolidated financial statements and the notes thereto included in the Preliminary Offering Memorandum, in each case as such information is updated in this Supplemental Offering Memorandum.

- (2) Notes offered pursuant to the Preliminary Offering Memorandum.
- (3) As adjusted capitalization includes an assumed \$7.8 million of original issue discount related to the new senior secured credit facility.

Updated Financial and Other Information

As a result of the increased size of this offering and the Tender Offers, our pro forma interest expense net for the 12-month period ended September 30, 2010 would decrease by approximately \$12.0 million to \$204.1 million, compared to pro forma interest expense net of \$216.1 million contained in the Preliminary Offering Memorandum, assuming that all of the 2014 Notes are purchased in the Tender Offers. If all of the 2014 Notes were instead redeemed pursuant to the terms of 2014 Notes, such pro forma interest expense net for the 12-month period ended September 30, 2010 would increase by \$6.5 million. A hypothetical 25 basis points change in the assumed interest rate would change our pro forma cash interest expense by approximately \$7.8 million.

Description of Notes

Clause (2) of the definition of “Permitted Indebtedness” is revised to replace “\$2,250.0 million” with “\$2,900.0 million”.
