PROSPECTUS SUMMARY

This summary highlights selected information contained elsewhere in this prospectus and in documents we file with the Securities and Exchange Commission, or the SEC, that are incorporated by reference in this prospectus. This summary is not complete and does not contain all of the information that you should consider before investing in our common stock. You should read the entire prospectus and the information incorporated by reference in this prospectus carefully, including the financial statements and the related notes appearing elsewhere in this prospectus or incorporated by reference in this prospectus, before making an investment decision. This prospectus contains forward-looking statements, which involve risks and uncertainties. Our actual results could differ materially from those anticipated in such forward-looking statements as a result of certain factors, including those discussed in the "Risk Factors" and other sections of this prospectus and in the documents incorporated by reference in this prospectus. Unless the context otherwise requires, references in this prospectus to "we," "us," "our" and "the Company" refer to TransDigm Group Incorporated and its subsidiaries.

As more fully described below under the heading "Recent Developments," on February 7, 2007, we completed the acquisition of Aviation Technologies, Inc., or ATI, and related financing transactions. The acquisition of ATI and the related financing transactions are sometimes collectively referred to in this prospectus as the "Transactions." Except as the context otherwise requires, all pro forma data gives effect to the Transactions.

We and ATI have historically reported our financial results based on different fiscal year-ends. References to the Company's "fiscal year" mean the year ending or ended September 30. For example, "fiscal year 2006" or "fiscal 2006" means the period from October 1, 2005 to September 30, 2006. However, references to ATI's fiscal year mean the year ending or ended December 31.

Our Company

We believe we are a leading global designer, producer and supplier of highly engineered aircraft components for use on nearly all commercial and military aircraft in service today. Our business is well diversified due to the broad range of products we offer to our customers. Some of our more significant product offerings, substantially all of which are ultimately provided to end-users in the aerospace industry, include ignition systems and components, gear pumps, mechanical/electro-mechanical actuators and controls, NiCad batteries/chargers, power conditioning devices, hold-open rods and locking devices, engineered connectors, engineered latches and cockpit security devices, lavatory hardware and components, specialized AC/DC electric motors, aircraft audio systems, specialized cockpit displays and specialized valving. Each of these product offerings consists of many individual products that are typically customized to meet the needs of a particular aircraft platform or customer.

For fiscal year 2006, we generated net sales of \$435.2 million and net income of \$25.1 million. In addition, for fiscal year 2006, our EBITDA was \$134.3 million, or 30.9% of net sales, our EBITDA As Defined was \$194.4 million, or 44.7% of net sales, and our capital expenditures were \$8.4 million, or 1.9% of net sales. For our first fiscal quarter ended December 30, 2006, we generated net sales of \$122.7 million and net income of \$20.3 million. In addition, for our first fiscal quarter ended December 30, 2006, our EBITDA was \$54.1 million, or 44.1% of net sales, our EBITDA As Defined was \$56.3 million, or 45.9% of net sales, and our capital expenditures were \$2.5 million, or 2.0% of net sales.

As described in more detail below, on February 7, 2007, we completed the Transactions. For the twelve-month period ended September 30, 2006, our pro forma net sales would have been \$540.1 million and our pro forma net income would have been \$16.4 million. In addition, for the twelve-month period ended September 30, 2006, our pro forma EBITDA would have been \$160.9 million, or 29.8% of pro forma net sales, and our pro forma EBITDA As Defined would have been \$228.5 million, or 42.3% of pro forma net sales. For our first fiscal quarter ended December 30, 2006, our pro forma net sales would have been \$151.0 million and our pro forma net income would have been \$19.6 million. During this same period, our pro forma EBITDA would have been

\$62.4 million, or 41.3% of pro forma net sales, and our pro forma EBITDA As Defined would have been \$66.0 million, or 43.7% of pro forma net sales.

We estimate that over 90% of our net sales for fiscal year 2006 were generated by proprietary products for which we own the design. In addition, for fiscal year 2006, we estimate that we generated approximately 75% of our net sales from products for which we are the sole source supplier. The ATI business has similar characteristics, with approximately 90% of its net sales for its fiscal year ended December 31, 2006 being generated by its proprietary products, and approximately 85% of its net sales during this period being generated from products for which it is the sole source supplier.

Most of our products generate significant aftermarket revenue. Once our parts are designed into and sold as original equipment on an aircraft, we generate net sales from recurring aftermarket consumption over the life of that aircraft. This installed base and our sole source provider position typically generate a long-term stream of aftermarket revenues over the estimated 30-year life of an individual aircraft. We estimate that approximately 60% of our net sales in fiscal year 2006 were generated from aftermarket sales, the vast majority of which come from the commercial and military aftermarkets. These aftermarket revenues have historically produced a higher gross margin and been more stable than sales to original equipment manufacturers, or OEMs. Similarly, we estimate that approximately 50% of ATI's net sales for its fiscal year ended December 31, 2006 were generated from aftermarket sales.

We provide components for a large, diverse installed base of aircraft and, therefore, we are not overly dependent on any single airframe. For example, we estimate that sales to support any single OEM airframe production requirement did not exceed 4% of our net sales for fiscal year 2006, and sales to support any single aftermarket airframe platform did not exceed 5% of our net sales for this same period.

Industry and Market Overview

We primarily compete in the commercial and military aerospace industry. The commercial aftermarket, where we have historically derived the largest percentage of our net sales, has generally been more stable and has exhibited more consistent growth compared to the commercial OEM market, which has historically exhibited cyclical swings due to changes in production rates for new aircraft. We believe that over any extended period, commercial aftermarket revenue is driven primarily by the number of miles flown by paying customers of commercial airlines, which is known in the industry and referred to in this prospectus as revenue passenger miles, or RPMs, and by the size and age of the worldwide aircraft fleet.

Historically, aftermarket and OEM sales in the military sector tend to follow defense spending. Military aftermarket revenue is driven primarily by the operational tempo of the military, while military OEM revenue is driven primarily by spending on new systems and platforms.

Our Competitive Strengths

We believe our key competitive strengths include:

Large and Growing Installed Product Base with Aftermarket Revenue Stream. We provide components to a large and growing installed base of aircraft to which we supply aftermarket products. We estimate that our products are installed on more than 40,000 commercial transport, regional transport, military and general aviation fixed wing turbine aircraft and over 15,000 rotary wing aircraft.

Diversified Revenue Base. We believe that our diversified revenue base reduces our dependence on any particular product, platform or market segment and has been a significant factor in maintaining our financial performance. Our products are installed on almost all of the major commercial aircraft platforms now in production, including the Boeing 737, 747, 757, 767 and 777, the Airbus A300/310, A319/20/21 and A330/340, the Bombardier CRJ's and Challenger, the Embraer RJ's, the Cessna Citation family, the Raytheon Premier and Hawker and most Gulfstream airframes. Military platforms

include aircraft such as the Boeing C-17, F-15 and F-18, the Lockheed Martin C-130J and F-16, the Northrop Grumman E2C (Hawkeye), the Joint Strikefighter and the Blackhawk, Chinook and Apache helicopters. We expect to continue to develop new products for military and commercial applications. For example, we have been certified to provide, and expect to receive additional certifications to provide, a range of components for the new Boeing 787 and Airbus A380 and A400M.

Significant Barriers to Entry. We believe that the niche nature of our markets, the industry's stringent regulatory and certification requirements, the large number of products that we sell and the investments necessary to develop and certify products create barriers to entry for potential competitors. We believe that because we strive to deliver products that meet or exceed our customers' expectations and performance standards, our customers have a reduced incentive to certify another supplier because of the cost and time of the certification process. In addition, concerns about safety and the indirect costs of flight delays if products are unavailable or undependable make our customers hesitant to switch to new suppliers.

Strong Cash Flow Generation. We have generated strong recurring operating cash flow as a result of our historically high margins and low capital expenditure requirements. We believe that our high margins are the result of the value we provide to our customers through our engineering, service and manufacturing capabilities, our focus on proprietary and high margin aftermarket business, our ability to generate profitable new business and our ability to consistently realize productivity savings. For fiscal years 2006, 2005 and 2004, our EBITDA As Defined margins were 44.7%, 43.9% and 46.3%, respectively. In addition, our low recurring capital expenditure requirements, which have historically been approximately 2% of net sales per year, coupled with our consistent installed revenue base, have historically provided us with a stable stream of cash flows.

Consistent Track Record of Financial Success and Strong Growth. From fiscal year 1994 to fiscal year 2006, our net sales grew at a Compound Annual Growth Rate, or CAGR, of 19.4%, and during this same period our EBITDA As Defined grew at a CAGR of 28.2%.

Value-Driven Management Team with a Successful Track Record. Our operations are managed by a very experienced, value-driven management team with a proven record of growing our business organically, reducing overhead, rationalizing costs and integrating acquisitions. In the aggregate, our management team owns approximately 15.1% of our common stock before this offering, and will own approximately 11.9% of our common stock after this offering (or approximately 11.4% if the underwriters' over-allotment option is exercised in full), in all cases on a fully diluted basis, assuming the exercise of outstanding stock options.

Our Business Strategy

Our business strategy is made up of two key elements: (1) a value-driven operating strategy focused around our three core value drivers; and (2) a selective acquisition strategy.

Value-Driven Operating Strategy. Our three core value drivers are:

- **Obtaining Profitable New Business.** We attempt to obtain profitable new business by using our technical expertise, application skill and our detailed knowledge of our customer base and the individual niche markets in which we operate. We develop reliable, high value-added products that meet our customers' specific new application requirements and/or solve problems with current applications. We have regularly been successful in identifying and developing both aftermarket and OEM products to drive our growth. We work closely with OEMs, airlines and other end users to identify components that are not meeting their performance or reliability expectations. We then attempt to develop products that meet or exceed their expectations. For example, Airbus S.A.S. selected us to design the security bolting system that has been installed on all Airbus cockpit doors to comply with the Federal Aviation Administration, or the FAA, and European regulatory requirements adopted after the events of September 11, 2001. In addition, we have been selected to design and produce the flight deck audio system for the Boeing 787 aircraft.

- *Improving Our Cost Structure.* We attempt to make improvements to our cost structure through detailed attention to the cost of each of the products that we offer and our organizational structure, with a focus on reducing the cost of each. By maintaining this detailed focus across each area of our company, we have been able to consistently improve our overall cost structure through all phases of the market cycles of the aerospace industry.
- *Providing Highly Engineered Value-Added Products to Customers.* We focus on the engineering, manufacturing and marketing of a broad range of highly engineered niche products that we believe provide value to our customers. We have been consistently successful in communicating to our customers the value of our products. This has generally enabled us to price our products to fairly reflect the value we provide and the resources required to do so.

Selective Acquisition Strategy. We selectively pursue the acquisition of proprietary component businesses when we see an opportunity to create value through the application of our three core value-driven operating strategies. The aerospace industry, in particular, remains highly fragmented, with many of the companies in the industry being small private businesses or small non-core operations of larger businesses. We have significant experience among our management team in executing acquisitions and integrating acquired businesses into our company and culture, having successfully acquired and integrated 19 businesses and/or product lines since our formation in 1993.

Recent Developments

On February 7, 2007, we completed the acquisition of ATI, which resulted in ATI becoming a wholly owned subsidiary of TransDigm Inc. Stockholders of ATI received cash in exchange for their shares of ATI. The aggregate purchase price paid by TransDigm Inc. in connection with the acquisition was \$430.0 million, which included the amounts paid by TransDigm Inc. in connection with the repayment of ATI's outstanding indebtedness and the transaction expenses of ATI.

ATI serves the aerospace and defense marketplace with a proprietary, sole source, custom engineered product offering through its wholly owned subsidiaries, Avtech Corporation and ADS/Transicoil. Avtech Corporation has been an industry leader in the design, development and manufacture of electronic systems for the aerospace industry, focusing on audio and power systems, cabin and other lighting products and power control products. ADS/Transicoil focuses on developing and manufacturing products involving micro-mechanics and sophisticated electronics primarily for aerospace and defense applications, including liquid crystal and other cockpit displays, clocks, motors and related components and instruments. We believe that the acquisition of ATI will expand our existing positions in aerospace motors and electrical power applications as well as open up a new growth platform in flight deck and cabin electronics products.

ATI sells a significant amount of proprietary products with substantial aftermarket content. Approximately 90% of ATI's net sales for its fiscal year ended December 31, 2006 were generated from proprietary products and approximately 50% of ATI's net sales during this period were related to the aftermarket. In addition, approximately 80% of ATI's net sales for its fiscal year ended December 31, 2006 came from the commercial sector, with the remaining 20% of such net sales coming from the military sector. ATI has a diversified revenue base with its products installed on almost all of the major commercial platforms now in production, including the Boeing 737, 747, 757, 767 and 777, the Airbus A300/310, A319/20/21, the Bombardier CRJs and Challenger and the Embraer RJs, which reduces its dependence on any particular product or platform. In addition, ATI services most of the same military platforms that we currently serve.

We financed the ATI acquisition through additional borrowings under our senior secured credit facility, the issuance by TransDigm Inc. of additional senior subordinated notes and the use of a portion of our available cash balances. Specifically, on January 25, 2007, we entered into an amendment to our senior secured credit facility which provided for, among other things, an additional term loan of \$130 million. In addition, on February 7, 2007, TransDigm Inc. issued and sold \$300 million of its 7³/₄% senior subordinated notes due 2014, or the new senior subordinated notes. The new senior

subordinated notes were issued under the indenture dated as of June 23, 2006 pursuant to which TransDigm Inc. previously issued \$275 million in aggregate principal amount of its 7³/₄% senior subordinated notes due 2014, or the original senior subordinated notes. The new senior subordinated notes and the original senior subordinated notes are sometimes collectively referred to in this prospectus as the "senior subordinated notes." We used the net proceeds from the issuance and sale of the new senior subordinated notes, together with the net proceeds from the borrowing under the additional term loan under our senior secured credit facility and a portion of our existing cash balances, to fund our acquisition of ATI and to pay related transaction expenses.

Organizational Structure and Related Matters

TransDigm Inc. was formed in July 1993 in connection with the acquisition of certain companies from IMO Industries Inc. TransDigm Group Incorporated, or TD Group, was formed in July 2003 at the direction of Warburg Pincus Private Equity VIII, L.P., or Warburg Pincus, to facilitate the acquisition of TransDigm Holding Company, or TransDigm Holdings. On July 22, 2003, TD Acquisition Corporation, a newly formed, wholly-owned subsidiary of TD Group, was merged with and into TransDigm Holdings with TransDigm Holdings continuing as the surviving corporation. Contemporaneously with the completion of that merger, a newly formed, wholly-owned subsidiary of TD Acquisition Corporation was merged with and into TransDigm Inc., with TransDigm Inc. continuing as the surviving corporation. These mergers are sometimes referred to in this prospectus as the "Mergers." Upon the completion of the Mergers, TransDigm Holdings became a wholly-owned subsidiary of TD Group, and TransDigm Inc. continued to be a wholly-owned subsidiary of TransDigm Holdings. In an effort to simplify our organizational structure, on June 26, 2006, TransDigm Holdings was merged with and into TransDigm Inc., with TransDigm Inc. continuing as the surviving corporation. TransDigm Holdings did not conduct any operations and did not have any significant assets other than its ownership interest in TransDigm Inc. Accordingly, as of the date of this prospectus, TransDigm Inc. is a wholly-owned subsidiary of TD Group.

On March 20, 2006, certain of our stockholders and certain members of our management sold an aggregate of 12,597,756 shares of our common stock in an underwritten initial public offering, or the initial public offering, at a price of \$21.00 per share. We did not offer any shares of common stock for sale in the initial public offering and we did not receive any of the proceeds from the sale of shares by the selling stockholders. Our common stock is listed on The New York Stock Exchange, or the NYSE, under the trading symbol "TDG." The last reported sale price of our common stock on the NYSE on April 18, 2007 was \$38.07 per share.

In connection with the initial public offering, Warburg Pincus and certain other then existing stockholders of TD Group contributed an aggregate of 31,093,057 shares of our common stock to TD Group Holdings, LLC, or TD Group, LLC, in exchange for membership interests in TD Group, LLC. As of the date of this prospectus, TD Group, LLC owns an aggregate of 31,093,057 shares of our common stock, and Warburg Pincus owns approximately 84.4% of the membership interests in TD Group, LLC. In addition, Warburg Pincus is the managing member of TD Group, LLC and, as such, controls all decisions with respect to the voting and disposition of our shares of common stock held by TD Group, LLC. TD Group, LLC is selling shares of common stock in this offering. After giving effect to this offering, TD Group, LLC will own 22,645,285 shares of our common stock (or 21,378,120 shares of our common stock if the underwriters' over-allotment option is fully exercised).

We cannot assure you that the assumptions used in the preparation of the pro forma condensed consolidated financial information will prove to be correct.

We present in this prospectus certain financial information based on our EBITDA and EBITDA As Defined. Neither EBITDA nor EBITDA As Defined is a measurement of financial performance under accounting principles generally accepted in the United States of America, or GAAP, and neither of these financial measures should be considered an alternative to net income or operating cash flows determined in accordance with GAAP, and our calculation of EBITDA and EBITDA As Defined may not be comparable to the calculation of similarly titled measures reported by other companies. While we believe that the presentation of EBITDA and EBITDA As Defined will enhance an investor's understanding of our operating performance, the use of EBITDA and EBITDA As Defined as analytical tools has limitations and you should not consider either of them in isolation, or as a substitute for an analysis of our results of operations as reported in accordance with GAAP. For a reconciliation of EBITDA and EBITDA As Defined to net income and for a description of the manner in which management uses these non-GAAP financial measures to evaluate our business, the economic substance behind management's decision to use these non-GAAP financial measures, the material limitations associated with the use of these non-GAAP financial measures and the manner in which management compensates for these limitations and the reasons why management believes these non-GAAP financial measures provide useful information to investors, please refer to footnotes 6 and 7 below.

The information presented below should be read together with "Pro Forma Condensed Consolidated Financial Data," "Management's Discussion and Analysis of Financial Condition and Results of Operations" and the consolidated financial statements and accompanying notes included elsewhere in this prospectus or incorporated by reference in this prospectus. All amounts set forth below are in thousands, except per share data.

- (1) TD Group's fiscal year ends on September 30. Prior to the acquisition, ATI's fiscal year ended on December 31. For purposes of determining the pro forma statement of operations and other financial data for the twelve-month period ended September 30, 2006, we utilized TD Group's statement of income and other financial data for its fiscal year ended September 30, 2006, and ATI's statement of income and other financial data for its fiscal year ended December 31, 2006. In addition, for purposes of determining the pro forma statement of operations and other financial data for the thirteen week period ended December 30, 2006, we utilized TD Group's statement of income and other financial data for its first fiscal quarter ended December 30, 2006, and ATI's statement of income and other financial data for its fourth fiscal quarter ended December 31, 2006.
- (2) Gross profit and income from operations include the effect of charges relating to purchase accounting adjustments to inventory associated with the acquisition of various businesses and a product line during the pro forma twelve-month period ended September 30, 2006 of \$5.2 million, the fiscal years ended September 30, 2006, 2005 and 2004 of \$0.2 million, \$1.5 million and \$18.5 million, respectively, the pro forma thirteen week period ended December 30, 2006 of \$0 million and the thirteen week periods ended December 30, 2006 and December 31, 2005, of \$0 and \$0, respectively.
- (3) Represents costs incurred in connection with the refinancing transactions completed in June 2006, including the premium paid to redeem the 8³/₈% senior subordinated notes of TransDigm Inc. of \$25.6 million, the write off of debt issue costs of \$22.9 million and other expenses of \$0.1 million.
- (4) Represents a non-cash charge recorded by ATI relating to the disposal of certain property, plant and equipment by ATI during its fourth fiscal quarter ended December 31, 2006.
- (5) Computed as total current assets less total current liabilities.
- (6) EBITDA represents earnings before interest, taxes, depreciation and amortization. EBITDA As Defined represents EBITDA plus, as applicable for the relevant period, inventory purchase accounting adjustments, acquisition integration costs, non-cash compensation and deferred compensation costs, one-time special bonus payments made to members of our management in November 2005, certain acquisition earnout costs, certain other non-cash and non-recurring expenses and certain costs and expenses incurred in connection with our financing activities and the initial public offering.

We present EBITDA because we believe it is a useful indicator of our operating performance. Our management believes that EBITDA is useful to investors because it is frequently used by securities analysts, investors and other interested parties to measure a company's operating performance without regard to items such as interest expense, income tax expense and depreciation and amortization, which can vary substantially from company to company depending upon, among other things, accounting methods, book value of assets, capital structure and the method by which assets are acquired. We also believe EBITDA is useful to our management and investors as a measure of comparative operating performance between time periods and among companies as it is reflective of changes in pricing decisions, cost controls and other factors that affect operating performance.

Our management uses EBITDA As Defined to review and assess our operating performance and management team in connection with our employee incentive programs, the preparation of our annual budget and financial projections. Our management also believes that EBITDA As Defined is useful to investors because the revolving credit facility under our senior secured credit facility requires compliance, on a pro forma basis, with a first lien leverage ratio, which is measured

based on our Consolidated EBITDA. The senior secured credit facility defines Consolidated EBITDA in the same manner as we have defined EBITDA As Defined.

Although we use EBITDA and EBITDA As Defined as measures to assess the performance of our business and for the other purposes set forth above, the use of these non-GAAP financial measures as analytical tools has limitations, and you should not consider any of them in isolation, or as a substitute for analysis of our results of operations as reported in accordance with GAAP. Some of these limitations are:

- none of these measures reflects the significant interest expense, or the cash requirements necessary to service interest payments, on our indebtedness;
- although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and none of these measures reflects any cash requirements for such replacements;
- the omission of the substantial amortization expense associated with our intangible assets further limits the usefulness of these measures;
- none of these measures includes the payment of taxes, which is a necessary element of our operations; and
- EBITDA As Defined excludes the cash expense we have incurred to integrate acquired businesses into our operations, which is a necessary element of certain of our acquisitions.

Because of these limitations, EBITDA and EBITDA As Defined should not be considered as measures of discretionary cash available to us to invest in the growth of our business. Management compensates for these limitations by not viewing EBITDA or EBITDA As Defined in isolation, and specifically by using other GAAP measures, such as net income, net sales and operating profit, to measure our operating performance. Neither EBITDA nor EBITDA As Defined is a measurement of financial performance under GAAP and neither should be considered as an alternative to net income or cash flow from operations determined in accordance with GAAP, and our calculation of EBITDA and EBITDA As Defined may not be comparable to the calculation of similarly titled measures reported by other companies.

RISK FACTORS

Investing in our common stock involves a high degree of risk. You should carefully consider the risks described below, together with the other information contained in this prospectus, before making your decision to invest in shares of our common stock. These risks could have a material and adverse impact on our business, results of operations, financial condition and cash flows. If that were to happen, the trading price of our common stock could decline, and you could lose all or part of your investment.

Risks Related to Our Business

Future terrorist attacks may have a material adverse impact on our business.

Following the September 11, 2001 terrorist attacks, passenger traffic on commercial flights was significantly lower than prior to the attacks and many commercial airlines reduced their operating schedules. Overall, the terrorist attacks resulted in billions of dollars in losses to the airline industry. Any future acts of terrorism and any military response to such acts could result in further acts of terrorism and additional hostilities, including possible retaliatory attacks on sovereign nations, as well as financial, economic and political instability. While the precise effects of any such terrorist attack, military response or instability on our industry and our business is difficult to determine, it could result in further reductions in the use of commercial aircraft. If demand for new aircraft and spare parts decreases, demand for certain of our products would also decrease.

Our business is sensitive to the number of flight hours that our customers' planes spend aloft, the size and age of the worldwide aircraft fleet and our customers' profitability. These items are, in turn, affected by general economic conditions.

Our business is directly affected by, among other factors, changes in RPMs, the size and age of the worldwide aircraft fleet and, to a lesser extent, changes in the profitability of the commercial airline industry. RPMs and airline profitability have historically been correlated with the general economic environment, although national and international events also play a key role. For example, RPMs declined primarily as a result of increased security concerns among airline customers following the events of September 11, 2001. In addition, in recent years, the airline industry has been severely affected by the downturn in the global economy, higher fuel prices, the Severe Acute Respiratory Syndrome, or SARS, epidemic and the conflicts in Afghanistan and Iraq. As a result of the substantial reduction in airline traffic resulting from these events, the airline industry incurred, and some in the industry continue to incur, large losses and financial difficulties. Some carriers have also parked or retired a portion of their fleets and have reduced workforces and flights. During periods of reduced airline profitability, some airlines may delay purchases of spare parts, preferring instead to deplete existing inventories. If demand for new aircraft and spare parts decreases, there would be a decrease in demand for certain of our products.

Our sales to manufacturers of large aircraft are cyclical, and a downturn in sales to these manufacturers may adversely affect us.

Our sales to manufacturers of large commercial aircraft, which accounted for approximately 15% of our net sales in fiscal year 2006, have historically experienced periodic downturns. In the past, these sales have been affected by airline profitability, which is impacted by, among other things, fuel and labor costs, price competition, downturns in the global economy and national and international events, such as the events of September 11, 2001. Prior downturns have adversely affected our net sales, gross margin and net income.

We rely heavily on certain customers for much of our sales.

Our two largest customers for fiscal year 2006 were Honeywell International Inc. and Aviall, Inc. (a distributor of commercial aftermarket parts to airlines throughout the world). These customers accounted for approximately 10% and 9%, respectively, of our net sales in fiscal year 2006. Our top ten customers for fiscal year 2006 accounted for approximately 48% of our net sales. In addition, during the second half of fiscal 2006, The Boeing Company acquired Aviall, Inc. During fiscal 2006, The Boeing Company accounted for approximately 7% of our net sales, and therefore its acquisition of Aviall, Inc. increases our reliance on The Boeing Company as a customer. Honeywell International Inc. and The Boeing Company are also significant customers of ATI, accounting for approximately 7% and 19%, respectively, of ATI's net sales for its fiscal year ended December 31, 2006, and as a result of our acquisition of ATI, our reliance on these two customers has increased.

We generally do not have guaranteed future sales of our products. Further, we enter into fixed price contracts with some of our customers, so we bear the risk of cost overruns.

As is customary in our business, we do not generally have long-term contracts with most of our aftermarket customers and, therefore, do not have guaranteed future sales. Although we have long-term contracts with many of our OEM customers, some of those customers may terminate these contracts on short notice and, in many other cases, our customers have not committed to buy any minimum quantity of our products. In addition, in certain cases, we must anticipate the future volume of orders based upon the historic purchasing patterns of customers and upon our discussions with customers as to their anticipated future requirements, and this anticipated future volume of orders may not materialize.

We also have entered into multi-year, fixed-price contracts with some of our OEM customers, pursuant to which we have agreed to perform the work for a fixed price and, accordingly, realize all the benefit or detriment resulting from any decreases or increases in the costs of making these products. Sometimes we accept a fixed-price contract for a product that we have not yet produced, and this increases the risk of cost overruns or delays in the completion of the design and manufacturing of the product. Most of our contracts do not permit us to recover increases in raw material prices, taxes or labor costs, although some contracts allow renegotiation to address certain material adverse changes.

U.S. military spending is dependent upon the U.S. defense budget.

The U.S. Department of Defense, or the DOD, budget has generally increased for each fiscal year from fiscal year 1997 to the budget for fiscal year 2007, and, based on the Bush Administration's current Future Year Defense Program, the DOD budget is expected to continue to increase modestly through fiscal year 2010. However, future DOD budgets after fiscal year 2007 could be negatively impacted by several factors, including but not limited to the U.S. Government's budget deficits, spending priorities, the cost of sustaining the U.S. military presence in Iraq and Afghanistan and possible political pressure to reduce U.S. Government military spending, each of which could cause the DOD budget to remain unchanged or to decline. A significant decline in U.S. military expenditures in the future could result in a reduction in the amount of our products sold to the various agencies and buying organizations of the U.S. Government.

We are subject to certain unique business risks as a result of supplying equipment and services to the U.S. Government. In addition, government contracts contain unfavorable termination provisions and are subject to modification and audit.

Companies engaged in supplying defense-related equipment and services to U.S. Government agencies are subject to business risks specific to the defense industry. These risks include the ability of the U.S. Government to unilaterally:

- suspend us from receiving new contracts pending resolution of alleged violations of procurement laws or regulations;
- terminate existing contracts;
- reduce the value of existing contracts; and
- audit our contract-related costs and fees, including allocated indirect costs.

Most of our U.S. Government contracts can be terminated by the U.S. Government either for its convenience or if we default by failing to perform under the contract. Termination for convenience provisions provide only for our recovery of costs incurred or committed, settlement expenses and profit on the work completed prior to termination. Termination for default provisions provide for the contractor to be liable for excess costs incurred by the U.S. Government in procuring undelivered items from another source.

On contracts where the price is based on cost, the U.S. Government may review our costs and performance, as well as our accounting and general business practices. Based on the results of such audits, the U.S. Government may adjust our contract-related costs and fees, including allocated indirect costs. In addition, under U.S. Government purchasing regulations, some of our costs, including most financing costs, amortization of intangible assets, portions of research and development costs, and certain marketing expenses may not be subject to reimbursement.

Approximately 7% of our net sales in fiscal year 2006 were to the U.S. Government through various agencies and buying organizations.

In addition to these U.S. Government contract risks, we are at times required to obtain approval from U.S. Government agencies to export our products. Additionally, we are not permitted to export some of our products. A determination by the U.S. Government that we failed to receive required approvals or licenses could eliminate or restrict our ability to sell our products outside the United States, and the penalties that could be imposed by the U.S. Government for failure to comply with these laws could be significant.

Certain of our divisions and subsidiaries have been subject to a pricing review by the DOD Office of the Inspector General.

Five of our divisions and subsidiaries have been subject to a DOD Office of the Inspector General review of our records for the purpose of determining whether the DOD's various buying offices negotiated "fair and reasonable" prices for spare parts purchased from those five divisions and subsidiaries in fiscal years 2002 through 2004. On April 19, 2006, the Inspector General issued its final report dated February 23, 2006 and made public a redacted version of the report. The report recommends (i) that the Defense Logistics Agency request that those five subsidiaries and divisions voluntarily refund, in the aggregate, approximately \$2.6 million for allegedly overpriced parts and (ii) that Defense Logistics Agency contracting officers reevaluate their procedures for determining the reasonableness of pricing for sole source spare parts purchased from those divisions and subsidiaries and seek to develop Strategic Supplier Alliances with those divisions and subsidiaries.

Our position has been, and continues to be, that our pricing has been fair and reasonable and that there is no legal basis for the amount suggested as a refund by the Inspector General in its report. In response to the report, we offered reasons why we disagree with the Inspector General's overall analysis and why computations related to a voluntary refund contained in the report fail to consider key data, such as actual historical sales. If the Defense Logistics Agency requests a voluntary refund from any of our divisions or subsidiaries, we would consider such a request under the circumstances existing at that time.

In February 2006, the Defense Logistics Agency made a request to initiate discussions regarding future pricing and developing an acquisition strategy that would mutually strengthen our business relationship with the Defense Logistics Agency. The parties have discussed future purchasing but negotiations regarding Strategic Supplier Alliances have not commenced, but will likely occur at a later date. As a result of those negotiations, it is possible that the divisions and subsidiaries subject to the pricing review will enter into Strategic Supplier Alliances with the Defense Logistics Agency. It is likely that in connection with any Strategic Supplier Alliance, the Defense Logistics Agency will seek prices for parts based on cost. It is also possible that the DOD may seek alternative sources of supply for such parts. The entry into Strategic Supplier Alliances or a decision by the DOD to pursue alternative sources of supply for parts we currently provide could reduce the amount of revenue we derive from, and the profitability of certain of our supply arrangements with, certain agencies and buying organizations for the U.S. Government.

Our business may be adversely affected if we would lose our government or industry approvals or if more stringent government regulations are enacted or if industry oversight is increased.

The aerospace industry is highly regulated in the United States and in other countries. In order to sell our components, we and the components we manufacture must be certified by the FAA, the DOD and similar agencies in foreign countries and by individual manufacturers. If new and more stringent government regulations are adopted or if industry oversight increases, we might incur significant expenses to comply with any new regulations or heightened industry oversight. In addition, if material authorizations or approvals were revoked or suspended, our business would be adversely affected.

We are dependent on our highly trained employees and any work stoppage or difficulty hiring similar employees could adversely affect our business.

Because our products are complicated and highly engineered, we depend on an educated and trained workforce. There is substantial competition for skilled personnel in the aircraft component industry, and we could be adversely affected by a shortage of skilled employees. We may not be able to fill new positions or vacancies created by expansion or turnover or attract and retain qualified personnel.

As of December 30, 2006, we had approximately 1,440 employees. Approximately 8% of our employees were represented by the United Steelworkers Union, approximately 4% were represented by the United Automobile, Aerospace and Agricultural Implement Workers of America and approximately 6% were represented by the International Brotherhood of Electrical Workers. Collective bargaining agreements between us and these labor unions expire in April 2008, November 2008 and May 2009, respectively. Although we believe that our relations with our employees are satisfactory, we cannot assure you that we will be able to negotiate a satisfactory renewal of these collective bargaining agreements or that our employee relations will remain stable. Because we maintain a relatively small inventory of finished goods, any work stoppage could materially and adversely affect our ability to provide products to our customers.

As of December 31, 2006, ATI had approximately 600 employees, none of whom were covered by labor agreements or affiliated with labor unions.

Our business is dependent on the availability of certain components and raw materials from suppliers.

Our business is affected by the price and availability of the raw materials and component parts that we use to manufacture our components. Our business, therefore, could be adversely impacted by factors affecting our suppliers (such as the destruction of our suppliers' facilities or their distribution infrastructure, a work stoppage or strike by our suppliers' employees or the failure of our suppliers to provide materials of the requisite quality), or by increased costs of such raw materials or components if we were unable to pass along such price increases to our customers. Because we maintain a relatively small inventory of raw materials and component parts, our business could be adversely affected if we were unable to obtain these raw materials and components from our suppliers in the quantities we require or on favorable terms. Although we believe in most cases that we could identify alternative suppliers, or alternative raw materials or component parts, the lengthy and expensive FAA and OEM certification processes associated with aerospace products could prevent efficient replacement of a supplier, raw material or component part.

We could incur substantial costs as a result of violations of or liabilities under environmental laws and regulations.

Our operations and facilities are subject to various environmental laws and regulations that govern, among other things, discharges of pollutants into the air and water, the handling, storage and disposal of hazardous materials and wastes, and the remediation of contamination. We could incur substantial costs, including clean-up costs, fines and sanctions and/or third party property damage or personal injury claims, as a result of violations of or liabilities under environmental laws, relevant common law or the environmental permits required for our operations.

Pursuant to certain environmental laws, a current or previous owner or operator of a contaminated site may be held liable for the entire cost of investigation, removal or remediation of hazardous materials, whether or not the owner or operator knew of, or was responsible for, the presence of any hazardous materials. Persons who arrange for the disposal or treatment of hazardous materials may also be held liable for such costs related to a disposal or treatment site, regardless of whether the affected site is owned or operated by them. Contaminants have been detected at some of our present and former sites, principally in connection with historical operations, and investigations and/or clean-ups have been undertaken by us or by former owners of the sites. We also receive inquiries and notices of potential liability with respect to offsite disposal facilities from time to time. Although we are not aware of any sites for which material obligations exist, the discovery of additional contaminants, the imposition of additional clean-up obligations or the initiation of suits for personal injury or damages to property or natural resources could result in significant liability.

Failure to successfully and efficiently integrate ATI into our operations may adversely affect our operations and financial condition.

As described above, on February 7, 2007, we completed the acquisition of ATI. The integration of ATI into our operations will be a significant undertaking and will require significant attention from our management team. The acquisition involves the integration of two companies that previously operated independently. This integration is a complex, costly and time-consuming process and we cannot assure you that this process will be successful. In addition, the integration of ATI into our operations will require significant one-time costs for tasks such as site visits and audits and may be difficult to execute, and we cannot guaranty or accurately estimate these costs at this time. Additional integration challenges include, among other things:

- retaining existing employees;
- persuading our employees and employees of ATI that the business cultures are compatible, maintaining morale, and retaining and integrating key employees;

- incorporating new facilities into our business operations, including ATI's operations in Malaysia;
- coordinating sales and marketing functions;
- combining products and services;
- integrating systems; and
- maintaining our standards, controls, procedures and policies.

If we are not able to successfully overcome these integration challenges, we may not achieve the benefits we expect from the ATI acquisition.

We intend to pursue future acquisitions. Our business may be adversely affected if we cannot consummate acquisitions on satisfactory terms, or if we cannot effectively integrate acquired operations.

A significant portion of our growth has occurred through acquisitions. Any future growth through acquisitions will be partially dependent upon the continued availability of suitable acquisition candidates at favorable prices and upon advantageous terms and conditions. We intend to pursue acquisitions that we believe will present opportunities consistent with our overall business strategy. However, we may not be able to find suitable acquisition candidates to purchase or may be unable to acquire desired businesses or assets on economically acceptable terms. In addition, we may not be able to raise the capital necessary to fund future acquisitions. In addition, acquisitions involve risks that the businesses acquired will not perform in accordance with expectations and that business judgments concerning the value, strengths and weaknesses of businesses acquired will prove incorrect.

We regularly engage in discussions with respect to potential acquisition and investment opportunities. If we consummate an acquisition, our capitalization and results of operations may change significantly. Future acquisitions could likely result in the incurrence of additional debt and contingent liabilities and an increase in interest and amortization expenses or periodic impairment charges related to goodwill and other intangible assets as well as significant charges relating to integration costs.

In addition, we may not be able to successfully integrate any business we acquire into our existing business. The successful integration of new businesses depends on our ability to manage these new businesses and cut excess costs. The successful integration of future acquisitions may also require substantial attention from our senior management and the management of the acquired business, which could decrease the time that they have to service and attract customers and develop new products and services. In addition, because we may actively pursue a number of opportunities simultaneously, we may encounter unforeseen expenses, complications and delays, including difficulties in employing sufficient staff and maintaining operational and management oversight.

We have recorded a significant amount of intangible assets, which may never generate the returns we expect.

Our acquisitions have resulted in significant increases in identifiable intangible assets and goodwill. As of December 30, 2006, on a pro forma basis, after giving effect to the Transactions, identifiable intangible assets, which primarily include trademarks, trade names, trade secrets, license agreements and technology were approximately \$334.9 million, representing approximately 17.3% of our total assets. As of December 30, 2006, on a pro forma basis, after giving effect to the Transactions, goodwill recognized in accounting for the Mergers, the acquisition of ATI and other recent acquisitions was approximately \$1,217.4 million, representing approximately 63.0% of our total assets. We may never realize the full value of our identifiable intangible assets and goodwill, and to the extent we were to determine that our identifiable intangible assets and/or goodwill were impaired within the meaning of applicable accounting regulations, we would be required to write-off the amount of any impairment.

We face significant competition.

We operate in a highly competitive global industry and compete against a number of companies, including divisions of larger companies, some of which have significantly greater resources than we do, and therefore may be able to adapt more quickly to new or emerging technologies and changes in customer requirements, or devote greater resources to the promotion and sale of their products than we can. Competitors in our product lines are both U.S. and foreign companies and range in size from divisions of large public corporations to small privately held entities. We believe that our ability to compete depends on high product performance, consistent high quality, short lead-time and timely delivery, competitive pricing, superior customer service and support and continued certification under customer quality requirements and assurance programs. We may have to adjust the prices of some of our products to remain competitive.

We could be adversely affected if one of our components causes an aircraft to crash.

Our operations expose us to potential liabilities for personal injury or death as a result of the failure of an aircraft component that we have designed, manufactured or serviced. While we maintain liability insurance to protect us from future products liability claims, in the event of product liability claims our insurers may attempt to deny coverage or any coverage we have may not be adequate. We also may not be able to maintain insurance coverage in the future at an acceptable cost. Any liability not covered by insurance or for which third party indemnification is not available could result in significant liability to us.

In addition, a crash caused by one of our components could damage our reputation for quality products. We believe our customers consider safety and reliability as key criteria in selecting a provider of aircraft components. If a crash were to be caused by one of our components, or if we were to otherwise fail to maintain a satisfactory record of safety and reliability, our ability to retain and attract customers may be materially adversely affected.

Our substantial indebtedness could adversely affect our financial health and could harm our ability to react to changes in our business. We also may be able to incur a significant amount of additional indebtedness.

We have a significant amount of indebtedness. As of December 30, 2006, on a pro forma basis after giving effect to the Transactions, our total indebtedness would have been \$1,358.0 million (including \$3.0 million of premium received in connection with the issuance of the new senior subordinated notes), which would have represented approximately 77.8% of our total capitalization. In addition, we may be able to incur substantial additional indebtedness in the future. For example, as of December 30, 2006, on a pro forma basis after giving effect to the Transactions, we would have had \$198.8 million of unused commitments under our revolving loan facility. Although our senior secured credit facility and the indenture governing our senior subordinated notes contain restrictions on the incurrence of additional indebtedness, these restrictions are subject to a number of significant qualifications and exceptions, and the indebtedness incurred in compliance with these qualifications and exceptions could be substantial. If we incur additional debt, the risks associated with our substantial leverage would increase.

Our substantial indebtedness could have important consequences to investors. For example, it could:

- increase our vulnerability to general economic downturns and industry conditions;
- require us to dedicate a substantial portion of our cash flow from operations to payments on our indebtedness, thereby reducing the availability of our cash flow to fund working capital, capital expenditures, research and development efforts and other general corporate requirements;
- limit our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate;

- place us at a competitive disadvantage compared to competitors that have less debt; and
- limit, along with the financial and other restrictive covenants contained in the documents governing our indebtedness, among other things, our ability to borrow additional funds, make investments and incur liens.

Our substantial level of indebtedness increases the possibility that we may be unable to generate cash sufficient to pay, when due, the principal of, interest on or other amounts due in respect of our indebtedness. We cannot assure you that our business will generate sufficient cash flow from operations, that currently anticipated cost savings and operating improvements will be realized on schedule or at all or that future borrowings will be available to us under our senior secured credit facility or otherwise in amounts sufficient to enable us to service our indebtedness. If we cannot service our debt, we will have to take actions such as reducing or delaying capital investments, selling assets, restructuring or refinancing our debt or seeking additional equity capital.

The terms of our senior secured credit facility and the indenture governing our senior subordinated notes may restrict our current and future operations.

Our senior secured credit facility and the indenture governing our senior subordinated notes contain a number of restrictive covenants that impose significant operating and financial restrictions on us and may limit our ability to engage in acts that may be in our long-term best interests. Our senior secured credit facility and the indenture governing our senior subordinated notes include covenants restricting, among other things, our ability to pay distributions on, redeem or repurchase our capital stock, make investments, sell assets and consolidate, merge or transfer all or substantially all of our assets. A breach of any of these covenants or any of the other covenants contained in our senior secured credit facility or the indenture governing our senior subordinated notes could result in a default under those documents. If any such default occurs, the lenders under our senior secured credit facility and the holders of our senior subordinated notes may elect to declare all outstanding borrowings, together with accrued interest and other amounts payable thereunder, to be immediately due and payable. The lenders under our senior secured credit facility also have the right in these circumstances to terminate any commitments they have to provide further borrowings. In addition, following an event of default under our senior secured credit facility, the lenders under that facility will have the right to proceed against the collateral granted to them to secure the debt.

Risks Related to Our Common Stock

Our stock prices may be volatile, and your investment in our common stock could suffer a decline in value.

There has been significant volatility in the market price and trading volume of equity securities, which is unrelated to the financial performance of the companies issuing the securities. These broad market fluctuations may negatively affect the market price of our common stock. You may not be able to resell your shares at or above the purchase price due to fluctuations in the market price of our common stock caused by changes in our operating performance or prospects, including possible changes due to the cyclical nature of the aerospace industry and other factors such as fluctuations in OEM and aftermarket ordering, which could cause short-term swings in profit margins.

Future sales of our common stock in the public market could lower our share price.

A substantial amount of our outstanding stock is held by affiliates and not currently traded in the public market. While the sale of these shares into the open market may be limited by applicable regulations, the holders of these shares are not bound by any contractual obligations not to sell, other than the "lock-up" arrangements described below. Thus, our existing stockholders may sell additional shares of our common stock into the public markets. In addition, we may sell additional shares of our common stock into the public markets or issue convertible debt securities to raise capital in the future. The market price of our common stock could decline as a result of sales of a large number of shares of

our common stock in the public markets or the perception that these sales could occur. These sales, or the possibility that these sales may occur, also might make it more difficult for us to sell equity securities to raise capital at a time and price that we deem appropriate.

After the consummation of this offering, we will have outstanding 46,559,427 shares of common stock and options to purchase an additional 6,429,063 shares of common stock (or 46,782,098 shares of common stock and options to purchase an additional 6,206,392 shares of common stock if the underwriters' over-allotment option is exercised in full). The number of shares of common stock outstanding after this offering includes the shares being sold by the selling stockholders in this offering, which may be resold immediately in the public market. Of the remaining 42,988,490 outstanding shares and shares issuable upon exercise of options, 26,797,252 or 62.3% of our total outstanding shares and shares issuable upon exercise of options will be restricted from immediate resale under the "lock-up" agreements between certain of our current stockholders and option holders and the underwriters described in the section entitled "Underwriting" below, but may be sold into the market after those "lock-up" restrictions expire or if they are waived by Credit Suisse Securities (USA) LLC, as the representative of the underwriters, in its sole discretion. The outstanding shares and shares issuable upon exercise of options subject to the "lock-up" restrictions will generally become available for sale at various times following the expiration of the lock-up agreements, which is 90 days after the date of this prospectus, subject to the volume limitations and manner-of-sale requirements under Rule 144 of the Securities Act of 1933, as amended, or the Securities Act.

Our principal stockholder and its affiliates will be able to influence matters requiring stockholder approval and could discourage the purchase of our outstanding shares at a premium.

Warburg Pincus, through its control of TD Group, LLC, may be deemed to beneficially own approximately 69.0% of our outstanding common stock as of March 31, 2007 (after giving effect to this offering, Warburg Pincus, through its control of TD Group, LLC, may continue to be deemed to beneficially own approximately 48.6% of our outstanding common stock (or 45.7% if the underwriters' over-allotment option is exercised in full)). This concentration of ownership may have the effect of delaying, preventing or deterring a change in control of our company, could deprive our stockholders of an opportunity to receive a premium for their common stock as part of a sale or merger of our company and may negatively affect the market price of our common stock. These transactions might include proxy contests, tender offers, mergers or other purchase of common stock that could give you the opportunity to realize a premium over the then-prevailing market price for shares of our common stock.

As a result of Warburg Pincus' control of TD Group, LLC and representation on our Board of Directors, Warburg Pincus will be able to influence all affairs and actions of our company, including matters requiring stockholder approval, such as the election of directors and approval of significant corporate transactions. The interest of Warburg Pincus may differ from the interest of our other stockholders. For example, Warburg Pincus could oppose a third party offer to acquire us that you might consider attractive, and the third party may not be able or willing to proceed unless Warburg Pincus supports the offer. In addition, if our Board of Directors supports a transaction requiring an amendment to our certificate of incorporation, Warburg Pincus, through its control of TD Group, LLC, is currently in a position to defeat any required stockholder approval of the proposed amendment. If our Board of Directors supports an acquisition of us by means of a merger or similar transaction, the vote of Warburg Pincus, as the managing member of TD Group, LLC, alone is currently sufficient to approve or block the transaction under Delaware law. In each of these cases and in similar situations, you may disagree with Warburg Pincus as to whether the action opposed or supported by Warburg Pincus is in the best interest of our stockholders. Furthermore, Warburg Pincus has no obligation to provide us with any additional equity or debt financing.

We currently are a "controlled company" within the meaning of the NYSE listing requirements and, as a result, are exempt from certain corporate governance requirements. Upon completion of this offering we may no longer be a "controlled company" within the meaning of the NYSE listing requirements and we may have difficulties complying with the NYSE listing requirements relating to the composition of our Board of Directors and the committees thereof.

Because TD Group, LLC controls more than 50% of the voting power of our common stock, we are currently considered to be a "controlled company" for the purposes of the NYSE listing requirements. Under the NYSE listing requirements, a "controlled company" may elect not to comply with certain NYSE corporate governance requirements, including (1) the requirement that a majority of our Board of Directors consist of independent directors, (2) the requirement that the nominating and corporate governance committee of our Board of Directors be composed entirely of independent directors and (3) the requirement that the compensation committee of our Board of Directors be composed entirely of independent directors. Given that TD Group, LLC currently controls a majority of the voting power of our common stock, we have elected to opt out of compliance with the aforementioned NYSE corporate governance requirements. Accordingly, our stockholders currently do not have the same protections afforded to stockholders of companies that are subject to all of the NYSE corporate governance requirements.

At the conclusion of this offering, we will no longer be a "controlled company" within the meaning of the NYSE listing requirements and, in accordance with the NYSE rules, we will have to phase in compliance with the NYSE listing requirements, including the requirements that our Board of Directors consist of a majority of independent directors and that our nominating and corporate governance committee and our compensation committee consist entirely of independent directors. Under the NYSE listing standards, upon the closing of this offering, we will be required to have at least one independent member on each of the nominating and corporate governance committee and the compensation committee. Within 90 days of the closing of this offering, each of the nominating and corporate governance committee and the compensation committee must consist of a majority of independent directors, and within twelve months of the closing of this offering, the members of these committees must all be independent within the meaning of the NYSE listing requirements. In addition, within twelve months of the closing of this offering, the majority of our Board of Directors must be independent within the meaning of the NYSE listing requirements. Only three members of our current Board of Directors qualify as independent directors under the NYSE rules. We intend to comply with the NYSE listing requirements and we are in the process of formulating a plan to achieve compliance. We may not be able to attract and retain the number of independent directors needed to comply with the NYSE listing requirements during the phase-in period for compliance.

Our corporate documents and Delaware law contain provisions that could discourage, delay or prevent a change in control of our company.

Provisions in our amended and restated certificate of incorporation and bylaws may discourage, delay or prevent a merger or acquisition involving us that our stockholders may consider favorable. For example, our amended and restated certificate of incorporation authorizes our Board of Directors to issue up to 149,600,000 shares of "blank check" preferred stock. Without stockholder approval, the Board of Directors has the authority to attach special rights, including voting and dividend rights, to this preferred stock. With these rights, preferred stockholders could make it more difficult for a third party to acquire us. In addition, our amended and restated certificate of incorporation provides for a staggered Board of Directors, whereby directors serve for three-year terms, with approximately one-third of the directors coming up for re-election each year. Having a staggered board will make it more difficult for a third party to obtain control of our Board of Directors through a proxy contest, which may be a necessary step in an acquisition of us that is not favored by our Board of Directors. Our amended and restated certificate of incorporation also provides that the affirmative vote of the holders of at least 75% of the voting power of our issued and outstanding capital stock, voting together

as a single class, is required for the alteration, amendment or repeal of certain provisions of our amended and restated certificate of incorporation, including the provisions authorizing a staggered board, and certain provisions of our amended and restated bylaws, including the provisions relating to our stockholders' ability to call special meetings, notice provisions for stockholder business to be conducted at an annual meeting, requests for stockholder lists and corporate records, nomination and removal of directors, and filling of vacancies on our Board of Directors.

We are also subject to the anti-takeover provisions of Section 203 of the Delaware General Corporation Law. Under these provisions, if anyone becomes an "interested stockholder," we may not enter into a "business combination" with that person for three years without special approval, which could discourage a third party from making a takeover offer and could delay or prevent a change of control. For purposes of Section 203, "interested stockholder" means, generally, someone owning 15% or more of our outstanding voting stock or an affiliate of ours that owned 15% or more of our outstanding voting stock during the past three years, subject to certain exceptions as described in Section 203. TD Group, LLC, Warburg Pincus and their affiliates do not constitute "interested stockholders" for purposes of Section 203 of the Delaware General Corporation Law.

We do not intend to pay regular cash dividends on our common stock in the foreseeable future.

We do not anticipate declaring or paying regular cash dividends on our common stock or any other equity security in the foreseeable future. The amounts that may be available to us to pay cash dividends are restricted under our debt and other agreements. Any payment of cash dividends on our common stock in the future will be at the discretion of our Board of Directors and will depend upon our results of operations, earnings, capital requirements, financial condition, future prospects, contractual restrictions and other factors deemed relevant by our Board of Directors. Therefore, you should not rely on dividend income from shares of our common stock.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus and the documents incorporated by reference in this prospectus contain both historical and forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act. All statements other than statements of historical fact included in this prospectus and the documents incorporated by reference in this prospectus that address activities, events or developments that we expect, believe or anticipate will or may occur in the future are forward-looking statements including, in particular, the statements about our plans, objectives, strategies and prospects regarding, among other things, our financial condition, results of operations and business. We have identified some of these forward-looking statements with words like "believe," "may," "will," "should," "expect," "intend," "plan," "predict," "anticipate," "estimate" or "continue" and other words and terms of similar meaning. These forward-looking statements are based on current expectations about future events affecting us and are subject to uncertainties and factors relating to our operations and business environment, all of which are difficult to predict and many of which are beyond our control. Many factors mentioned in our discussion in this prospectus and the documents incorporated by reference in this prospectus, including the risks outlined under "Risk Factors," will be important in determining future results. Although we believe that the expectations reflected in these forward-looking statements are reasonable, we do not know whether our expectations will prove correct. They can be affected by inaccurate assumptions we might make or by known or unknown risks and uncertainties, including those described under "Risk Factors" and those discussed in other documents we file with the SEC which are incorporated by reference in this prospectus. Since our actual results, performance or achievements could differ materially from those expressed in, or implied by, these forward-looking statements, we cannot give any assurance that any of the events anticipated by these forward-looking statements will occur or, if any of them do, what impact they will have on our business, results of operations and financial condition. You are cautioned not to place undue reliance on these forward-looking statements. We do not undertake any obligation to update these forward-looking statements to reflect new information, future events or otherwise, except as may be required under federal securities laws.

DIVIDEND POLICY

We do not anticipate declaring or paying regular cash dividends on our common stock in the foreseeable future. Any payment of cash dividends on our common stock in the future will be at the discretion of our Board of Directors and will depend upon our results of operations, earnings, capital requirements, financial condition, future prospects, contractual restrictions and other factors deemed relevant by our Board of Directors. We are a holding company and conduct all of our operations through our direct and indirect subsidiaries. Unless we receive dividends, distributions, advances, transfers of funds or other payments from our subsidiaries we will be unable to pay any dividends on our common stock in the future. The ability of our subsidiaries to take any of the foregoing actions are limited by the terms of our existing debt documents and may be limited by future debt or other agreements that we may enter into from time to time.

As of December 30, 2006, and after giving effect to the Transactions, the senior secured credit facility consisted of a \$780.0 million term loan facility, all of which was fully drawn, and a \$200.0 million revolving loan facility, with total borrowing availability of \$198.8 million.

In addition, the number of shares our common stock shown as issued and outstanding in the table above excludes shares of common stock that will be issued upon exercise of stock options by members of our management in connection with this offering.

PRO FORMA CONDENSED CONSOLIDATED FINANCIAL DATA

The following pro forma condensed consolidated financial data is based on the historical financial statements of TD Group and ATI, each included elsewhere in this prospectus or incorporated by reference in this prospectus, adjusted to give pro forma effect to the Transactions. The pro forma condensed consolidated balance sheet as of December 30, 2006 gives effect to the Transactions as if they had occurred as of December 30, 2006. The pro forma condensed consolidated statements of income for the twelve-month period ended September 30, 2006 and for the thirteen week period ended December 30, 2006 give effect to the Transactions as if they had been consummated on October 1, 2005.

Assumptions underlying the pro forma adjustments necessary to fairly present this pro forma information are described in the accompanying notes, which should be read in conjunction with this pro forma condensed consolidated financial data. The pro forma adjustments described in the accompanying notes have been made based on available information and, in the opinion of management, are reasonable. The pro forma condensed consolidated financial data should not be considered indicative of actual results that would have been achieved had the Transactions occurred on the respective dates indicated and do not purport to indicate balance sheet data or results of operations as of any future date or for any future period. We cannot assure you that the assumptions used in the preparation of the pro forma condensed consolidated financial data will prove to be correct. The pro forma condensed consolidated financial statements should be read together with the historical financial statements of TD Group and ATI and the notes thereto, and other financial information included or incorporated by reference in this prospectus, together with the other documents filed by TD Group with the SEC that are incorporated by reference in this prospectus. The pro forma condensed consolidated financial statements include certain reclassifications from the historical financial statements of ATI in order to conform to the historical financial statements of TD Group.

The acquisition of ATI was accounted for as a purchase in conformity with Statement of Financial Accounting Standards, or SFAS, No. 141, Business Combinations, with intangible assets recorded in accordance with SFAS No. 142, Goodwill and Other Intangible Assets. The allocation of the excess of the purchase price over the historical basis of the net assets acquired is preliminary and is included in the accompanying pro forma condensed consolidated financial data based on valuation estimates and certain assumptions that management believes are reasonable.

In connection with the offering, the underwriters may purchase and sell shares of our common stock in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in the offering. "Covered" short sales are sales made in an amount not greater than the underwriters' option to purchase additional shares from the selling stockholders. The underwriters may close out any covered short position by either exercising their option to purchase additional shares or purchasing shares in the open market. In determining the source of shares to close out the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase additional shares pursuant to the option granted to them. "Naked" short sales are any sales in excess of such option. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the common stock in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchases of common stock made by the underwriters in the open market prior to the completion of the offering.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased shares sold by or for the account of such underwriter in stabilizing or short covering transactions.

Purchases to cover a short position and stabilizing transactions may have the effect of preventing or retarding a decline in the market price of our common stock, and together with the imposition of the penalty bid, may stabilize, maintain or otherwise affect the market price of our common stock. As a result, the price of our common stock may be higher than the price that otherwise might exist in the

open market. If these activities are commenced, they may be discontinued at any time. These transactions may be effected on the NYSE, in the over-the-counter market or otherwise.

The underwriters do not expect sales to discretionary accounts to exceed five percent of the total number of shares offered.

We have agreed to pay the expenses of the offering, excluding underwriting discounts and commissions, which we estimate will be approximately \$668,458.

We and the selling stockholders have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act.

Certain of the underwriters and their respective affiliates have, from time to time, performed, and may in the future perform, various financial advisory, investment banking and commercial banking services in the ordinary course of business for us and for Warburg Pincus and certain of the selling stockholders or their affiliates, for which they have received or will receive customary fees and expenses. Credit Suisse Securities (USA) LLC, Lehman Brothers Inc., Banc of America Securities LLC and UBS Securities LLC each acted as an underwriter in connection with our initial public offering in March 2006. In addition, an affiliate of Credit Suisse Securities (USA) LLC acts as a lender and the administrative agent and collateral agent under our senior secured credit facility, and certain affiliates of the other underwriters have or may act as lenders or agents thereunder. In addition, Credit Suisse Securities (USA) LLC and Banc of America Securities LLC each acted as an initial purchaser and a joint book-running manager and UBS Securities LLC acted as an initial purchaser in connection with the June 2006 offering of the original senior subordinated notes, and Credit Suisse Securities (USA) LLC and Lehman Brothers Inc. each acted as an initial purchaser and a joint book-running manager in connection with the February 2007 offering of the new senior subordinated notes. Credit Suisse Securities (USA) LLC also acted as an initial purchaser and the sole lead book-running manager, and Banc of America Securities LLC and UBS Securities LLC each acted as an initial purchaser and co-manager, in connection with the July 2003 offering of 8³/₈% senior subordinated notes by TransDigm Inc. Credit Suisse Securities (USA) LLC acted as dealer-manager and solicitation agent in connection with the May 2006 tender offer for our then outstanding 8³/₈% senior subordinated notes. In addition, affiliates of Credit Suisse Securities (USA) LLC, an affiliate of Lehman Brothers Inc. and Banc of America Securities LLC acted as arrangers, agents and lenders in connection with a loan facility under which TD Group was the borrower, which facility was repaid in June 2006. An affiliate of Credit Suisse Securities (USA) LLC also acted as dealer-manager and solicitation agent in connection with TransDigm Inc.'s July 2003 tender offer for its then outstanding 10³/₈% senior subordinated notes.

A prospectus in electronic format will be made available on the website maintained by one or more of the lead managers of this offering and may also be made available on websites maintained by other underwriters. The underwriters may agree to allocate a number of shares to underwriters for sale to their online brokerage account holders. Internet distributions will be allocated by the lead managers to underwriters that may make Internet distributions on the same basis as other allocations.

The common stock will be offered for sale in those jurisdictions in the United States, Europe, Asia and elsewhere where it is lawful to make such offers.

Each of the underwriters has represented and agreed that it has not offered, sold or delivered and will not offer, sell or deliver any of the common stock directly or indirectly, or distribute this prospectus or any other offering material relating to the common stock, in or from any jurisdiction except under circumstances that will result in compliance with the applicable laws and regulations thereof and that will not impose any obligations on us except as set forth in the underwriting agreement.

Resale Restrictions

The distribution of the common stock in Canada is being made only on a private placement basis exempt from the requirement that we and the selling stockholders prepare and file a prospectus with the securities regulatory authorities in each province where trades of common stock are made. Any resale of the common stock in Canada must be made under applicable securities laws which will vary depending on the relevant jurisdiction, and which may require resales to be made under available statutory exemptions or under a discretionary exemption granted by the applicable Canadian securities regulatory authority. Purchasers are advised to seek legal advice prior to any resale of the common stock.

Representations of Purchasers

By purchasing common stock in Canada and accepting a purchase confirmation, a purchaser is representing to us, the selling stockholders and the dealer from whom the purchase confirmation is received that:

- the purchaser is entitled under applicable provincial securities laws to purchase the common stock without the benefit of a prospectus qualified under those securities laws,
- where required by law, that the purchaser is purchasing as principal and not as agent,
- the purchaser has reviewed the text above under Resale Restrictions, and
- the purchaser acknowledges and consents to the provision of specified information concerning its purchase of the common stock to the regulatory authority that by law is entitled to collect the information.

Further details concerning the legal authority for this information is available on request.

Under Ontario securities legislation, certain purchasers who purchase a security offered by this prospectus during the period of distribution will have a statutory right of action for damages, or while still the owner of the common stock, for rescission against us and the selling stockholders in the event that this prospectus contains a misrepresentation without regard to whether the purchaser relied on the misrepresentation. The right of action for damages is exercisable not later than the earlier of 180 days from the date the purchaser first had knowledge of the facts giving rise to the cause of action and three years from the date on which payment is made for the common stock. The right of action for rescission is exercisable not later than 180 days from the date on which payment is made for the common stock. If a purchaser elects to exercise the right of action for rescission, the purchaser will have no right of action for damages against us or the selling stockholders. In no case will the amount recoverable in any action exceed the price at which the common stock was offered to the purchaser and if the purchaser is shown to have purchased the securities with knowledge of the misrepresentation, we and the selling stockholders will have no liability. In the case of an action for damages, we and the selling stockholders will not be liable for all or any portion of the damages that are proven to not represent the depreciation in value of the common stock as a result of the misrepresentation relied upon. These rights are in addition to, and without derogation from, any other rights or remedies available at law to an Ontario purchaser. The foregoing is a summary of the rights available to an Ontario purchaser. Ontario purchasers should refer to the complete text of the relevant statutory provisions.

TRANSDIGM GROUP INCORPORATED

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

THIRTEEN WEEK PERIODS ENDED DECEMBER 30, 2006 AND DECEMBER 31, 2005

(Unaudited)

1. DESCRIPTION OF THE BUSINESS AND MERGER

Description of the Business—TransDigm Group Incorporated ("TD Group"), through its wholly-owned subsidiary, TransDigm Inc., is a leading global designer, producer and supplier of highly engineered aircraft components for use on nearly all commercial and military aircraft in service today. TransDigm Inc., which includes the AeroControlex and Adel Wiggins Groups, along with its wholly-owned operating subsidiaries, MarathonNorco Aerospace, Inc., Adams Rite Aerospace, Inc., Champion Aerospace Inc., Avionic Instruments, Inc., Skurka Aerospace Inc., Sweeney Engineering Corp. and CDA InterCorp (collectively, with TD Group, the "Company" or "TransDigm") offers a broad range of proprietary aerospace components. Major product offerings, substantially all of which are ultimately provided to end-users in the aerospace industry, include ignition systems and components, gear pumps, mechanical/electromechanical actuators and controls, NiCad batteries/chargers, power conditioning devices, hold open rods and locking devices, engineered connectors, engineered latches, cockpit security devices, lavatory hardware and components, specialized AC/DC electric motors and specialized valving.

TransDigm Holding Company ("TransDigm Holdings") was a wholly-owned subsidiary of TD Group and the direct parent of TransDigm Inc. and was merged into TransDigm Inc. on June 26, 2006.

TD Group was incorporated on July 8, 2003 under the name TD Holding Corporation by outside investors to acquire control of TransDigm Holdings through the Merger described below and had no operations prior to the Merger. TD Group has no significant assets or operations other than its 100% ownership of TransDigm Inc.

Initial Public Offering—On March 20, 2006, TD Group completed an initial public offering ("IPO") of its common stock. As a result of the IPO, TD Group's common stock is publicly traded on the New York Stock Exchange under the ticker symbol "TDG".

On March 14, 2006, TD Group effected a 149.60 for 1.00 stock split and, in conjunction therewith, amended and restated its certificate of incorporation to increase the number of authorized shares of common stock and preferred stock. All common shares and per common share amounts in these condensed consolidated financial statements prior to March 14, 2006 have been retroactively adjusted for all periods presented to give effect to the stock split, including reclassifying an amount equal to the increase in par value from additional paid-in capital to common stock.

Merger—On July 22, 2003, an entity formed by Warburg Pincus Private Equity VIII, L.P. ("Warburg Pincus") merged with and into TransDigm Holdings, with TransDigm Holdings continuing as the surviving corporation as a wholly-owned subsidiary of a newly formed corporation controlled by Warburg Pincus, TD Group (the "Merger").

Separate Financial Statements—Separate financial statements of TransDigm Inc. are not presented since TransDigm Inc.'s 7³/₄% senior subordinated notes, or the 7 /4% Senior Subordinated Notes, are fully and unconditionally guaranteed on a senior subordinated basis by TD Group and all existing domestic subsidiaries of TransDigm Inc. and since TD Group has no significant operations or assets separate from its investment in TransDigm Inc.

2. UNAUDITED INTERIM FINANCIAL INFORMATION

The financial information included herein is unaudited; however, the information reflects all adjustments (consisting solely of normal recurring adjustments) that are, in the opinion of management, necessary for a fair presentation of the Company's financial position and results of operations and cash

flows for the interim periods presented. These financial statements and notes should be read in conjunction with the financial statements and related notes for the year ended September 30, 2006 included in its Form 10-K dated November 28, 2006. The September 30, 2006 condensed consolidated balance sheet was derived from the TD Group's audited financial statements. The results of operations for the thirteen week periods ended December 30, 2006 are not necessarily indicative of the results to be expected for the full year.

3. NEW ACCOUNTING STANDARDS

In September 2006, the SEC issued Staff Accounting Bulletin No. 108, "Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements" ("SAB 108"). SAB 108 requires companies to evaluate the materiality of identified unadjusted errors on each financial statements and related financial statement disclosure using both the rollover approach and the iron curtain approach. The requirements of SAB 108 are effective for annual financial statements covering the first fiscal year ending after November 15, 2006. The Company has adopted SAB 108 during its first quarter of fiscal year 2007. The adoption of SAB 108 did not have a material impact on the Company's consolidated financial position or results of operations.

In September 2006, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 158, "Employer's Accounting for Defined Benefit Pension and Other Postretirement Plans-an amendment of FASB Statements No. 87, 88, 106, and 132(R) ("SFAS 158"). This statement requires balance sheet recognition of the overfunded or underfunded status of pension and postretirement benefit plans. Under SFAS 158, actuarial gains and losses, prior service costs or credits, and any remaining transition assets or obligations that have not been recognized under previous accounting standards must be recognized in Accumulated Other Comprehensive Income, net of tax effects, until they are amortized as a component of net periodic benefit cost. In addition, the measurement date, the date at which plan assets and the benefit obligation are measured, is required to be the company's fiscal year end. Presently, the Company uses a September 30 measurement date for its defined benefit pension plans. SFAS 158 is effective for publicly-held companies for fiscal years ending after December 15, 2006, except for the measurement date provisions, which are effective for fiscal years ending after December 15, 2008. The Company anticipates that the adoption of this pronouncement will not have a material impact on its consolidated financial position or results of operations.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, "Fair Value Measurements" which is effective for fiscal years beginning after November 15, 2007 and for interim periods within those years. This statement defines fair value, establishes a framework for measuring fair value and expands the related disclosure requirements. The Company has not determined the impact, if any, that this statement will have on its consolidated financial position or results of operations.

In July 2006, the FASB issued Financial Accounting Standards Board Interpretation No. 48, "Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109" ("FIN 48"). FIN 48 prescribes the minimum accounting and disclosure requirements of uncertain tax positions. FIN 48 also provides guidance on the derecognition, measurement, classification, interest and penalties, and transition of uncertain tax positions. FIN 48 is effective for fiscal periods beginning after

December 15, 2006. The Company is currently analyzing the expected impact of adoption of FIN 48 on its financial statements.

4. ACQUISITIONS

CDA—On October 3, 2006, TransDigm Inc. acquired all of the outstanding capital stock of CDA InterCorp ("CDA") for \$45.3 million in cash, subject to adjustment based on the level of working capital as of the close of the acquisition. CDA designs and manufactures specialized controllable drive actuators, motors, transducers, and gearing. The products fit closely with TransDigm's existing business. The Company expects that the \$40.7 million of goodwill recognized for the acquisition will not be deductible for tax purposes.

Sweeney—On June 12, 2006, TransDigm Inc. acquired all of the outstanding capital stock of Sweeney Engineering Corp. ("Sweeney") for \$25.5 million in cash. Sweeney designs and manufactures specialized aerospace valving used primarily in fuel, environmental control, and de-icing applications. The products are used on defense and commercial aircraft applications. Sweeney's product characteristics and market position fit well with TransDigm's overall direction. The acquired business was consolidated into AeroControlex's existing business in Painesville, Ohio. The Company expects that the \$21.1 million of goodwill recognized for the acquisition will not be deductible for tax purposes.

The Company accounted for the acquisitions of CDA and Sweeney as purchases and included the results of operations of CDA and Sweeney in its consolidated financial statements for the effective date of each acquisition. The Company is in the process of obtaining third-party valuations of certain tangible and intangible assets of CDA and Sweeney; thus, the values attributed to acquired assets in the consolidated financial statements are subject to adjustment. Pro forma net sales and results of operations for CDA and Sweeney, had they occurred at the beginning of the thirteen week periods ended December 30, 2006 and December 31, 2005, respectively, are not significant and, accordingly, are not provided.

5. INVENTORIES

Inventories are stated at the lower of cost or market. Cost of inventories is determined by the average cost and the first-in, first-out (FIFO) methods. Inventories consist of the following (in thousands):

Work-in-progress and finished goods	\$ 59,451	\$ 51,077

The total carrying amount of identifiable intangible assets not subject to amortization consists of \$125.5 million of trademarks and trade names at both December 30, 2006 and September 30, 2006.

The aggregate amortization expense on identifiable intangible assets for the thirteen week periods ended December 30, 2006 and December 31, 2005 was approximately \$1.6 million, and \$1.8 million, respectively. The estimated amortization expense for fiscal 2007 is \$7.0 million and for each of the five succeeding years 2008 through 2012 is \$5.7 million, \$5.6 million, \$5.6 million, \$5.6 million and \$5.5 million, respectively.

The following is a summary of the changes in the carrying value of goodwill from September 30, 2006 through December 30, 2006 (in thousands):

Balance, September 30, 2006	\$ 877,829
Additional goodwill recognized in accounting for acquisition of CDA	40,676
Other	131
	<hr/>
Balance, December 30, 2006	\$ 918,636

7. PRODUCT WARRANTY

The Company provides limited warranties in connection with the sale of its products. The warranty period for products sold varies among the Company's operations, ranging from 90 days to five years; however, the warranty period for the majority of the Company's sales generally does not exceed one year. A provision for the estimated cost to repair or replace the products is recorded at the time of sale and periodically adjusted to reflect actual experience.

The following table presents a reconciliation of changes in the product warranty liability for the periods indicated below (in thousands):

	Thirteen Week Period Ended	
	December 30, 2006	December 31, 2005
Liability balance at beginning of period	\$ 2,472	\$ 2,789
Accruals for warranties issued	417	237
Warranty costs incurred	(343)	(402)
Liability balance at end of period	\$ 2,546	\$ 2,624

8. INCOME TAXES

At the end of each reporting period, the Company makes an estimate of its annual effective income tax rate. The estimate used in the year-to-date period may change in subsequent periods. The Company recorded an income tax provision of \$11.7 million in the thirteen week period ended December 30, 2006 compared to \$5.6 million in the prior year period. The effective tax rate for the thirteen week period ended December 30, 2006 was 36.6% compared to 38.2% for the comparable period in the prior year. The lower effective tax rate was primarily due to the retroactive reinstatement of the research and development tax credit. The federal research and development tax credit expired on December 31, 2005. On December 20, 2006, the Tax Relief and Health Care Act of 2006 was enacted, which retroactively reinstated and extended the research and development tax credit from January 1, 2006 to December 31, 2007. The retroactive benefit for the previously expired period from January 1, 2006 to September 30, 2006 is reflected as a discrete item which lowered the Company's effective tax rate by approximately 1.5%.

9. EARNINGS PER SHARE CALCULATION

The following table sets forth the computation of basic and diluted earnings per share:

(in thousands, except per share data)	Thirteen Week Periods Ended	
	December 30, 2006	December 31, 2005
Basic Earnings Per Share Computation:		
Net income	20,335	8,984
Weighted-average shares outstanding	44,773	44,202
Basic earnings per share	0.45	0.20
Diluted Earnings Per Share Computation:		
Net income	20,335	8,984
Weighted-average shares outstanding ⁽¹⁾	44,773	44,202
Effect of dilutive options outstanding	3,029	2,455
Total weighted-average shares outstanding	47,802	46,657
Diluted earnings per share	0.43	0.19

(1) Stock options totaling 0.1 million outstanding at December 30, 2006 were excluded from the diluted earnings per share computation for the thirteen weeks ended December 30, 2006, due to the anti-dilutive effect of such options.

10. STOCK COMPENSATION PLANS

The Company's stock compensation plans are designed to assist us in attracting, retaining, motivating and rewarding key employees, directors or consultants, and promoting the creation of long-term value for stockholders by closely aligning the interests of these individuals with those of the Company's stockholders. The Company's stock compensation plans provide the granting of stock options, restricted stock and other stock-based incentives.

Prior to December 20, 2006 the Company used the minimum value method of accounting for stock based compensation as provided for in Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation" ("SFAS 123"). Concurrent with the initial filing of the Company's Registration Statement on Form S-1 on December 20, 2006, on a prospective basis, the Company converted to the fair value method also provided for in SFAS 123. The minimal value method does not require the use of a volatility factor in measuring the value of a stock based compensation grant.

Effective October 1, 2006, the Company adopted Statement of Financial Accounting Standards No. 123R, "Share-Based Payment," ("SFAS 123R"), which replaces SFAS 123 utilizing the modified prospective method. SFAS 123R requires stock based compensation to be measured using the fair value method of accounting. The Company records compensation expense for service based awards under the straight line method. Expense related to performance based awards is recorded in the service period

corresponding to the performance target. SFAS 123R also requires the tax benefits associated with these share-based payments to be classified as financing activities in statements of cash flows, rather than as operating activities as required under SFAS 123. The adoption of SFAS 123R did not have a significant impact on the Company's financial condition or results of operations. The Company estimates that forfeitures of unvested awards will be insignificant and accordingly does not adjust stock based compensation expense for projected forfeitures.

The following table shows the expense recognized by the Company for stock-based compensation (in thousands):

	Thirteen Week Periods Ended	
	December 30, 2006	December 31, 2005
Stock option compensation expense:		
Time vested stock options	\$ 111	\$ 47
Performance vested stock options	690	190
	5	—
Restricted stock award amortization	\$ 806	\$ 237

As of December 30, 2006, there was \$3.9 million of total unrecognized compensation cost related to nonvested awards expected to vest, which is expected to be recognized over a weighted-average period of 1.7 years.

2006 Stock Incentive Plan

In conjunction with the consummation of the IPO, a 2006 stock incentive plan was adopted by TD Group. TD Group has reserved 2,619,668 shares of its common stock for issuance to key employees, directors or consultants under the plan. On April 21, 2006, 2,370 restricted shares were issued with a weighted-average grant date fair value of \$25.34 and which vest over three years. The compensation committee established vesting and performance requirements that must be met prior to the vesting of an award, as well as other terms and conditions relating to such awards. Options granted under the plan will expire no later than the tenth anniversary of the applicable date of grant of the options, and will have an exercise price of not less than the fair market value of our common stock on the date of grant.

At December 30, 2006, 2,617,298 remaining shares were available for award under TD Group's 2006 stock incentive plan.

2003 Stock Option Plan

Certain executives and key employees of the Company were granted stock options under TD Group's 2003 stock option plan. Upon the closing of the Merger, certain employees rolled over certain then-existing options to purchase shares of common stock of TransDigm Holdings. These employees were granted rollover options to purchase an aggregate of 3,870,152 shares of common stock of TD Group (after giving effect to the 149.60 for 1.00 stock split effected on March 14, 2006). All rollover options granted were fully vested on the date of grant. In addition to shares of common stock reserved for issuance upon the exercise of rollover options, an aggregate of 5,469,301 shares of TD Group's common stock are reserved for issuance upon the exercise of new management options. In general, approximately 20% of all new management options vest based on employment service or a change in control. These time vested options have a graded vesting schedule of up to four years. Approximately 80% of all new management options vest (i) based upon the satisfaction of specified performance criteria, which is annual EBITDA As Defined targets through 2008, or (ii) upon the occurrence of a change in control if the Investor Group (defined as Warburg Pincus and the other investors who invested in TD Group in connection with the Merger) receives a minimum specified rate of return. Unless terminated earlier, the options expire ten years from the date of grant. In addition to the stock options issued under the plan covering the Company's employees, members of the Company's board of directors have also been granted stock options of TD Group. TD Group has reserved a total of 9,339,453 shares of its common stock for issuance to the Company's employees under the plan, 9,055,698 of which had been issued as of December 30, 2006.

The fair value of the Company's employee stock options was estimated at the date of grant using a Black-Sholes-Merton option-pricing model with the following weighted average assumptions for all options granted during the first quarter:

	2007	2006
Risk-free interest rate	4.41%	4.21%-4.33%
Expected life of options	4 years	4 years
Expected dividend yield of stock	—	—
Expected volatility of stock	30%	0%-30%

The risk-free interest rate is based upon the three and five-year Treasury Bond rates as of the grant date. The average expected life of stock-based awards is based on vesting schedules and contractual terms. Expected volatility of stock was calculated using historical and implied volatilities. The Company does not pay dividends, thus, no dividend rate assumption is used.

The total fair value of shares vested during the first quarter of fiscal 2007 and fiscal 2006 was \$102,000 and \$117,000, respectively.

The weighted-average grant date fair value of time, performance and rollover options granted during the first quarter of fiscal 2007 and fiscal 2006 were \$7.85 and \$2.58, respectively. The total intrinsic value of time, performance and rollover options exercised during the first quarter of fiscal 2007 and fiscal 2006 were \$3.9 million and \$0, respectively.

11. SUBSEQUENT EVENT

On February 7, 2007, the Company completed the acquisition of Aviation Technologies, Inc. ("ATI") for an enterprise value of \$430 million in cash. The transaction was funded through an additional term loan under the Senior Secured Credit Facility of \$130.0 million, together with the net proceeds from the issuance of an additional \$300.0 million of 7³/₄% Senior Subordinated Notes and a portion of our cash balances. ATI, which is based in Seattle, WA, consists of two primary operating units that service the commercial and military aerospace markets—Avtech and ADS/Transicoil. Avtech is a leading supplier of flight deck and passenger audio systems, cabin lighting, and power control products and related components. ADS/Transicoil is a leading supplier of displays, clocks, brushless motors and related components and instruments. ATI manufactures proprietary products for the aerospace industry that have broad platform positions with high aftermarket content, all of which fit well with TransDigm's overall direction.

Mr. W. Nicholas Howley, Chairman and Chief Executive Officer of TransDigm, and Mr. Douglas Peacock, a director of TransDigm, each indirectly owned less than one-half of 1% of ATI's outstanding equity on a fully diluted basis. In addition, prior to the acquisition, Mr. Howley and Mr. Peacock were directors of ATI commencing in 2003, and Mr. Peacock served as ATI's Chairman during that time.

12. SUPPLEMENTAL GUARANTOR INFORMATION

TransDigm's 7³/₄% Senior Subordinated Notes are jointly and severally guaranteed, on a senior subordinated basis, by TransDigm Inc. and TransDigm Inc.'s Domestic Restricted Subsidiaries, as defined therein. The following supplemental consolidating condensed financial information presents the balance sheets of the Company as of December 30, 2006 and September 30, 2006 and its statements of income and cash flows for the thirteen week periods ended December 30, 2006 and December 31, 2005.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders of
TransDigm Group Incorporated

We have audited the accompanying consolidated balance sheets of TransDigm Group Incorporated and subsidiaries as of September 30, 2006 and 2005, and the related consolidated statements of operations, shareholders' equity, and cash flows for each of the three years in the period ended September 30, 2006. Our audit also included the financial statement schedule on page F-58. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of TransDigm Group Incorporated and subsidiaries at September 30, 2006 and 2005, and the consolidated results of their operations and their cash flows for each of the three years in the period ended September 30, 2006, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, present fairly in all material respects the information set forth therein.

This change was effected to ensure that investors recognize that TD Group is the ultimate owner of the TransDigm group of operating companies, as the TransDigm name is recognized in the industry in which TD Group's subsidiaries operate. TD Group, through its wholly-owned subsidiary, TransDigm Inc., is a leading global designer, producer and supplier of highly engineered aircraft components for use on nearly all commercial and military aircraft in service today. TransDigm Inc., which includes the AeroControlex and Adel Wiggins Groups, along with its wholly-owned operating subsidiaries, MarathonNorco Aerospace, Inc., Adams Rite Aerospace, Inc., Champion Aerospace Inc., Avionic Instruments, Inc., Skurka Aerospace Inc., and Sweeney Engineering Corp. (collectively, with TD Group, the "Company" or "TransDigm") offers a broad range of proprietary aerospace components. Major product offerings, substantially all of which are ultimately provided to end-users in the aerospace industry, include ignition systems and components, gear pumps, mechanical/electromechanical actuators and controls, NiCad batteries/chargers, power conditioning devices, hold open rods and locking devices, engineered connectors, engineered latches, cockpit security devices, lavatory hardware and components, specialized AC/DC electric motors and specialized valving.

TransDigm Holding Company ("TransDigm Holdings") was a wholly-owned subsidiary of TD Group and the direct parent of TransDigm Inc. and was merged into TransDigm Inc. on June 26, 2006.

TD Group was incorporated on July 8, 2003 by outside investors to acquire control of TransDigm Holdings through the Merger described below and had no operations prior to the Merger. TD Group has no significant assets or operations other than its 100% ownership of TransDigm Inc.

Initial Public Offering—On March 20, 2006, TD Group completed an initial public offering, or IPO, of its common stock (see Note 14). As a result of the IPO, TD Group's common stock is publicly traded on the New York Stock Exchange under the ticker symbol "TDG".

On March 14, 2006, TD Group effected a 149.6 for 1 stock split and, in conjunction therewith, amended and restated its certificate of incorporation to increase the number of authorized shares of common stock and preferred stock. All common shares and per common share amounts in these condensed consolidated financial statements prior to March 14, 2006 have been retroactively adjusted for all periods presented to give effect to the stock split, including reclassifying an amount equal to the increase in par value from additional paid-in capital to common stock.

Merger—On July 22, 2003, an entity formed by Warburg Pincus Private Equity VIII, L.P. ("Warburg Pincus") merged with and into TransDigm Holdings, with TransDigm Holdings continuing as the surviving corporation as a wholly-owned subsidiary of a newly formed corporation controlled by Warburg Pincus, TD Group (the "Merger").

Separate Financial Statements—Separate financial statements of TransDigm Inc. are not presented since the 7³/₄% senior subordinated notes, or the 7³/₄% Senior Subordinated Notes, are fully and unconditionally guaranteed on a senior subordinated basis by TD Group and all existing domestic subsidiaries of TransDigm Inc. and since TD Group has no significant operations or assets separate from its investment in TransDigm Inc.

2. ACQUISITIONS

Sweeney—On June 12, 2006, TransDigm Inc. acquired all of the outstanding capital stock of Sweeney Engineering Corp. ("Sweeney") for \$25.5 million in cash. Sweeney designs and manufactures specialized aerospace valving used primarily in fuel, environmental control, and de-icing applications.

The products are used on defense and commercial aircraft applications. Sweeney's product characteristics and market position fit well with TransDigm's overall direction. The acquired business was consolidated into AeroControlex's existing business in Painesville, Ohio during the first quarter of fiscal 2007. The Company expects that the \$20.7 million of goodwill recognized for the acquisition will not be deductible for tax purposes.

Motor Product Line—On June 30, 2005, TransDigm Inc., through its wholly-owned Skurka Aerospace Inc. subsidiary, acquired an aerospace motor product line from Eaton Corporation for \$9.6 million in cash. The Eaton business has been a long-time supplier of aerospace motors and related products. The motor products are used on a range of commercial aircraft, as well as military programs. The product line's proprietary products, market position, and aftermarket content fit well with TransDigm's overall direction. The acquired business was consolidated into Skurka's existing aerospace motor business in Camarillo, California. The Company expects that the \$4.8 million of goodwill recognized for the acquisition will be deductible for income tax purposes.

Fluid Regulators—On January 28, 2005, TransDigm Inc. acquired all of the outstanding capital stock of Fluid Regulators Corporation, a wholly-owned subsidiary of Esterline Technologies Corporation, for \$23.5 million in cash, net of a purchase price adjustment of \$0.5 million received in April 2005. Fluid Regulators designs and manufactures highly engineered flight control and pressure valves used in hydraulic, fuel, lubrication and related applications. The products are used on a wide range of commercial and regional aircraft as well as many corporate and military aircraft. Fluid Regulator's product characteristics and market position fit well with TransDigm's overall direction. Fluid Regulators was merged into TransDigm Inc. on September 30, 2005. The Company expects that the \$15.7 million in goodwill recognized in accounting for the acquisition will not be deductible for income tax purposes.

Skurka—On December 31, 2004, TransDigm Inc., through its wholly-owned Skurka Aerospace Inc. subsidiary, acquired certain assets and assumed certain liabilities of Skurka Engineering Company ("Skurka") for \$30.7 million in cash. Skurka designs and manufactures engineered aerospace components, primarily AC/DC electric motors and transducers. The products are used on a wide range of commercial and military aircraft, ships and ground vehicles. Skurka's product characteristics and market position fit well with TransDigm's overall direction. The Company expects that the \$20.7 million of goodwill recognized in accounting for the acquisition will be deductible for income tax purposes.

Avionic Instruments—On July 9, 2004, TransDigm acquired all of the outstanding capital stock of Avionic Instruments, Inc. ("Avionic Instruments") and DAC Realty Corp. ("DAC") for approximately \$20.9 million in cash, net of a purchase price adjustment of \$0.6 million, net of fees, received in April 2005. Avionic Instruments designs and manufactures specialized power conversion devices for a wide range of aerospace applications. These products are used on most commercial and regional transports as well as many corporate and military aircraft. DAC is a realty company that holds title to the real property used in connection with the operation of the business of Avionic Instruments. Avionic Instruments' proprietary products, market position and aftermarket content fit well with the TransDigm's overall business direction. In addition, the acquisition significantly enhances the Company's existing market position in aerospace power conversion devices.

The purchase price consideration of \$20.9 million in cash was funded through the use of the Company's existing cash balances. Goodwill of \$13.1 million recognized in accounting for the acquisition will not be deductible for income taxes. The Company accounted for the acquisition as a

purchase and included the results of operations of the acquired company in its consolidated financial statements from the effective date of the acquisition.

The Company accounted for the acquisitions of Sweeney, Skurka, Fluid Regulators, the motor product line and Avionic Instruments (collectively, the "Acquisitions") as purchases and included the results of operations of the Acquisitions in its consolidated financial statements from the effective date of each acquisition. The Company is in the process of obtaining third-party valuations of certain tangible and intangible assets of Sweeney; thus, the values attributed to acquired assets in the consolidated financial statements are subject to adjustment. Pro forma net sales and results of operations for the Acquisitions, had the Acquisitions occurred at the beginning of the applicable fiscal year ended September 30th are not significant and, accordingly, are not provided.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation and Consolidation—The accompanying consolidated financial statements include the accounts of TD Group and subsidiaries. All significant intercompany balances and transactions have been eliminated.

Revenue Recognition and Related Allowances—The Company recognizes substantially all revenue based upon shipment of products to the customer, at which time title and risk of loss passes to the customer. Substantially all sales are made pursuant to firm, fixed-price purchase orders received from customers. Shipping and handling costs are included in cost of goods sold. Provisions for estimated returns, uncollectible accounts and the cost of repairs under contract warranty provisions are provided for in the same period as the related revenues are recorded and are principally based on historical results modified, as appropriate, by the most current information available. Due to uncertainties in the estimation process, it is possible that actual results may vary from the estimates and the differences could be material.

Research and Development Costs—The Company expenses research and development costs as incurred. The cost recognized for research and development costs for the years ended September 30, 2006, 2005 and 2004 was approximately \$3.9 million, \$2.5 million and \$2.2 million, respectively.

Cash Equivalents—The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Marketable Securities—Marketable securities consist of U.S. Treasury Notes, U.S. Government Agency mortgage-backed obligations, corporate bonds and asset backed securities. The Company accounted for its marketable securities under Statement of Financial Accounting Standards ("SFAS") No. 115, "Accounting for Certain Investments in Debt and Equity Securities" ("SFAS No. 115"), which requires that marketable debt and equity securities be adjusted to market value at the end of each accounting period, except in the case of debt securities which a holder has the positive intent and ability to hold to maturity, in which case the debt securities are carried at cost. For marketable debt and equity securities carried at market value, unrealized market value gains and losses are charged or credited to a separate component of stockholders' equity ("accumulated other comprehensive loss").

The Company determined the proper classification of its marketable debt and equity securities at the time of purchase and reevaluated such designations as of each balance sheet date. All marketable securities were sold during fiscal 2005. Realized gains and losses on sale of securities, as determined on a specific identification basis, were included in net income.

Proceeds from the sale/maturity of marketable securities were \$116.0 and \$44.0 million during the years ended September 30, 2005 and 2004, respectively. Gross realized losses for the years ended September 30, 2005 and 2004 were \$0.8 million and \$0.1 million, respectively. There were no marketable securities at September 30, 2006 and September 30, 2005.

Allowance for Uncollectible Accounts—The Company reserves for amounts determined to be uncollectible based on specific identification and historical experience. The allowance also incorporates a provision for the estimated impact of disputes with customers. The determination of the amount of the allowance for doubtful accounts is subject to significant levels of judgment and estimation by management. If circumstances change or economic conditions deteriorate or improve, the allowance for doubtful accounts could increase or decrease.

Inventories—Inventories are stated at the lower of cost or market. Cost of inventories is determined by the average cost and the first-in, first-out (FIFO) methods. Provision for potentially obsolete or slow-moving inventory is made based on management's analysis of inventory levels and future sales forecasts. In accordance with industry practice, all inventories are classified as current assets even though a portion of the inventories may not be sold within one year.

Property, Plant and Equipment—Property, plant and equipment are stated at cost. Depreciation is computed using the straight-line method over the following estimated useful lives: land improvements from 10 to 20 years, buildings and improvements from 10 to 30 years, machinery and equipment from 3 to 10 years and furniture and fixtures from 3 to 10 years.

The Company assesses the potential impairment of its property by determining whether the carrying value of the property can be recovered through projected, undiscounted cash flows from future operations over the property's remaining estimated useful life. Any impairment recognized is the amount by which the carrying amount exceeds the fair value of the asset.

Debt Issue Costs, Premiums and Discounts—The cost of obtaining financing as well as premiums and discounts are amortized using the interest method over the terms of the respective obligations/securities.

Intangible Assets—Intangible assets consist of identifiable intangibles acquired or recognized in accounting for the Merger and other acquisitions (trademarks, trade names, a license agreement, patented and unpatented technology, trade secrets and order backlog) and goodwill. Under the provisions of SFAS No. 142, amortization of goodwill and intangible assets that have indefinite useful lives ceased effective October 1, 2002. Amortization of such assets was replaced with the requirement to test them for impairment upon adoption of SFAS 142 and at least annually thereafter. A two-step impairment test is used to identify potential goodwill impairment. The first step of the goodwill impairment test, used to identify potential impairment, compares the fair value of a reporting unit (as defined) with its carrying amount, including goodwill. If the fair value of the reporting unit exceeds its carrying amount, goodwill is not considered impaired, and the second step of the goodwill impairment test is unnecessary. The second step measures the amount of impairment, if any, by comparing the carrying value of the goodwill associated with a reporting unit to the implied fair value of the goodwill derived from the estimated overall fair value of the reporting unit and the individual fair values of the other assets and liabilities of the reporting unit.

The impairment test for indefinite lived intangible assets consists of a comparison between their fair values and carrying values. If the carrying amounts of intangible assets that have indefinite useful

lives exceed their fair values, an impairment loss will be recognized in an amount equal to the sum of any such excesses. The Company's annual impairment test is performed as of its fiscal year end.

The Company assesses the recoverability of its amortizable intangible assets by determining whether the amortization over their remaining lives can be recovered through projected, undiscounted, cash flows from future operations.

Interest Rate Swap—In connection with the June 2006 debt refinancing, the Company entered into an interest rate swap agreement with a financial institution to eliminate the variability of cash flows in interest payments on a portion of its new variable rate debt. The notional amount of the swap contract was \$187 million, and will decrease to \$170 million on September 23, 2007, and to \$150 million on September 23, 2008. The interest rate swap agreement expires on June 23, 2009. The Company's interest rate swap effectively converts the variable rate interest on the notional amount of the New Senior Secured Credit Facility to a fixed rate of 5.63% plus the 2% margin percentage, over the term of the agreement.

The interest rate swap qualifies as an effective cash flow hedge under SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities". Accordingly, changes in the fair value of the interest rate swap are recorded as other comprehensive income. The fair value of the interest rate swap as quoted by the financial institution, (the amount that the Company would pay to terminate the interest rate swap agreement) was \$2.9 million and is recorded in other non-current liabilities and other comprehensive income (net of tax of \$1.1 million) at September 30, 2006. The net-after tax derivative loss included in accumulated other comprehensive income is expected to be reclassified into interest expense in conjunction with the recognition of interest payments on the notional amounts of the swap contract through June 23, 2009, with \$0.5 million of after-tax net loss expected to be recognized in interest expense within the next year.

Stock Option and Deferred Compensation Plans—Effective with the consummation of the Merger and the issuance of the TD Group stock options the Company adopted the provisions of SFAS No. 123, *Accounting for Stock-Based Compensation*, which requires the measurement of compensation expense under a stock option plan to be based on the estimated fair values of the awards under the plan on the grant dates and amortizes the expense over the options' vesting periods. In addition, the Company accounts for the cost of its deferred compensation plans in accordance with Opinion No. 12 of the Accounting Principles Board, which requires the cost of deferred compensation arrangements to be accrued over the service period of the related employees in a systematic and rational manner.

Income Taxes—The Company accounts for income taxes using an asset and liability approach. Deferred taxes are recorded for the difference between the book and tax basis of various assets and liabilities. A valuation allowance is provided when it is more likely than not that some or all of a deferred tax asset will not be realized.

Estimates—The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Comprehensive Income (Loss)—The term "comprehensive income (loss)" represents the change in shareholders' equity from transactions and other events and circumstances resulting from

non-shareholder sources. The Company's accumulated other comprehensive loss, consisting principally of its interest rate swap and minimum pension liability adjustment, is reported separately in the accompanying consolidated statements of changes in stockholders' equity, net of taxes of \$1.0 million, \$0.2 million and \$0.1 million for fiscal years ended September 30, 2006, 2005 and 2004, respectively.

Segment Reporting—The Company's principal business, aircraft component supplier, is reported as one segment. Substantially all of the Company's operations are located within the United States.

Reclassifications—Certain reclassifications have been made to the accompanying fiscal 2005 and fiscal 2004 footnote disclosures to conform to the classifications used for the year ended September 30, 2006.

On June 23, 2006 TransDigm completed a refinancing of its entire debt structure. The Company's results of operations for the period ended September 30, 2006 include a one-time charge of \$48.6 million which consisted of the premium of \$25.6 million paid to redeem the 8³/₈% senior subordinated notes, the write-off of debt issue costs associated with the former senior credit facility, the 8³/₈% senior subordinated notes and the TD Group Loan Facility (as defined below) of \$22.9 million, and other expenses of \$0.1 million.

Revolving Credit Facility and Term Loans—In connection with the refinancing, all of TransDigm Inc.'s borrowings (term loans) under the former senior secured credit facility were repaid and a new senior secured credit facility was obtained. TransDigm Inc.'s new senior secured credit facility, or the New Senior Secured Credit Facility, totals \$800 million, which consists of (1) a \$150 million revolving credit line maturing in June 2012 and (2) a \$650 million term loan facility maturing in June 2013. At September 30, 2006, the Company had \$1.2 million letters of credit outstanding and \$148.8 million of borrowings available under the New Senior Secured Credit Facility.

The interest rates per annum applicable to the loans under the New Senior Secured Credit Facility are equal to either an alternate base rate or an adjusted LIBO rate for one, two, three, or six-month (or to the extent available to each lender, nine or twelve month) interest periods chosen by TransDigm Inc. in each case, plus an applicable margin percentage. The alternate base rate is the greater of (1) Credit Suisse First Boston's prime rate or (2) 50 basis points over the weighted average of rates on overnight Federal funds as published by the Federal Reserve Bank of New York. The adjusted LIBO rate is determined by reference to settlement rates established for deposits in dollars in the London interbank market for a period equal to the interest period of the loan as adjusted for the maximum reserve percentages established by the Board of Governors of the United States Federal Reserve. The applicable margin percentage is a percentage per annum equal to (1) 1.00% for alternate base rate term loans, (2) 2.00% for adjusted LIBO rate term loans, and (3) in the case of alternate base rate revolving loans and adjusted LIBO rate revolving loans, a percentage which varies based on the consolidated leverage ratio of TransDigm Inc. as of the relevant date of determination. The interest rate on the New Senior Secured Credit Facility at September 30, 2006 was 7.39%.

Under the terms of the New Senior Secured Credit Facility, the Company is required to pay the administrative agent certain fees. In addition, on the last day of each calendar quarter the Company is required to pay a commitment fee of 0.375% on any unused commitments under the revolving credit

line and certain other fees in respect of letters of credit that may be outstanding thereunder from time to time.

The New Senior Secured Credit Facility is subject to mandatory prepayments of term loans based on certain percentages of excess cash flows, as defined, commencing 90 days after the end of fiscal 2007, subject to exceptions. In addition, subject to exceptions (including in respect of reinvestment in productive assets), TransDigm Inc. will be required to offer to prepay the loans outstanding under the term loan facility at 100% of the principal amount thereof, plus accrued and unpaid interest, with the net proceeds of certain asset sales.

The New Senior Secured Credit Facility is guaranteed by TD Group and all of TransDigm Inc.'s current and future domestic restricted subsidiaries, and is secured by a first priority security interest in substantially all of the existing and future property and assets, including inventory, equipment, general intangibles, intellectual property, investment property and other personal property (but excluding leasehold interests, deposit accounts and certain other assets) of TransDigm Inc. and all of TransDigm Inc.'s existing and future domestic restricted subsidiaries, and a first priority pledge of the capital stock of TransDigm Inc. and TransDigm Inc.'s domestic subsidiaries and 65% of the voting capital stock of TransDigm Inc.'s foreign subsidiary.

The agreement also contains a number of restrictive covenants restricting or limiting the ability of TD Group, TransDigm Inc. and TransDigm Inc.'s direct and indirect restricted subsidiaries to, among other things, incur or guarantee additional indebtedness or issue preferred stock, pay distributions on, redeem or repurchase our capital stock or redeem or repurchase our subordinated debt, make investments, sell assets, enter into agreements that restrict distributions or other payments from our restricted subsidiaries to us, incur liens, consolidate, merge or transfer all or substantially all of our assets, engage in transactions with affiliates, create unrestricted subsidiaries, and engage in certain business activities. Such negative covenants are subject to certain exceptions. The negative covenants are substantially identical to the corresponding negative covenants of the 7³/₄% Senior Subordinated Notes. In addition, the New Senior Secured Credit Facility includes a financial maintenance covenant requiring that TransDigm comply, on a pro forma basis, with a consolidated secured debt ratio test. Such covenant, however, inures only to the benefit of the revolving lenders. TransDigm is in compliance with all of the covenants contained in the New Senior Secured Credit Facility.

Interest Rate Swap—In connection with the refinancing, the Company entered into a three year interest rate swap agreement with a financial institution to eliminate the variability of cash flows in interest payments on a portion of its new variable rate debt. The notional amount of the swap contract was \$187 million, and will decrease to \$170 million on September 23, 2007, and to \$150 million on September 23, 2008. The Company's interest rate swap effectively converts the variable rate interest on the notional amount of the New Senior Secured Credit Facility to a fixed rate of 5.63% plus the 2% margin percentage, over the term of the agreement.

Senior Subordinated Notes—In connection with the refinancing, \$399.7 million of TransDigm Inc.'s 8³/₈% senior subordinated notes due July 15, 2011 were repaid, the remaining \$0.3 million were redeemed in August 2006 and \$275 million of new 7³/₄% senior subordinated notes due July 15, 2014, or the 7³/₄% Senior Subordinated Notes were issued. The 7³/₄% Senior Subordinated Notes are unsecured obligations of TransDigm Inc. ranking subordinate to TransDigm Inc.'s senior debt, as defined in the indenture governing the Notes. Interest under the Notes is payable semi-annually.

The 7³/₄% Senior Subordinated Notes are redeemable by TransDigm after July 15, 2009, in whole or in part, at specified redemption prices, which decline from 105.813% to 100% over the remaining term of the 7³/₄% Senior Subordinated Notes. Prior to July 15, 2009, TransDigm may redeem specified percentages of the 7³/₄% Senior Subordinated Notes from the proceeds of equity offerings at a redemption price of 107.75%. If a change in control of the Company occurs, the holders of the 7³/₄% Senior Subordinated Notes will have the right to demand that TransDigm redeem the 7³/₄% Senior Subordinated Notes at a purchase price equal to 101% of the principal amount of the 7³/₄% Senior Subordinated Notes plus accrued and unpaid interest. The 7³/₄% Senior Subordinated Notes contain many of the same restrictive covenants included in the New Senior Secured Credit Facility. TransDigm is in compliance with all of the covenants contained in the 7³/₄% Senior Subordinated Notes.

Senior Unsecured Promissory Notes—In connection with the initial funding of TD Group (see Note 1), TD Group issued approximately \$200 million of senior unsecured promissory notes due July 22, 2003, or the 12% senior unsecured promissory notes. The 12% senior unsecured promissory notes, including accrued and unpaid interest of \$62.7 million, were repaid in their entirety on November 10, 2005 (see TD Group Loan Facility below and Note 13). Interest on the 12% senior unsecured promissory notes accrued at an annual fixed rate (compounding semi-annually) and was payable on the maturity date of the notes or the earlier prepayment thereof.

TD Group Loan Facility—On November 10, 2005, TD Group closed on a \$200 million loan facility, or the TD Group Loan Facility. TD Group used the net proceeds from the TD Group Loan Facility of approximately \$193.8 million, together with substantially all of the proceeds received from a dividend payment from TransDigm Holdings to prepay the entire outstanding principal amount and all accrued and unpaid interest the former 12% senior unsecured promissory notes. In connection with the June 2006 refinancing discussed above, the entire \$200 million TD Group Loan Facility was repaid.

10. RETIREMENT PLANS

Defined Benefit Pension Plans—The Company has two non-contributory defined benefit pension plans, which together cover certain union employees. The plans provide benefits of stated amounts for each year of service. The Company's funding policy is to contribute actuarially determined amounts allowable under Internal Revenue Service regulations.

The Company uses a September 30th measurement date for its defined benefit pension plans.

The Company's expected return on plan assets is based on the return of the guaranteed investment contracts.

Contributions: The Company expects to contribute \$0.5 million to its pension plans in fiscal 2007.

Estimated Future Benefit Payments:

The following pension plan benefit payments, which reflect expected future service, as appropriate, are expected to be paid as follows:

Defined Contribution Plans—The Company also sponsors certain defined contribution employee savings plans that cover substantially all of the Company's non-union employees. Under the plans, the Company contributes a percentage of employee compensation and matches a portion of employee contributions. The cost recognized for such contributions for the years ended September 30, 2006, 2005 and 2004 was approximately \$1.8 million, \$1.8 million and \$1.8 million, respectively.

Deferred Compensation Plans—Certain management personnel of the Company participated in one or both of two deferred compensation plans of TD Group that were established in connection with the Merger. On November 10, 2005 and December 16, 2005, the Board of Directors of TD Group approved the termination of these deferred compensation plans (see Note 13). TD Group adopted the TD Holding Corporation 2005 New Management Deferred Compensation Plan (the "New Management Deferred Compensation Plan") in December 2005 in connection with certain new requirements under Section 409A of the Internal Revenue Code of 1986, as amended. The New Management Deferred Compensation Plan is for the benefit of certain management personnel of the Company who were granted new management options under the TD Group 2003 stock option plan. The New Management Deferred Compensation Plan, along with a deferred compensation arrangement for one employee who is not an executive officer, provide that a participant's deferred compensation account is fully distributed upon the earlier of: December 31, 2008 or a Change in Control (as defined in the plan). On December 16, 2005, TD Group's Board of Directors approved contributions of \$6.2 million, in the aggregate, to participant account balances under the New Management Deferred Compensation Plan. In 2006, \$0.5 million was added to the additional employee deferred compensation arrangement. The cost of the plans totaled \$(1.4) million, \$5.8 million and \$5.6 million for the years ended September 30, 2006, 2005 and 2004, respectively. The amount recognized for the year ended September 30, 2006 includes a reversal of previously recorded charges of \$3.8 million resulting from the termination of the two deferred compensation plans of TD Group discussed above. The obligations under the New Management Deferred Compensation Plan and the additional employee deferred compensation arrangement represent obligations of TD Group and are not guaranteed by TransDigm Inc. or any of its subsidiaries.

Total net deferred tax liabilities	\$ 70,719	\$ 52,204

The Company's net operating loss carryforwards as of September 30, 2006 expire as follows (in thousands):

	Federal	State	Local
Fiscal Year of Expiration:			
2008	\$ —	\$ —	\$ 49,795
2009	—	—	199
2010	—	—	20,335
2013	—	4,603	—
2023	—	30,396	—
2026	—	22,598	—

It is unlikely that the \$70,329 of local net operating losses will be utilized by the expiration of the various carryforward periods. Therefore, a valuation allowance has been established equal to the amount of the net operating loss that the Company believes will not be utilized. It is also unlikely that the \$52,994 of Ohio state net operating losses will be utilized by the Company prior to expiration of the various carryforward periods because a change in the Ohio tax law eliminates the corporate income tax and replaces it with a commercial activity tax by 2010. Again, a valuation allowance has been established that is equal to the amount of the net operating loss that the Company believes will not be utilized.

13. DIVIDEND AND BONUS PAYMENTS

On November 10, 2005, in connection with the closing of the TD Group Loan Facility (see Note 9), TransDigm Inc. paid a cash dividend to TransDigm Holdings and made bonus payments to certain members of TransDigm's management. The aggregate amount of the cash dividend and bonus payments made by TransDigm Inc. was approximately \$104 million. TransDigm Holdings used all of the proceeds received by it from the payment of the cash dividend from TransDigm Inc. to pay a cash dividend to TD Group. On November 10, 2005, TD Group used the net proceeds received from the TD Group Loan Facility of approximately \$193.8 million together with substantially all of the proceeds received from the dividend payment from TransDigm Holdings to (i) prepay the entire outstanding principal amount and all accrued and unpaid interest on its 12% senior unsecured promissory notes that were issued by it in connection with the Merger in July 2003, with all such payments totaling approximately \$262.7 million, (ii) make a distribution to participants under the TD Holding Corporation 2003 Rollover Deferred Compensation and Phantom Stock Unit Plan (the "Rollover Deferred Compensation Plan") of their vested deferred compensation account balances, with all such distributions totaling approximately \$23.0 million, and (iii) make a distribution to participants under the TD Holding Corporation 2003 Management Deferred Compensation and Phantom Stock Unit Plan (the "Management Deferred Compensation Plan") of their vested and a portion of their unvested deferred compensation account balances, with all such distributions totaling approximately \$3.0 million. In connection with the distributions under the Rollover Deferred Compensation Plan and the Management Deferred Compensation Plan, the Board of Directors of TD Group approved the termination of the Rollover Deferred Compensation Plan and the Management Deferred Compensation Plan, with such terminations becoming effective on November 10, 2005 and December 16, 2005, respectively.

The approximately \$6.2 million in aggregate bonuses were allocated to each employee receiving a bonus based on the aggregate number of shares of the Company's common stock underlying rollover options and new management options granted to all employees receiving a bonus.

14. CAPITAL STOCK AND OPTIONS

Common Stock—Authorized capital stock of TD Group consists of 224,400,000 shares of \$.01 par value common stock and 149,600,000 shares of \$.01 par value preferred stock. The total number of shares of common stock outstanding at September 30, 2006 and 2005 was 44,664,020 and 44,201,628, respectively. There were no shares of preferred stock outstanding at September 30, 2006 and September 30, 2005. The terms of the preferred stock have not been established.

On December 19, 2005, TD Group filed a registration statement on Form S-1 with the Securities and Exchange Commission (the "SEC") for its proposed IPO in connection with the sale by certain selling stockholders of TD Group's common stock. The registration statement was declared effective by the SEC on March 14, 2006 at a public offering price of \$21.00 per share. The number of shares offered by the selling stockholders was 10,954,570. The selling stockholders also granted the underwriters a 30-day option to purchase up to 1,643,186 additional shares to cover any over-allotments. The underwriters' over-allotment option was exercised on March 15, 2006. The proceeds from the sale of shares of TD Group's common stock sold in the IPO were solely for the account of the selling stockholders. TD Group did not receive any proceeds from the sale of shares by the selling stockholders.

2006 Stock Incentive Plan—In conjunction with the consummation of the IPO, a 2006 stock incentive plan was implemented under TD Group. TD Group has reserved 2,619,668 shares of its common stock for issuance to key employees, directors or consultants under the plan. As of September 30, 2006, 2,370 shares had been issued as restricted stock. The compensation committee established vesting and performance requirements that must be met prior to the vesting of an award, as well as other terms and conditions relating to such awards. Options granted under the plan will expire no later than the tenth anniversary of the applicable date of grant of the options, and will have an exercise price of not less than the fair market value of our common stock on the date of grant.

At September 30, 2006, 2,617,298 remaining shares were available for award under TD Group's stock incentive plan.

2003 Stock Option Plan—In conjunction with the Merger (see Note 1), certain executives and key employees of the Company were granted stock options under TD Group's 2003 stock option plan. In addition to the stock options issued under the plan covering the Company's employees, members of the Company's board of directors have also been granted stock options of TD Group. TD Group has reserved 9,339,453 shares of its common stock for issuance to the Company's employees under the plans, 9,052,197 of which had been issued as of September 30, 2006. The options generally vest upon: (1) the achievement of certain earnings targets, (2) a change in the control of TD Group, or (3) certain specified dates in the option agreements. Unless terminated earlier, the options expire ten years from the date of grant.

The Company accounts for the TD Group stock option activity in accordance with SFAS No. 123, *Accounting for Stock-Based Compensation*, and, accordingly, measures compensation expense under the plans based on the estimated fair value of the awards on the grant dates and amortizes the expense over the options' vesting periods. The fair value of the option awards is determined using the Black-Scholes option pricing model and the following assumptions: risk-free interest rate ranging from 2.5% to 5.09%, expected option life ranging from four to five years, expected volatility of 30% for option grants issued subsequent to December 20, 2005, and no dividend yield.

Option activity was as follows during the fiscal years ended September 30, 2006, 2005 and 2004:

	Fiscal Year Ended September 30, 2006		Fiscal Year Ended September 30, 2005		Fiscal Year Ended September 30, 2004

Exercisable at end of period	5,596,600	5.35	4,663,559	4.04	4,026,487	3.30

During the fiscal years ended September 30, 2006, 2005 and 2004, the weighted average fair value of each option granted was \$4.60, \$1.46 and \$.93, respectively. Non-cash stock option compensation expense recognized during these periods was \$2.4 million, \$1.0 million and \$0.6 million, respectively.

The following table summarizes information about stock options outstanding at September 30, 2006:

There were approximately 0.1 million stock options outstanding at September 30, 2006 excluded from the diluted earnings per share computation due to the anti-dilutive effect of such options.

16. LEASES

TransDigm leases three manufacturing facilities. The facility leases require annual rental payments ranging from approximately \$0.8 million to \$1.4 million through January 2013. One of the facility leases is with a company in which one of our executive officers is an owner. The term of the lease is through December 2009, although it may be terminated early under certain circumstances. The monthly base rental payment for the property is \$50,500. The lease may be renewed for an additional five years, subject to an adjustment to the monthly base rental for the extended period to \$54,000. TransDigm also leases office space for its corporate headquarters. The office space leases require rental payments of \$0.1 million per year through fiscal 2011.

TransDigm also has commitments under operating leases for vehicles and equipment. Rental expense during the years ended September 30, 2006, 2005 and 2004 was \$2.1 million, \$1.9 million and \$1.4 million, respectively. Future, minimum rental commitments at September 30, 2006 under operating leases having initial or remaining non-cancelable lease terms exceeding one year are \$2.3 million in fiscal 2007, \$1.7 million in fiscal 2008, \$1.6 million in fiscal 2009, \$1.1 million in fiscal 2010, \$0.9 million in fiscal 2011, and \$1.1 million thereafter.

17. FAIR VALUE OF FINANCIAL INSTRUMENTS

The Company has various financial instruments, including cash and cash equivalents, accounts receivable and payable, accrued liabilities, interest rate swap (see Note 3) and long-term debt. The carrying value of the Company's cash and cash equivalents, accounts receivable and payable, and accrued liabilities approximates their fair value due to the short-term maturities of these assets and liabilities. The Company also believes that the aggregate fair value of its term loans approximates its

carrying amount because the interest rates on the debt are reset on a frequent basis to reflect current market rates. The estimated fair value of the Company's 7³/₄% Senior Subordinated Notes approximated \$280 million at September 30, 2006 based upon quoted market prices.

18. CONTINGENCIES

During the ordinary course of business, the Company is from time to time threatened with, or may become a party to, legal actions and other proceedings. While the Company is currently involved in certain legal proceedings, it believes the results of these proceedings will not have a material adverse effect on its financial condition, results of operations, or cash flows. The Company believes that its potential exposure to such legal actions is adequately covered by its aviation product and general liability insurance.

20. NEW ACCOUNTING STANDARDS

In September 2006, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 158, "Employer's Accounting for Defined Benefit Pension and Other Postretirement Plans—an amendment of FASB Statements No. 87, 88, 106, and 132(R) ("SFAS 158"). This statement requires balance sheet recognition of the overfunded or underfunded status of pension and postretirement benefit plans. Under SFAS 158, actuarial gains and losses, prior service costs or credits, and any remaining transition assets or obligations that have not been recognized under previous accounting standards must be recognized in Accumulated Other Non-Shareowners' Changes in Equity, net of tax effects, until they are amortized as a component of net

periodic benefit cost. In addition, the measurement date, the date at which plan assets and the benefit obligation are measured, is required to be the company's fiscal year end. Presently, the Company uses a September 30 measurement date for its defined benefit pension plans. SFAS 158 is effective for publicly-held companies for fiscal years ending after December 15, 2006, except for the measurement date provisions, which are effective for fiscal years ending after December 15, 2008. The Company anticipates that the adoption of this pronouncement will not have a material impact on its consolidated financial position or results of operations.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, "Fair Value Measurements" which is effective for fiscal years beginning after November 15, 2007 and for interim periods within those years. This statement defines fair value, establishes a framework for measuring fair value and expands the related disclosure requirements. The Company has not determined the impact, if any, that this statement will have on its consolidated financial position or results of operations.

In July 2006, the FASB issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109" ("FIN 48"). FIN 48 prescribes the minimum accounting and disclosure requirements of uncertain tax positions. FIN 48 also provides guidance on the derecognition, measurement, classification, interest and penalties, and transition of uncertain tax positions. FIN 48 is effective for fiscal periods after December 15, 2006. The Company is currently analyzing the expected impact of adoption of FIN 48 on its financial statements.

During December 2004, the FASB issued SFAS 123(R), which requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values. The Company will adopt this pronouncement effective October 1, 2006. The Company anticipates that the adoption of this pronouncement will not have a material impact on its consolidated financial position or results of operations.

21. SUBSEQUENT EVENTS

On October 3, 2006, the Company completed the acquisition of CDA InterCorp for \$45 million in cash. The purchase price is subject to adjustment based upon a final determination of working capital as of the closing of the acquisition. The transaction was funded through the use of the Company's existing cash balances. CDA InterCorp designs and manufactures specialized controllable drive actuators, motors, transducers, and gearing.

Independent Auditors' Report

The Board of Directors
Aviation Technologies, Inc.:

We have audited the consolidated balance sheets of Aviation Technologies, Inc. and subsidiaries (the Company) as of December 31, 2006 and 2005, and the related consolidated statements of income, stockholders' equity and comprehensive income, and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Aviation Technologies, Inc. and subsidiaries as of December 31, 2006 and 2005, and the results of their operations and their cash flows for the years then ended, in conformity with U.S. generally accepted accounting principles.

As discussed in note 1 to the consolidated financial statements, effective January 1, 2006, the Company adopted Statement of Financial Accounting Standards No. 123(R), *Share-Based Payment*.

(1) Summary of Significant Accounting Policies

(a) Description of the Business

Aviation Technologies, Inc. (the Company) is a provider of custom engineered proprietary integrated assemblies, subassemblies, and component parts to the aerospace industry. The Company, previously known as Wings Holdings, Inc., began operations on May 23, 2003 when it acquired businesses comprising the specialty avionics group of DeCrane Aircraft. The Company acquired 100% of the outstanding common shares of Avtech Corporation (Avtech) and Tri-Star Electronics International, Inc. (Tri-Star) and the net assets of Aerospace Display Systems, LLC (ADS). Avtech is a manufacturer of electrical and electronic equipment for the aerospace industry located in Seattle, Washington. Tri-Star is a manufacturer of power and signal contacts located in El Segundo, California and Lugano, Switzerland. ADS is a manufacturer of custom liquid crystal displays, modules, instruments, and chronometers for use in aircraft cockpits. On May 21, 2004, the Company acquired Transicoil from Horizon Aerospace. Transicoil, which includes a subsidiary located in Malaysia, is a manufacturer of aircraft components and controls, panels and displays, various instruments, and pressure products. In early 2005, the Company merged the operations of ADS and Transicoil. The combined operations are hereinafter referred to as ADS Transicoil. ADS Transicoil is located in Collegeville, PA.

On March 1, 2005, the Company's common equity interest in Tri-Star was distributed to the Company's shareholders. See note 2, *Tri-Star Distribution and Discontinued Operation*, for more information.

On November 18, 2005, the Company acquired 100% of the common stock of West Coast Specialties (WCS), a manufacturer of custom electro-mechanical control and lighted display products for the aircraft and aerospace industries. See note 3, *The WCS Acquisition*, for more information.

(b) Basis of Presentation

The consolidated financial statements as of December 31, 2006 and 2005 and for the years then ended include the accounts of the Company and its wholly owned subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation.

(c) Use of Estimates

The preparation of these consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

(d) Inventories

Inventories are stated at the lower of cost or market, as determined under methods that approximate the first-in, first-out (FIFO) method for component parts and average cost for integrated assemblies and subassemblies. Costs include materials, labor, and manufacturing overhead. Provision

for obsolete or slow-moving inventory is made based on management's analysis of inventory levels and future sales forecasts.

(e) Property, Plant, and Equipment

Property, plant, and equipment are stated at cost and depreciated using the straight-line method over their estimated useful lives. Useful lives for machinery and equipment range from three to ten years. Building and building improvements are depreciated over their estimated useful lives of thirty years. Leasehold improvements are amortized using the straight-line method over their estimated useful lives or remaining lease term, whichever is less. Expenditures for maintenance and repairs are expensed as incurred. Upon retirement or disposal, the cost and accumulated depreciation of property and equipment are reduced and any gain or loss is recorded in income or expense.

(f) Goodwill and Other Intangible Assets

The fair value of significant intangible assets acquired in business combinations was determined based on third party appraisals. Goodwill represents the excess of costs over the fair value of identifiable net assets of businesses acquired determined in accordance with FASB Statement of Financial Accounting Standard (SFAS) No. 141, *Business Combinations*. Intangible assets are accounted for in accordance with SFAS No. 142, *Goodwill and Other Intangible Assets*. Pursuant to SFAS No. 142, goodwill and intangible assets acquired in a purchase business combination and determined to have an indefinite useful life are not amortized, but instead are tested for impairment at least annually in accordance with the provisions of SFAS No. 142. SFAS No. 142 also requires that intangible assets with estimable useful lives be amortized over their respective estimated useful lives to their estimated residual values, and reviewed for impairment in accordance with SFAS No. 144, *Accounting for Impairment or Disposal of Long-Lived Assets*.

(g) Accrued Warranties

The Company sells certain products to customers with various repair or replacement warranties. The terms of the warranties vary according to the customer and/or product involved. The most common warranty periods are generally from 12 to 36 months from the date of sale.

Provisions for estimated future warranty costs are made in the period the related product sale is recorded and are based on historical experience with respect to warranty costs. Changes in estimates with respect to warranty liabilities are recorded in the period in which such changes occur. Classification between short- and long-term warranty obligations is estimated based on historical payment trends.

The following represents activity within accrued warranties for the years ended December 31, 2006 and 2005:

	2006	2005
Accrued warranties as of beginning of period	\$ 809	914
Purchased accrued warranty	100	—
Accruals for warranties issued during the period	1,229	459
Settlements made during the period	(779)	(564)
Accrued warranties as of end of period	\$ 1,359	809

(h) Foreign Currency Translation and Transactions

The financial statements of Tri-Star during the period of ownership were translated into U.S. dollars from Tri-Star's functional currency, the Swiss franc, and the financial statements of the Transicoil subsidiary in Malaysia were translated into U.S. dollars from its functional currency, the Malaysian Ringgit, in the consolidated financial statements. Assets and liabilities were translated at the exchange rate on the balance sheet date and income statement amounts were translated at average exchange rates in effect during the period. The net translation adjustment is reflected as a component of accumulated comprehensive income or loss within stockholders' equity.

Realized foreign currency exchange gains included in other expenses in the consolidated statements of income were \$0 and \$40 for the years ended December 31, 2006 and 2005, respectively.

(i) Revenue Recognition

Revenues from the sale of manufactured products are recognized upon shipment of product to the customer provided that the Company has received a signed purchase order, the price is fixed, title has transferred, collection of the resulting receivables is probable, product returns are reasonably estimable, and there are no remaining significant obligations. Revenues for services are recognized when the service is provided and are not significant to consolidated revenues.

(j) Research and Development Costs

Research and development costs are expensed as incurred. Such costs were \$5,466 and \$3,842 for the years ended December 31, 2006 and 2005, respectively.

(k) Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

(l) Statements of Cash Flows

For purposes of the consolidated statements of cash flows, cash equivalents include short-term, highly liquid investments with maturities of three months or less at the time of purchase.

(m) Impairment of Long-Lived Assets

In accordance with SFAS No. 144, long-lived assets, such as property, plant, and equipment, and purchased intangibles subject to amortization, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized in the amount by which the carrying amount of the asset exceeds the fair value of the asset. Assets to be disposed of would be separately presented in the balance sheet and reported at the lower of the carrying amount or fair value less costs to sell, and are no longer depreciated. The assets and liabilities of a disposal group classified as held for sale would be presented separately in the appropriate asset and liability sections of the balance sheet. The Company did not incur any impairment charges in the years ended December 31, 2006 and 2005 and the Company has no assets held for sale in the December 31, 2006 or 2005 consolidated balance sheets.

Goodwill is tested annually for impairment, and is tested for impairment more frequently if events and circumstances indicate that the asset might be impaired. An impairment loss is recognized to the extent that the carrying amount exceeds the asset's fair value. This determination is made at the reporting unit level and consists of two steps. First, the Company determines the fair value of a reporting unit and compares it to its carrying amount. Second, if the carrying amount of a reporting unit exceeds its fair value, an impairment loss is recognized for any excess of the carrying amount of the reporting unit's goodwill over the implied fair value of that goodwill. The implied fair value of goodwill is determined by allocating the fair value of the reporting unit in a manner similar to a purchase price allocation, in accordance with SFAS No. 141. The residual fair value after this allocation is the implied fair value of the reporting unit goodwill. The Company did not incur any goodwill impairment charges in the years ended December 31, 2006 and 2005.

(n) Stock Option Plans

On January 1, 2006, the Company began to measure the cost of employee services in exchange for an award of equity instruments based on the grant-date fair value of the award and to recognize the cost over the requisite service period in accordance with SFAS No. 123R, *Share-Based Payment*. Upon adoption of the new accounting method, the Company used the prospective transition method, under which the consolidated financial statements for periods prior to the date of adoption were not adjusted for the change in accounting. As a result of adopting the new standard, earnings before income taxes for 2006 decreased by \$1,009, and net earnings decreased by \$856. These results reflect stock compensation expense of \$1,009 and tax benefits of \$153.

Prior to January 1, 2006, the Company used the intrinsic value method to account for stock-based employee compensation under Accounting Principles Board (APB) Opinion No. 25, *Accounting for*

Stock Issued to Employees, and related interpretations including FASB Interpretation (FIN) No. 44, *Accounting for Certain Transactions Involving Stock Compensation*, an Interpretation of APB Opinion No. 25 and therefore the Company did not recognize compensation expense in association with options granted at or above the market price of our common stock at the date of grant.

(o) New Accounting Pronouncements

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*, which is effective for fiscal years beginning after November 15, 2007 and for interim periods within those years. This statement defines fair value, establishes a framework for measuring fair value and expands the related disclosure requirements. The Company has not determined the impact, if any, that this statement will have on its consolidated financial position or results of operations.

In September 2006, the United States Securities and Exchange Commission issued Staff Accounting Bulletin (SAB) No. 108, *Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements*. SAB No. 108 addresses quantifying the financial statement effects of misstatements, specifically, how the effects of prior year uncorrected errors must be considered in quantifying misstatements using both a balance sheet and income statement approach and evaluating whether either approach results in a misstated amount that, when all relevant quantitative and qualitative factors are considered, is material. SAB No. 108 became effective with our fiscal year ended December 31, 2006, and did not have an impact on our results of operations or financial condition.

In July 2006, the FASB issued FIN No. 48, *Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement No. 109*. FIN No. 48 prescribes the minimum accounting and disclosure requirements of uncertain tax positions. FIN No. 48 also provides guidance on the derecognition, measurement, classification, interest and penalties, and transition of uncertain tax positions. FIN No. 48 is effective for fiscal periods beginning after December 15, 2006. The Company has not determined the impact, if any, that this statement will have on its consolidated financial position or results of operations.

(p) Reclassifications

Certain reclassifications have been made to the previously reported 2005 consolidated financial statements in order to provide consistency with the 2006 presentation. These reclassifications did not affect previously reported income from continuing operations before taxes or net income.

(2) Tri-Star Distribution and Discontinued Operation

On March 1, 2005, the Company reorganized its equity interest in Tri-Star and Tri-Star issued a stock dividend of 681,500 shares of common stock and 35,000 shares of preferred stock to the Company. The preferred stock had a face value of \$35,000, had liquidation preferences over the common stock, and provided a 13% cumulative dividend. The preferred stock had no voting rights. Immediately after the Tri-Star stock dividend, the Company distributed the entirety of its common stock interest in Tri-Star with a book value of \$346 to its shareholders. As a result of the above

transactions, subsequent to March 1, 2005, the Company no longer controlled Tri-Star and Tri-Star ceased to be consolidated into the Company's financial statements. The distribution of the Company's equity interest in Tri-Star to the Company's shareholders has been accounted for as distribution of assets to shareholders and, accordingly, no gain or loss has been recorded in income as a result of the above transactions. Prior to March 1, 2005, the Company owned all of the outstanding shares of Tri-Star stock which consisted of 100 common shares. The results of operations of Tri-Star are included in the consolidated financial statements until February 28, 2005 and are presented as a discontinued operation. The preferred stock held by the Company and accrued dividends thereon was redeemed by Tri-Star on August 16, 2005 for \$37,151 of cash. The redemption of the preferred shares resulted in income tax expense of \$3,720, which has been provided for in the accompanying consolidated statements of income within the results of discontinued operations. Revenue and pretax profit of Tri-Star included within discontinued operations are as follows:

	2005
Net sales	\$ 9,231
Income before taxes	1,280

In 2006, the Company recorded a reduction of \$188 to the income tax expense recorded in the prior year as a result of a true-up of the gain estimated in the provision calculation to the gain recorded in the Company's tax return.

(3) The WCS Acquisition

On November 18, 2005, the Company acquired 100% of the common stock of WCS, a manufacturer of custom electro-mechanical control and lighted display products for the aircraft and aerospace industries. The Company acquired WCS due to its similar product lines. The results of WCS operations have been included in the consolidated financial statements since the date of acquisition. The preliminary aggregate purchase price was \$11,500.

The purchase price allocation has been adjusted from the preliminary purchase price allocation due to a working capital true-up, as defined in the purchase agreement, of \$43, and additional direct acquisition costs of \$27, resulting in a final purchase price of \$11,831. In addition, in 2006, the Company completed the allocation of cost to the assets acquired and liabilities assumed as a result inventory decreased by \$93; property, plant, and equipment decreased by \$187; identifiable intangible assets, comprised of backlog, technology, customer relationships, and trade names, increased by \$3,620; goodwill decreased by \$2,220; current liabilities increased by \$100; and net deferred tax liabilities increased by \$950.

The purchase price allocation was recorded as follows:

(5) Concentrations of Credit Risk

The Company is potentially subject to concentrations of credit risk as the Company relies heavily on customers operating in the domestic and foreign corporate and commercial aircraft industries. Generally, the Company does not require collateral or other security to support accounts receivable subject to credit risk. Under certain circumstances, deposits or cash-on-delivery terms are required. The Company maintains reserves for potential credit losses. For the years ended December 31, 2006 and 2005, one customer accounted for 18.72% and 14.95% of revenues from continuing operations, respectively. One customer constituted greater than 10% of accounts receivable at December 31, 2005. No single customer constituted greater than 10% of accounts receivable at December 31, 2006.

Intangible assets	(9,593)	(7,726)
	<u>(10,027)</u>	<u>(10,762)</u>
Net deferred tax liability	\$ (6,758)	(8,821)

The net deferred tax liability decreased by approximately \$1,900 in the current year, primarily as a result of the Company receiving an Internal Revenue Service (IRS) ruling on the tax treatment of property, plant, and equipment that was acquired from DeCrane Aircraft. As this ruling is related to an acquisition, this amount was recorded as a decrease to goodwill, of approximately \$1,900, in the consolidated balance sheet at December 31, 2006.

At December 31, 2004, the Company had federal and state net operating loss carryforwards of approximately \$2,629. The net operating loss carryforwards were fully utilized in 2005. The Company has not provided a valuation allowance on deferred tax assets because management believes it is more likely than not that such assets will be realized through future taxable income.

(9) Commitments and Contingencies

(a) Litigation

The Company and its subsidiaries are involved in routine legal and administrative proceedings incidental to the normal conduct of business. Management believes the ultimate disposition of such matters will not be material to the Company's business, consolidated financial position, results of operations, or cash flows.

(b) Lease Commitments

The Company leases some of its facilities and equipment under operating leases. Some of the leases require payment of property taxes and include escalation clauses. Future minimum operating lease commitments under noncancelable leases are as follows as of December 31, 2006:

Year ending December 31:	
2007	\$ 781
2008	978
2009	926
2010	943
2011	961
2012 and thereafter	2,348
Total minimum payments required	<u>\$ 6,937</u>

As of December 31, 2006 and 2005, the Company has no capital lease commitments. Total rental expense charged to operations was \$989 and \$1,388 for the years ended December 31, 2006 and 2005, respectively.

(10) Employee Benefits

401(k) Retirement Plan

Substantially all domestic employees are eligible to participate in a 401(k) retirement plan, which is a defined contribution plan satisfying the requirements of the Employee Retirement Income Security Act of 1974. The Company's expense related to its matching contributions to this plan totaled \$520 and \$470 for the years ended December 31, 2006 and 2005, respectively.

(11) Related-Party Transactions

The Company paid certain shareholders fees for services during the years ended December 31, 2006 and 2005 in the amounts of \$106 and \$80, respectively.

(12) Fair Value of Financial Instruments

The following table presents the carrying amounts and estimated fair values of the Company's financial instruments at December 31, 2006 and 2005. The fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties.

	2006	
	Carrying amount	Fair value
Financial assets:		
Cash and cash equivalents	\$ 139	139
Financial liabilities:		
Accrued salaries and wages, and liabilities	7,800	7,800
Long-term debt	33,502	33,502
	2005	
	Carrying amount	Fair value
Financial assets:		
Cash and cash equivalents	\$ 854	854
Financial liabilities:		
Accrued salaries and wages, and liabilities	6,954	6,954
Long-term debt	48,447	48,447

The carrying amounts shown in the table are included in the consolidated balance sheets under the indicated captions.

(13) Long-Term Debt

Long-term debt at December 31, 2006 and 2005 consisted of the following:

	2006	2005
GE Capital—Revolver	\$ 1,502	5,000
GE Capital Term C note payable for 2005:		
LIBOR plus 2.00%, due quarterly through June 2011	32,000	43,447
Total debt	33,502	48,447
Less current installments	(325)	(437)
Long-term debt, excluding current installments	\$ 33,177	48,010

On April 1, 2005, the Company amended its secured financing agreement with GE Capital Corporation (GE Capital) and extinguished certain notes payable and a revolver in place since May 2003, with proceeds from a new Term Loan C and revolver, which are secured by the assets of the Company.

Under the terms of the revolving credit facility, the Company may borrow an amount up to \$20,000 at December 31, 2006, with the available capacity based upon certain levels of inventory and

receivables. As of December 31, 2006, the outstanding balance under the revolving credit facility was \$1,502 at a weighted-average interest rate of 9.0%.

As stated in footnote 2, the Company received \$37,151 in cash from the redemption of Tri-Star preferred stock. Of this amount, approximately \$33,300 was used to pay down the Term Loan C note in accordance with mandatory prepayment terms of the financing agreement.

The refinancing resulted in a loss on early extinguishment of debt of approximately \$3,647 due to the write-off of unamortized financing fees. Included in this amount are loan termination fees of approximately \$1,100.

The new agreement requires maintenance of certain financial covenants, including maximum allowable leverage, minimum fixed charged coverage ratio, and maximum capital expenditure limit. The Company is in compliance with all required financial covenants. The new agreement also contains restrictions on liens, working capital, acquisition of treasury stock, payment of cash dividends, and the acquisition or sale of subsidiaries.

Interest on Term Loan C is payable quarterly at LIBOR plus 2.00%. In addition, each fiscal quarter, the Company must pay a commitment fee of $\frac{1}{2}$ of 1% on the unused portion of the revolver commitment.

The Company capitalized the debt financing fees of \$7 and \$918 in 2006 and 2005, respectively, for Term Loan C and the revolving line of credit. These amounts are being amortized over the life of the loan.

Accrued interest was \$228 and \$238 as of December 31, 2006 and 2005, respectively, and interest paid during the years ended December 31, 2006 and 2005 was \$3,514 and \$6,506, respectively.

As required by the GE Capital financing agreement, in fiscal year 2005 the Company entered into an one-year interest rate cap agreement with Credit Suisse First Boston providing for protection from interest rate volatility on a notional amount of \$31,000. The terms of the agreement effectively cap LIBOR at 5.8%. The agreement is not designated as a hedge. The fair market value at December 31, 2006 was \$0.

As required by the GE Capital credit agreement, in fiscal year 2006 the Company entered into a one-year interest rate cap agreement with Credit Suisse First Boston providing for protection from interest rate volatility on a notional amount of \$18,000. The terms of the agreement effectively cap LIBOR at 8.5%. The agreement is not designated as a hedge. The fair market value at December 31, 2006 was \$0.

The aggregate maturities of long-term debt for each of the five years subsequent to December 31, 2006 are: \$325 in 2007, \$325 in 2008, \$7,959 in 2009, \$15,594 in 2010, and \$7,797 in 2011.

(14) Stock Option Plan

The Company adopted a stock option plan (the Plan) pursuant to which the Company's board of directors may grant stock options to officers and key employees. The Plan authorizes grants of options

to purchase up to 74,445 shares of authorized but unissued common stock. Stock options can be granted with an exercise price less than, equal to, or greater than the stock's fair market value at the date of grant. All stock options have ten-year terms. The options vest and become fully exercisable after eight years of continuous employment from the date of grant. However, vesting of options may accelerate in the event certain performance targets are achieved by the Company, rendering stock options fully exercisable in as soon as five years from the date of the grant. The Company's board of directors is responsible for setting performance targets and determining if the established targets have been achieved. Additionally, upon a change in control of the Company and the achievement of targeted amounts set by the preceding principal shareholders, all outstanding stock options become fully vested immediately prior to the effective date of change. As of December 31, 2006, there were 900 additional shares available for grant under the Plan.

The estimated grant date fair value of each stock option award is determined using the Black-Scholes option pricing model. This model requires the use of subjective assumptions that have a significant impact on the fair value estimate. Expected volatility and life are determined based upon an analysis of a sample of similar companies. The risk-free interest rate is based on the U.S. Treasury yields in effect at the time of grant. The fair value of stock options granted is calculated using the assumptions as follows:

	<u>2006</u>
Expected life (in years)	5
Risk-free rate	4.71%–5.18%
Expected volatility	30%
Dividend yield	—
Resulting weighted average grant date fair value	\$ 380.48

Stock option activity during the years ended December 31, 2006 and 2005 was as follows:

	<u>Number of options outstanding</u>	<u>Weighted- average exercise price</u>
Balance at December 31, 2004	58,195	\$ 100.00
Options granted	—	—
Options exercised	—	—
Options forfeited	—	—
Balance at December 31, 2005	58,195	100.00
Options granted	18,800	325.05
Options exercised	(400)	100.00
Options forfeited	(3,450)	100.00
Balance at December 31, 2006	73,145	158.00

	Options outstanding	Weighted average exercise price	Weighted average remaining contractual life (in years)
Balance at December 31, 2006	73,145	\$ 158.00	8.5
Vested and unvested expected to vest at December 31, 2006	73,145	158.00	8.5
Vested and exercisable at December 31, 2006	36,553	105.79	8.8

The Company settles employee stock option exercises with newly issued common shares. The following table summarizes information about the Company's stock options outstanding as of December 31, 2006:

Exercise Price	Number of options outstanding	Weighted average remaining contractual life (in years)	Number of options vested
\$100.00	54,345	8	35,613
\$280.00	6,700	10	335
\$350.00	12,100	10	605
	<u>73,145</u>		<u>36,553</u>

During 2006 and 2005, compensation expense of \$2 and \$36, related to options granted in 2003 and 2004, has been recorded in the accompanying consolidated financial statements. Additionally in 2006, compensation expense of \$1,009 was recorded in the accompanying consolidated financial statements as a result of options granted in 2006 and accounted for under SFAS No. 123R. Total compensation expense as a result of stock options is reflected in the consolidated financial statements as follows:

	Years ended December 31,	
	2006	2005
Cost of sales	\$ 103	—
Research and Development	65	—
Selling, general and administrative expense	843	36
Total compensation expense	<u>\$ 1,011</u>	<u>36</u>

No compensation cost was capitalized as part of the cost of an asset in any periods presented.

In November 2005, the FASB issued Staff Position (FSP) No. 123(R)-3, *Transition Election Related to Accounting for the Tax Effects of Share-Based Payment Awards*. The Company has elected to adopt the alternative transition method provided in the FSP No. 123R-3 for calculating the tax effects of stock-based compensation pursuant to SFAS No. 123R. The alternative transition method includes simplified methods to establish the beginning balance of the additional paid-in capital (APIC) pool related to the

tax effects of employee stock-based compensation, and to determine the subsequent impact on the APIC pool and consolidated statements of cash flows of the tax effects of the employee stock-based compensation awards that are outstanding upon adoption of SFAS No. 123R. Cash used to settle equity instruments granted under share-based payment arrangements amounted to \$0 in all periods presented.

As of December 31, 2006, there was \$2,013 of total unrecognized compensation cost related to unvested stock option awards. The cost is expected to be recognized over a weighted-average period of two years.

(15) Subsequent Events

On February 7, 2007, the Company was acquired by TransDigm Inc., a wholly owned subsidiary of TransDigm Group Incorporated, for \$430,000 in cash. As a result of this transaction, the Company repaid its outstanding debt in full and the Company's outstanding stock options were fully accelerated, exercised, and the shares repurchased.

Item 15. Indemnification of Directors and Officers

Our amended and restated certificate of incorporation limits our directors' and officers' liability to the fullest extent permitted under Delaware corporate law. Specifically, our directors and officers will not be liable to us or our stockholders for monetary damages for any breach of fiduciary duty by a director or officer, except for liability:

- for any breach of the director's or officer's duty of loyalty to us or our stockholders;

The provision regarding indemnification of our directors and officers in our amended and restated certificate of incorporation will generally not limit liability under state or federal securities laws.

In addition, the employment agreements to which we are a party provide for the indemnification of our employees who are party thereto.

We also maintain a directors' and officers' insurance policy pursuant to which our directors and officers are insured against liability for actions taken in their capacities as directors and officers.

The undersigned Registrant hereby undertakes that:

(1) For purposes of determining any liability under the Securities Act of 1933, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective.

Dear Sirs:

The entities and individuals whose names are set forth on Schedule C attached hereto (collectively, the “**Over-Allotment Stockholders**” and, together with the Selling Stockholders, the “**Participating Stockholders**”) propose severally and not jointly to sell to the Underwriters, at the option of the Underwriters, not more than an aggregate of additional shares of the Securities to cover over-allotments, if any, as provided in Section 3 hereof (the “**Optional Securities**”), with each Over-Allotment Stockholder selling the number of Optional Securities set forth opposite such Over-Allotment Stockholder’s name in Schedule C attached hereto. The Firm Securities and the Optional Securities are herein collectively called the “**Offered Securities**”. The Company and the Participating Stockholders severally (and not jointly) hereby agree with the several Underwriters as follows:

2. *Representations and Warranties of the Company and the Participating Stockholders.* (a) The Company represents and warrants to, and agrees with, the several Underwriters that:

(i) The Company has filed with the Securities and Exchange Commission (the “**Commission**”) a registration statement on Form S-3 (No. 333-) covering the registration of the Offered Securities under the Securities Act of 1933, as amended (the “**Act**”), including a related preliminary prospectus or prospectuses. At any particular time, this initial registration statement, in the form then on file with the Commission, including all material then incorporated by reference therein, all information contained in the registration statement (if any) pursuant to Rule 462(b) and then deemed to be a part of the initial registration statement, and all 430A Information and all 430C Information, that in any case has not then been superseded or modified, shall be referred to as the “**Initial Registration Statement**”. The Company may also have filed, or may file with the Commission, a Rule 462(b) registration statement covering the registration of Offered Securities. At any particular time, this Rule 462(b) registration statement, in the form then on file with the Commission, including the contents of the Initial Registration Statement incorporated by reference therein and including all 430A Information and all 430C Information (as

each such capitalized term is defined below), that in any case has not then been superseded or modified, shall be referred to as the “**Additional Registration Statement**”.

As of the time of execution and delivery of this agreement (this “**Agreement**”), the Initial Registration Statement has been declared effective under the Act and is not proposed to be amended. Any Additional Registration Statement has or will become effective upon filing with the Commission pursuant to Rule 462(b) and is not proposed to be amended. The Offered Securities all have been or will be duly registered under the Act pursuant to the Initial Registration Statement and, if applicable, the Additional Registration Statement.

For purposes of this Agreement, “**430A Information**”, with respect to any registration statement, means information included in a prospectus and retroactively deemed to be a part of such registration statement pursuant to Rule 430A(b), and “**430C Information**”, with respect to any registration statement, means information included in a prospectus then deemed to be a part of such registration statement pursuant to Rule 430C. For purposes of this Agreement, “**Effective Time**” with respect to the Initial Registration Statement or, if filed prior to the execution and delivery of this Agreement, the Additional Registration Statement, means the date and time as of which such Registration Statement was declared effective by the Commission or has become effective upon filing pursuant to Rule 462(c). If an Additional Registration Statement has not been filed prior to the execution and delivery of this Agreement but the Company has advised the Representative that it proposes to file one, “**Effective Time**” with respect to such Additional Registration Statement means the date and time as of which such registration statement is filed and becomes effective pursuant to Rule 462(b). For the purposes of this Agreement, “**Effective Date**” with respect to the Initial Registration Statement or the Additional Registration Statement (if any) means the date of the Effective Time thereof. For purposes of this Agreement, “**Closing Date**” has the meaning defined in Section 3 hereof. The Initial Registration Statement and the Additional Registration Statement are herein referred to collectively as the “**Registration Statements**” and individually as a “**Registration Statement**”. “**Registration Statement**” without reference to a time means the Registration Statement as of its Effective Time. “**Registration Statement**” as of any time means the Initial Registration Statement and any Additional Registration Statement in the form then filed with the Commission, including any amendment thereto and any prospectus deemed or retroactively deemed to be a part thereof that has not been superseded or modified. For purposes of the previous sentence, information contained in a form of prospectus or prospectus supplement that is deemed retroactively to be a part of the Registration Statement pursuant to Rule 430A or 430C shall be considered to be included in the Registration Statement as of the time specified in Rule 430A or 430C. “**Statutory Prospectus**” as of any time means the prospectus included in the Registration Statement immediately prior to that time, including any document incorporated by reference therein and any prospectus deemed to be a part thereof that has not been superseded or modified. For purposes of the preceding sentence, information contained in a form of prospectus that is deemed retroactively to be a part of the Registration Statement pursuant to Rule 430A or 430C

shall be considered to be included in the Statutory Prospectus as of the actual time that form of prospectus is filed with the Commission pursuant to Rule 424(b) or Rule 462(c) under the Act and not retroactively. “**Prospectus**” means the Statutory Prospectus that discloses the public offering price and other final terms of the Offered Securities and otherwise satisfies Section 10(a) of the Act. “**Issuer Free Writing Prospectus**” means any “issuer free writing prospectus,” as defined in Rule 433, relating to the Offered Securities in the form filed or required to be filed with the Commission or, if not required to be filed, in the form retained in the Company’s records pursuant to Rule 433(g). “**General Use Issuer Free Writing Prospectus**” means any Issuer Free Writing Prospectus that is intended for general distribution to prospective investors, as evidenced by its being specified in Schedule D to this Agreement. “**Limited Use Issuer Free Writing Prospectus**” means any Issuer Free Writing Prospectus that is not a General Use Issuer Free Writing Prospectus. “**Applicable Time**” means (Eastern time) on the date of this Agreement.

2

(ii) (A) On the Effective Date of the Initial Registration Statement, the Initial Registration Statement conformed in all material respects to the requirements of the Act and the rules and regulations of the Commission promulgated thereunder (the “**Rules and Regulations**”) and did not include any untrue statement of a material fact or omit to state any material fact required to be stated therein or necessary to make the statements therein not misleading, (B) on the Effective Date of the Additional Registration Statement (if any), each Registration Statement conformed, or will conform, in all material respects to the requirements of the Act and the Rules and Regulations and did not include, or will not include, any untrue statement of a material fact and did not omit, or will not omit, to state any material fact required to be stated therein or necessary to make the statements therein not misleading and (C) on the date of this Agreement and on each Closing Date, the Initial Registration Statement and, if the Effective Time of the Additional Registration Statement is prior to the execution and delivery of this Agreement, the Additional Registration Statement each conforms in all material respects, and at the time of filing of the Prospectus pursuant to Rule 424(b) or (if no such filing is required) at the Effective Date of the Additional Registration Statement in which the Prospectus is included, each Registration Statement and the Prospectus will conform, in all material respects to the requirements of the Act and the Rules and Regulations, and neither of such documents includes, or will include, any untrue statement of a material fact or omits, or will omit, to state any material fact required to be stated therein or necessary to make the statements therein not misleading. The preceding sentence does not apply to statements in or omissions from a Registration Statement or the Prospectus based upon written information furnished to the Company by any Underwriter through the Representative specifically for use therein, it being understood and agreed that the only such information is that described as such in the last sentence of Section 8(c) hereof.

The preceding sentence does not apply to statements in or omissions from the General Disclosure Package or any Issuer Free Writing Prospectus in reliance upon and in conformity with written information furnished to the Company by any Underwriter through the Representative specifically for use therein, it being understood and agreed that the only such information furnished by any Underwriter consists of the information described as such in Section 8(c) hereof.

(v) Each Issuer Free Writing Prospectus, as of its issue date and at all subsequent times through the completion of the public offer and sale of the Offered Securities or until any earlier date that the Company notified or notifies Credit Suisse Securities (USA) LLC (“**CSS**”) as described in the next sentence, did not, does not and will not include any information that conflicted, conflicts or will conflict with the information then contained in the Registration Statement. If at any time following issuance of an Issuer Free Writing Prospectus there occurred or occurs an event or development as a result of which such Issuer Free Writing Prospectus

3

the information in the Registration Statement and Prospectus under the caption "Selling Stockholders".

(viii) Except as disclosed in the General Disclosure Package, there are no contracts, agreements or understandings between such Participating Stockholder and any person that would give rise to a valid claim against such Participating Stockholder or any Underwriter for a brokerage commission, finder's fee or other like payment in connection with the sale of the Offered Securities.

(ix) Such Participating Stockholder has not taken, directly or indirectly, any action that is designed to or that has constituted or that would reasonably be expected to cause or result in the stabilization or manipulation of the price of any security of the Company to facilitate the sale or resale of the Offered Securities.

3. *Purchase, Sale and Delivery of Offered Securities.* On the basis of the representations, warranties and agreements herein contained, but subject to the terms and conditions herein set forth, each Selling Stockholder agrees, severally and not jointly, to sell to each Underwriter, and each Underwriter agrees, severally and not jointly, to purchase from each Selling Stockholder, at a purchase price of \$ _____ per share, that number of Firm Securities (rounded up or down, as determined by CSS in its discretion, in order to avoid fractions) obtained by multiplying the number of Firm Securities set forth opposite the name of such Selling Stockholder in Schedule A hereto by a fraction, the numerator of which is the number of Firm Securities set forth opposite the name of such Underwriter in Schedule B hereto, and the denominator of which is the total number of Firm Securities.

Certificates in negotiable form for the Firm Securities to be sold by the Selling Stockholders hereunder (other than Firm Securities to be sold by TD Group Holdings, LLC ("TD Group, LLC"), W. Nicholas Howley and Gregory Rufus (collectively, the "Excluded Stockholders")) have been placed (or will be placed) in custody, for delivery under this Agreement, under Custody Agreements made with the Company, as custodian (the "Custodian"). If applicable to such Selling Stockholder, such Selling Stockholder agrees, severally and not jointly, that the shares represented by the certificates held in custody (or to be held in custody) for such Selling Stockholder under the applicable Custody Agreement are subject to the interests of the Underwriters hereunder, that the arrangements made by such Selling Stockholder for such custody are irrevocable to the extent provided in the applicable Custody Agreement, and that the obligations of such Selling Stockholder hereunder shall not, except as otherwise provided herein, be subject to termination by such Selling Stockholder by operation of law, whether, as applicable, by the dissolution or liquidation of such Selling Stockholder, the commencement of any bankruptcy, insolvency or similar proceedings against or otherwise affecting such Selling Stockholder or by the occurrence of any other event. If any event referred to in the immediately preceding sentence should occur with respect to any Selling Stockholder before the delivery of the Firm Securities to be sold by such Selling Stockholder under this Agreement, certificates for such Firm Securities shall, except as otherwise specifically provided herein, be delivered by the Custodian on behalf of such Selling Stockholder in accordance with the terms and conditions of this Agreement.

The Custodian or, in the case of Firm Securities being sold on the First Closing Date by an Excluded Stockholder, such Excluded Stockholder, will deliver the Firm Securities to the Representative for the accounts of the Underwriters, against payment of the purchase price in Federal (same day) funds by official bank check or checks or wire transfer to an account at a bank reasonably acceptable to CSS drawn to the order of the Custodian, for the account of each of the Selling Stockholders, or the applicable Excluded Stockholder, as applicable, at the office of Cravath, Swaine & Moore LLP ("Cravath"), 825

In addition, upon written notice (each, an “**Over-Allotment Notice**”) from CSS given to the Company and TD Group, LLC from time to time not more than 30 days subsequent to the date of the Prospectus, the Underwriters may purchase all or less than all of the Optional Securities at the purchase price per Optional Security equal to the per share purchase price paid for each Firm Security purchased or, if applicable, to be purchased hereunder. Subject to the satisfaction of applicable closing conditions on the applicable Optional Closing Date (as herein defined), the delivery of an Over-Allotment Notice by CSS shall be irrevocable. Each Over-Allotment Stockholder agrees, severally and not jointly, to sell to the Underwriters the number of Optional Securities obtained by multiplying the number of Optional Securities specified in the applicable Over-Allotment Notice delivered by CSS hereunder (which in no event shall exceed, with respect to each Over-Allotment Stockholder, the number of Optional Securities set forth opposite the name of such Over-Allotment Stockholder on Schedule C hereto less any Optional Securities previously sold to the Underwriters by such Over-Allotment Stockholder), by a fraction, the numerator of which is the number of Optional Securities set forth opposite the name of such Over-Allotment Stockholder in Schedule C hereto, and the denominator of which is the total number of Optional Securities set forth opposite the names of all Over-Allotment Stockholders on said Schedule C hereto (subject to adjustment by CSS to eliminate fractions). Such Optional Securities shall be purchased from each Over-Allotment Stockholder for the account of each Underwriter in the same proportion as the number of Firm Securities set forth opposite such Underwriter’s name on Schedule B hereto bears to the total number of Firm Securities purchased by the Underwriters hereunder (subject to adjustment by CSS to eliminate fractions), and may be purchased by the Underwriters only for the purpose of covering over-allotments made in connection with the sale of the Firm Securities. No Optional Securities shall be sold or delivered unless all of the Firm Securities previously have been, or simultaneously are, sold and delivered. The right to purchase the Optional Securities or any portion thereof may be exercised from time to time and to the extent not previously exercised may be surrendered and terminated at any time upon notice by CSS to the Company and TD Group, LLC.

Certificates in negotiable form for the Optional Securities to be sold by the Over-Allotment Stockholders hereunder (other than the Excluded Stockholders) have been placed (or will be placed) in custody, for delivery under this Agreement, under Custody Agreements made with the Custodian. If applicable to such Over-Allotment Stockholder, such Over-Allotment Stockholder agrees, severally and not jointly, that the shares represented by the certificates held in custody (or to be held in custody) for such Over-Allotment Stockholder under the applicable Custody Agreement are subject to the interests of the Underwriters hereunder, that the arrangements made by such Over-Allotment Stockholder for such custody are irrevocable to the extent provided in the applicable Custody Agreement, and that the obligations of such Over-Allotment Stockholder hereunder shall not, except as otherwise provided herein, be subject to termination by such Over-Allotment Stockholder by operation of law, whether, as applicable, by the dissolution or liquidation of such Over-Allotment Stockholder, the commencement of any bankruptcy, insolvency or similar proceedings against or otherwise affecting such Over-Allotment Stockholder or by the occurrence of any other event. If any event referred to in the immediately preceding sentence should occur with respect to any Over-Allotment Stockholder before the delivery of the Optional Securities to be sold by such Over-Allotment Stockholder under this Agreement, certificates for such Optional Securities shall, except as otherwise specifically provided herein, be delivered by the Custodian on behalf of such Over-Allotment Stockholder in accordance with the terms and conditions of this Agreement.

Each time for the delivery of and payment for the Optional Securities, being herein referred to as an “**Optional Closing Date**”, which may be the First Closing Date (the First Closing Date and each Optional Closing Date, if any, being sometimes referred to herein as a “**Closing Date**”), shall be determined by CSS but shall not be later than five full business days after the applicable Over-Allotment Notice is given. On each Optional Closing Date, the Custodian or, in the case of Optional Securities being sold on such Optional Closing Date by an Excluded Stockholder, such Excluded Stockholder, will deliver the Optional Securities to be sold on such Optional Closing Date to the Representative for the accounts of

the Underwriters, against payment of the purchase price in Federal (same day) funds by official bank check or checks or wire transfer to an account at a bank reasonably acceptable to CSS drawn to the order of the Custodian, for the account of the applicable Over-Allotment Stockholder or the applicable Excluded Stockholder, as applicable, at the above office of Cravath at 10:00 A.M., New York time, on such Optional Closing Date. The certificates for the Optional Securities so to be delivered will be in definitive form, in such denominations and registered in such names as CSS requests and will be made available for inspection at the above office of Cravath at least 24 hours prior to the applicable Optional Closing Date.

4. *Offering by Underwriters.* It is understood that the several Underwriters propose to offer the Offered Securities for sale to the public as set forth in the Prospectus.

5. *Certain Agreements of the Company and the Participating Stockholders.* (a) The Company agrees with the several Underwriters and the Participating Stockholders that:

(i) The Company will file the Prospectus with the Commission pursuant to and in accordance with subparagraph (1) (or, if applicable and if consented to by CSS, subparagraph (4)) of Rule 424(b) not later than the earlier of (A) the second business day following the execution and delivery of this Agreement or (B) the fifteenth business day after the Effective Date of the Initial Registration Statement. The Company will advise CSS promptly of any such filing pursuant to Rule 424(b). If an Additional Registration Statement is necessary to register a portion of the Offered Securities under the Act but the Effective Time thereof has not occurred as of such execution and delivery, the Company will file the Additional Registration Statement or, if filed, will file a post-effective amendment thereto with the Commission pursuant to and in accordance with Rule 462(b) on or prior to 10:00 P.M., New York time, on the date of this Agreement or, if earlier, on or prior to the time the Prospectus is printed and distributed to any Underwriter, or will make such filing at such later date as shall have been consented to by CSS. The Company has complied and will comply with Rule 433 of the Act with respect to each Issuer Free Writing Prospectus.

(ii) The Company will advise CSS promptly of any proposal to amend or supplement the initial or any additional registration statement as filed or the related prospectus or the Initial Registration Statement, the Additional Registration Statement (if any) or any Statutory Prospectus and will not

effect such amendment or supplementation without CSS's consent, which consent shall not be unreasonably withheld or delayed; and the Company will also advise CSS promptly of any amendment or supplementation of a Registration Statement or any Statutory Prospectus and of the institution by the Commission of any stop order proceedings in respect of a Registration Statement and will use its commercially reasonable efforts to prevent the issuance of any such stop order and to obtain as soon as possible its lifting, if issued.

(iii) If, at any time when a prospectus relating to the Offered Securities is (or but for the exemption in Rule 172 would be required to be) delivered under the Act in connection with sales by any Underwriter or dealer, any event occurs as a result of which the Prospectus as then amended or supplemented would include an untrue statement of a material fact or omit to state any material fact necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading, or if it is necessary at any time to amend the Prospectus or to file under the Exchange Act any document incorporated by reference in the Prospectus to comply with the Act or the Exchange Act, the Company will promptly notify CSS of such event and will promptly prepare and file with the Commission, at its own expense, an amendment or supplement which will correct such statement or omission or an amendment which will effect such compliance. Neither CSS's consent to, nor the Underwriters' delivery of, any such amendment or supplement shall constitute a waiver of any of the conditions set forth in Section 7.

(iv) As soon as practicable, but not later than the Availability Date (as defined below), the Company will make generally available to its securityholders an earnings statement covering a

11

period of at least 12 months beginning after the Effective Date of the Initial Registration Statement (or, if later, the Effective Date of the Additional Registration Statement) which will satisfy the provisions of Section 11(a) of the Act. For the purpose of the preceding sentence, "**Availability Date**" means the 45th day after the end of the fourth fiscal quarter following the fiscal quarter that includes such Effective Date, except that, if such fourth fiscal quarter is the last quarter of the Company's fiscal year, "**Availability Date**" means the 90th day after the end of such fourth fiscal quarter.

(v) The Company will furnish to the Representative copies of each Registration Statement (three of which will be signed), excluding exhibits, each related preliminary prospectus, and, so long as a prospectus relating to the Offered Securities is required to be delivered under the Act in connection with sales by any Underwriter or dealer, the Prospectus and all amendments and supplements to such documents, in each case in such quantities as CSS may reasonably request. The Prospectus shall be so furnished on or prior to 3:00 P.M., New York time, on the business day following the later of the execution and delivery of this Agreement or the Effective Time of the Initial Registration Statement. All other documents shall be so furnished as soon as reasonably available. The Company will pay the reasonable expenses of printing and distributing to the Underwriters all such documents.

(vi) The Company will use its commercially reasonable efforts to arrange for the qualification of the Offered Securities for sale under the laws of such jurisdictions as CSS may reasonably designate and will use its commercially reasonable efforts to continue such qualifications in effect so long as required for the distribution, which period shall in no event extend for more than one year from the later of the effective date of the Registration Statement and any Registration Statement filed pursuant to Rule 462(b); provided that the Company shall not be obligated to file any general consent to service of process or to qualify as a foreign corporation or as a dealer in securities in any jurisdiction in which it is not so qualified as of the date hereof or to subject itself to taxation in respect of doing business in any jurisdiction in which it is not otherwise subject as of the date hereof.

(vii) The Company will pay all expenses incident to the performance of its obligations under this Agreement, for any filing fees and other expenses (including fees and disbursements of counsel) incurred in connection with qualification of the Offered Securities for sale under the laws of such jurisdictions as CSS reasonably designates in accordance with the terms set forth herein and the printing of memoranda relating thereto, for the filing fee incident to the review by the National Association of Securities Dealers, Inc. (the "**NASD**") of the Offered Securities, for any travel expenses of the Company's officers and employees and any other expenses of the Company in connection with attending or hosting meetings with prospective purchasers of the Offered Securities, including the cost of any aircraft chartered in connection with attending or hosting such meetings, for expenses incurred in distributing preliminary prospectuses and the Prospectus (including any amendments and supplements thereto) to the Underwriters and for expenses incurred for preparing, printing and distributing any Issuer Free Writing Prospectuses to investors or prospective investors.

(viii) The Company will not take, directly or indirectly, any action designed to or that would constitute or that might reasonably be expected to cause or result in, stabilization or manipulation of the price of any securities of the Company to facilitate the sale or resale of the Offered Securities.

(ix) For the period specified below (the "**Lock-Up Period**"), the Company will not offer, sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, or file with the Commission a registration statement under the Act (other than a registration statement or registration statements on Form S-8 to register shares of Securities that are issuable upon exercise of stock options granted under the stock option or incentive plans referred to in clause (1) immediately below)

12

relating to, any additional shares of its Securities or securities convertible into or exchangeable or exercisable for any shares of its Securities, or publicly disclose the intention to make any such offer, sale, pledge, disposition or filing, without the prior written consent of CSS, except (1) grants of stock options, restricted stock or other awards pursuant to the terms of the TD Holding Corporation Third Amended and Restated 2003 Stock Option Plan or the TransDigm Group Incorporated 2006 Stock Incentive Plan, each as in effect on the date hereof, (2) issuances of shares of its Securities pursuant to the exercise of such stock options or other awards or the exercise of any other stock options or other awards outstanding on the date hereof, including, without limitation, upon exercise of stock options outstanding as of the date hereof by any Participating Stockholder in connection with the consummation of the transactions contemplated hereby, (3) if applicable, issuances of shares of Securities pursuant to the Company's dividend reinvestment plan and (4) in connection with the acquisition of assets or securities of another business or entity, provided that the recipients of such shares of Securities agree to be bound by the provisions of Section 5(b)(ii) hereof as if such participants were Participating Stockholders. The initial Lock-Up Period will commence on the date hereof and will continue and include the date 90 days after the date of the Prospectus or such earlier date that CSS consents to in writing; provided, however, that if (x) during the last 17 days of the initial Lock-Up Period, the Company releases earnings results or material news or a material event relating to the Company occurs or (y) prior to the expiration of the initial

Lock-Up Period, the Company announces that it will release earnings results during the 16-day period beginning on the last day of the initial Lock-Up Period, then in each case the initial Lock-Up Period will be extended until the expiration of the 18-day period beginning on the date of release of the earnings results or the occurrence of the materials news or material event, as applicable, unless CSS waives, in writing, such extension. The Company will provide CSS with notice of any announcement described in clause (y) of the preceding sentence that gives rise to an extension of the initial Lock-Up Period.

(b) Each Participating Stockholder severally, and not jointly, agrees with the several Underwriters and the Company, as to itself only that:

(i) Such Participating Stockholder will pay all expenses incident to the performance of the obligations of such Participating Stockholder under this Agreement, including any stamp duties and stock transfer taxes, if any, payable upon the sale of the Offered Securities by such Participating Stockholder to the Underwriters and the fees and disbursements of counsel to such Participating Stockholder.

(ii) Except in connection with the consummation of the transactions contemplated hereby, and subject to the terms set forth in the last sentence of this paragraph (ii), each Participating Stockholder whose name is set forth on Schedule F hereto (each, an “**Included Stockholder**”) severally (and not jointly) agrees during the Lock-Up Period not to offer, sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, any additional shares of the Securities or securities convertible into or exchangeable or exercisable for any shares of Securities, enter into a transaction which would have the same effect, or enter into any swap, hedge or other arrangement that transfers, in whole or part, any of the economic consequences of ownership of the Securities, whether any such aforementioned transaction is to be settled by delivery of the Securities or such other securities, in cash or otherwise, or publicly disclose the intention to make any such offer, sale, pledge or disposition, or enter into any such transaction, swap, hedge or other arrangement, without, in each case, the prior written consent of CSS. The initial Lock-Up Period will commence on the date hereof and will continue and include the date 90 days after the date of the Prospectus or such earlier date that CSS consents to in writing; provided, however, that if (1) during the last 17 days of the initial Lock-Up Period, the Company releases earnings results or material news or a material event relating to the Company occurs or (2) prior to the expiration of the initial Lock-Up Period, the Company announces that it will release earnings results during the 16-day period beginning on the last day of the initial Lock-Up Period, then in each case the initial Lock-Up Period will be extended until the expiration of the 18-day period beginning on the date of

13

release of the earnings results or the occurrence of the material news or material event, as applicable, unless CSS waives, in writing, such extension. Notwithstanding the foregoing, during the Lock-Up Period, an Included Stockholder may (w) transfer Securities or securities convertible into or exchangeable or exercisable for any shares of Securities to a family member, trust or similar estate planning vehicle, or controlled affiliate; provided that the transferee agrees to be bound in writing by the terms set forth in this Section 5(b)(ii), (x) enter into and establish a Rule 10b5-1 or similar plan and such Included Stockholder (or the Company) may publicly announce the entry into and establishment thereof, provided that in no event shall any sale of any shares of Securities pursuant to the terms thereof occur prior to the expiration of the initial Lock-Up Period (after giving effect to any extensions of the initial Lock-Up Period contemplated by the immediately preceding sentence), (y) sell shares under any 10b5-1 plan in existence on the date of execution of any applicable Lock-Up Agreement, and (z) in the case of TD Group, LLC, distribute shares of Securities to any person that is a Participating Stockholder hereunder, provided that all such shares of Securities are sold by the Participating Stockholder receiving any such distribution to the several Underwriters pursuant to the terms hereof.

(iii) Such Participating Stockholder will not take, directly or indirectly, any action designed to or that would constitute or that might reasonably be expected to cause or result in, stabilization or manipulation of the price of any securities of the Company to facilitate the sale or resale of the Offered Securities.

(c) Each Participating Stockholder hereby waives any registration rights that it may have in connection with the offering contemplated by this Agreement, and also agrees that, without the prior written consent of CSS, such Participating Stockholder will not exercise any registration rights it may have until the expiration of the Lock-Up Period.

6. *Free Writing Prospectuses.* The Company represents and agrees that, unless it obtains the prior consent of CSS, and each Underwriter represents and agrees that, unless it obtains the prior consent of the Company and CSS, it has not made and will not make any offer relating to the Offered Securities that would constitute an Issuer Free Writing Prospectus, or that would otherwise constitute a “free writing prospectus,” as defined in Rule 405, required to be filed with the Commission. Any such free writing prospectus consented to by the Company and CSS is hereinafter referred to as a “**Permitted Free Writing Prospectus.**” The Company represents that it has treated and agrees that it will treat each Permitted Free Writing Prospectus as an “issuer free writing prospectus,” as defined in Rule 433, and has complied and will comply with the requirements of Rule 433 applicable to any Permitted Free Writing Prospectus, including timely filing the same with the Commission where required, legending and record keeping. The Company represents that it has satisfied and agrees that it will satisfy the conditions in Rule 433 to avoid a requirement to file with the Commission any electronic road show.

The Participating Stockholders and the Company will furnish the Representative with such conformed copies of such opinions, certificates, letters and documents as the Representative reasonably requests. CSS may in its sole discretion waive on behalf of the Underwriters compliance with any conditions to the obligations of the Underwriters hereunder, whether in respect of an Optional Closing Date or otherwise.

8. *Indemnification and Contribution.* (a) The Company will indemnify and hold harmless each Underwriter, its partners, members, directors, officers, affiliates and each person, if any, who controls such Underwriter within the meaning of Section 15 of the Act or Section 20 of the Exchange Act, against any losses, claims, damages or liabilities, joint or several, to which such Underwriter may become subject, under the Act or otherwise, insofar as such losses, claims, damages or liabilities (or actions in respect thereof) arise out of or are based upon any untrue statement or alleged untrue statement of any material fact contained in any Registration Statement, each Statutory Prospectus, the Prospectus, any Issuer Free Writing Prospectus, or any amendment or supplement thereto, or any related preliminary prospectus, or arise out of or are based upon the omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements therein not misleading, and will reimburse each Underwriter for any legal or other expenses reasonably incurred by such Underwriter in connection with investigating or defending against any such loss, claim, damage, liability or action as such expenses are incurred; provided, however, that the Company will not be liable in any such case to the extent that any such loss, claim, damage or liability arises out of or is based upon an untrue statement or alleged untrue statement in or omission or alleged omission from any of such documents in reliance upon and in conformity with written information furnished to the Company by any Underwriter through the Representative specifically for use therein, it being understood and agreed that the only such information furnished by any Underwriter consists of the information described as such in subsection (c) below.

(b) The Participating Stockholders, severally and not jointly, will indemnify and hold harmless each Underwriter, its partners, members, directors, officers, affiliates and each person, if any, who controls such Underwriter within the meaning of Section 15 of the Act or Section 20 of the Exchange Act, against any losses, claims, damages or liabilities, joint or several, to which such Underwriter may become subject, under the Act or otherwise, insofar as such losses, claims, damages or liabilities (or actions in respect thereof) arise out of or are based upon any untrue statement or alleged untrue statement of any material fact contained in any Registration Statement, each Statutory Prospectus, the Prospectus, any Issuer Free Writing Prospectus, or any amendment or supplement thereto, or any related preliminary prospectus, or arise out of or are based upon the omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements therein not misleading, and will reimburse each Underwriter for any legal or other expenses reasonably incurred by such Underwriter in connection with investigating or defending against any such loss, claim, damage, liability or action as such expenses are incurred; provided, however, that the Participating Stockholders will not be liable in any such case to the extent that any such loss, claim, damage or liability arises out of or is based upon an untrue statement or alleged untrue statement in or omission or alleged omission from any of such documents in reliance upon and in conformity with written information furnished to the Company by any Underwriter through the Representative specifically for use therein, it being understood and agreed that the only such information furnished by any Underwriter consists of the information described as such in subsection (c) below; and provided further, that each Participating Stockholder will be liable in any such case to the extent, but only to

19

the extent, that any such loss, claim, damage or liability arises out of or is based upon an untrue statement or alleged untrue statement in or omission or alleged omission from any of such documents in reliance on and in conformity with written information relating to such Participating Stockholder that is furnished to the Company by such Participating Stockholder specifically and expressly for use therein, it being understood and agreed that the only such information contained in the Registration Statement and Prospectus is the information in the Registration Statement and Prospectus under the caption "Selling Stockholders"; provided further, that the liability of a Participating Stockholder pursuant to this subsection (b) shall not exceed the aggregate proceeds received after underwriting commissions and discounts, but before expenses, from the sale of Offered Securities by such Participating Stockholder pursuant to this Agreement (with respect to each Participating Stockholder, such amount being referred to herein as such Participating Stockholder's "Net Proceeds").

(c) Each Underwriter will severally and not jointly indemnify and hold harmless the Company, its directors and officers and each person, if any, who controls the Company within the meaning of Section 15 of the Act or Section 20 of the Exchange Act, and each Participating Stockholder, its partners, members, directors, officers and affiliates and each person, if any, who controls any such Participating Stockholder within the meaning of Section 15 of the Act or Section 20 of the Exchange Act, against any losses, claims, damages or liabilities to which the Company or such Participating Stockholder may become subject, under the Act or otherwise, insofar as such losses, claims, damages or liabilities (or actions in respect thereof) arise out of or are based upon any untrue statement or alleged untrue statement of any material fact contained in any Registration Statement, the Prospectus, or any amendment or

supplement thereto, or any related preliminary prospectus, or arise out of or are based upon the omission or the alleged omission to state therein a material fact required to be stated therein or necessary to make the statements therein not misleading, in each case to the extent, but only to the extent, that such untrue statement or alleged untrue statement or omission or alleged omission was made in reliance upon and in conformity with written information furnished to the Company by such Underwriter through the Representative specifically for use therein, and will reimburse any legal or other expenses reasonably incurred by the Company and each Participating Stockholder in connection with investigating or defending against any such loss, claim, damage, liability or action as such expenses are incurred, it being understood and agreed that the only such information furnished by any Underwriter consists of the following information in the Prospectus furnished on behalf of each Underwriter: the concession and reallowance figures appearing in the _____ paragraph under the caption "Underwriting" and the information contained in the _____ paragraphs under the caption "Underwriting".

(d) Promptly after receipt by an indemnified party under this Section of notice of the commencement of any action, such indemnified party will, if a claim in respect thereof is to be made against the indemnifying party under subsection (a), (b) or (c) above, notify the indemnifying party of the commencement thereof; provided that the failure to notify the indemnifying party shall not relieve it from any liability that it may have under subsection (a), (b) or (c) above except to the extent that it has been materially prejudiced (including through the forfeiture of substantive rights or defenses) by such failure; and provided further that the failure to notify the indemnifying party shall not relieve it from any liability that it may have to an indemnified party otherwise than under subsection (a), (b) or (c) above. In case any such action is brought against any indemnified party and it notifies the indemnifying party of the commencement thereof, the indemnifying party will be entitled to participate therein and, to the extent that it may wish, jointly with any other indemnifying party similarly notified, to assume the defense thereof, with counsel approved by such indemnified party, which approval shall not be unreasonably withheld (who shall not, except with the consent of the indemnified party, be counsel to the indemnifying party), and after notice from the indemnifying party to such indemnified party of its election so to assume the defense thereof, the indemnifying party will not be liable to such indemnified party under this Section for any legal or other expenses subsequently incurred by such indemnified party in connection with the defense thereof other than reasonable costs of investigation. No indemnifying party shall, without the prior written consent of the indemnified party, effect any settlement or compromise of, or consent to the entry of judgment with respect to, any pending or threatened action in respect of which any indemnified party is or could have been a party and indemnity could have been sought hereunder by such indemnified party unless such settlement

20

(i) includes an unconditional release of such indemnified party from all liability on any claims that are the subject matter of such action and (ii) does not include a statement as to, or an admission of, fault, culpability or a failure to act by or on behalf of an indemnified party. No indemnifying party shall be liable for any settlement or compromise of, or consent to the entry of judgment with respect to, any such action or claim effected without its consent, unless such indemnifying party has failed, upon request by the indemnified party pursuant to this Section 8, to reimburse the indemnified party for legal expenses due pursuant to this Section 8 within thirty days of such request.

(e) If the indemnification provided for in this Section is unavailable or insufficient to hold harmless an indemnified party under subsection (a), (b) or (c) above, then each indemnifying party shall contribute to the amount paid or payable by such indemnified party as a result of the losses, claims, damages or liabilities referred to in subsection (a), (b) or (c) above (i) in such proportion as is appropriate to reflect the relative benefits received by the Company and the Participating Stockholders on the one hand and the Underwriters on the other from the offering of the Securities or (ii) if the allocation provided by clause (i) above is not permitted by applicable law, in such proportion as is appropriate to reflect not only the relative benefits referred to in clause (i) above but also the relative fault of the Company and the Participating Stockholders on the one hand and the Underwriters on the other in connection with the statements or omissions which resulted in such losses, claims, damages or liabilities as well as any other relevant equitable considerations. The relative benefits received by the Company and the Participating Stockholders on the one hand and the Underwriters on the other shall be deemed to be in the same proportion as the total net proceeds from the offering (before deducting expenses) received by the Company and the Participating Stockholders bear to the total underwriting discounts and commissions received by the Underwriters. The relative fault shall be determined by reference to, among other things, whether the untrue or alleged untrue statement of a material fact or the omission or alleged omission to state a material fact relates to information supplied by the Company and the Participating Stockholders or the Underwriters and the parties' relative intent, knowledge, access to information and opportunity to correct or prevent such untrue statement or omission. The amount paid by an indemnified party as a result of the losses, claims, damages or liabilities referred to in the first sentence of this subsection (e) shall be deemed to include any legal or other expenses reasonably incurred by such indemnified party in connection with investigating or defending any action or claim which is the subject of this subsection (e). Notwithstanding the provisions of this subsection (e), no Underwriter shall be required to contribute any amount in excess of the amount by which the total price at which the Securities underwritten by it and distributed to the public were offered to the public exceeds the amount of any damages which such Underwriter has otherwise been required to pay by reason of such untrue or alleged untrue statement or omission or alleged omission. No person guilty of fraudulent misrepresentation (within the meaning of Section 11(f) of the Act) shall be entitled to contribution from any person who was not guilty of such fraudulent misrepresentation. The Underwriters' obligations in this subsection (e) to contribute are several in proportion to their respective underwriting obligations and not joint. Notwithstanding the provisions of this subsection (e), the Participating Stockholders' obligations in this subsection (e) to contribute are several in proportion to their respective Net Proceeds and not joint, and in no event shall the liability of any Participating Stockholder pursuant to this subsection (e) exceed the Net Proceeds of such Participating Stockholder. The Company, the Participating Stockholders and the Underwriters agree that it would not be just and equitable if contribution pursuant to this Section 8(e) were determined by pro rata allocation (even if the Underwriters were treated as one entity for such purpose) or by any other method of allocation which does not take account of the equitable considerations referred to in this Section 8(e).

(f) The obligations of the Company and the Participating Stockholders under this Section shall be in addition to any liability which the Company and the Participating Stockholders may otherwise have and shall extend, upon the same terms and conditions, to each person, if any, who controls any Underwriter within the meaning of the Act; and the obligations of the Underwriters under this Section shall be in addition to any liability which the respective Underwriters may otherwise have and shall extend, upon the same terms and conditions, to each director of the Company, to each officer of the Company who has signed a Registration Statement, to each Participating Stockholder, to the partners, members, directors,

21

officers and affiliates of each Participating Stockholder and to each person, if any, who controls the Company or such Participating Stockholder within the meaning of the Act.

9. *Default of Underwriters.* If any Underwriter or Underwriters default in their obligations to purchase Offered Securities hereunder on either the First Closing Date or any Optional Closing Date and the aggregate number of shares of Offered Securities that such defaulting Underwriter or Underwriters agreed but failed to purchase does not exceed 10% of the total number of shares of Offered Securities that the Underwriters are obligated to purchase on such Closing Date, CSS may make arrangements satisfactory to the Company and the Participating Stockholders for the purchase of such Offered Securities by

other persons, including any of the Underwriters, but if no such arrangements are made by such Closing Date, the non-defaulting Underwriters shall be obligated severally, in proportion to their respective commitments hereunder, to purchase the Offered Securities that such defaulting Underwriters agreed but failed to purchase on such Closing Date. If any Underwriter or Underwriters so default and the aggregate number of shares of Offered Securities with respect to which such default or defaults occur exceeds 10% of the total number of shares of Offered Securities that the Underwriters are obligated to purchase on such Closing Date and arrangements satisfactory to CSS, the Company and the Participating Stockholders for the purchase of such Offered Securities by other persons are not made within 36 hours after such default, this Agreement will terminate without liability on the part of any non-defaulting Underwriter, the Company or the Participating Stockholders, except as provided in Section 10 (provided that if such default occurs with respect to Optional Securities after the First Closing Date, this Agreement will not terminate as to the Firm Securities or any Optional Securities purchased prior to such termination). As used in this Agreement, the term "Underwriter" includes any person substituted for an Underwriter under this Section. Nothing herein will relieve a defaulting Underwriter from liability for its default.

10. *Survival of Certain Representations and Obligations.* The respective indemnities, agreements, representations, warranties and other statements of the Participating Stockholders, of the Company or its officers and of the several Underwriters set forth in or made pursuant to this Agreement will remain in full force and effect, regardless of any investigation, or statement as to the results thereof, made by or on behalf of any Underwriter, the Participating Stockholders, the Company or any of their respective representatives, officers, directors, members, partners or any controlling person, and will survive delivery of and payment for the Offered Securities. If this Agreement is terminated pursuant to Section 9 or if for any reason the purchase of the Offered Securities by the Underwriters is not consummated, the Company and the Participating Stockholders shall remain responsible for the expenses to be paid or reimbursed by them pursuant to Section 5 and the respective obligations of the Company, the Participating Stockholders and the Underwriters pursuant to Section 8 shall remain in effect, and if any Offered Securities have been purchased hereunder the representations and warranties in Section 2 and all obligations under Section 5 shall also remain in effect. If the purchase of the Offered Securities by the Underwriters is not consummated for any reason other than solely because of the termination of this Agreement pursuant to Section 9 or the occurrence of any event specified in clause (iii), (iv), (vi), (vii) or (viii) of Section 7(e), the Company will reimburse the Underwriters for all out-of-pocket expenses (including fees and disbursements of counsel) reasonably incurred by them in connection with the offering of the Offered Securities.

11. *Notices.* All communications hereunder will be in writing and, if sent to the Underwriters, will be mailed, delivered or telegraphed and confirmed to the Representative, Credit Suisse Securities (USA) LLC, Eleven Madison Avenue, New York, N.Y. 10010-3629, Attention: LCD-IBD, or, if sent to the Company, will be mailed, delivered or telegraphed and confirmed to it at TransDigm Group Incorporated, The Tower at Erieview, 1301 E. 9th Street, Suite 3710, Cleveland, Ohio 44114, Attention: Gregory Rufus, Chief Financial Officer, or, if sent to any Participating Stockholder, will be mailed, delivered or telegraphed and confirmed to it at, in the case of Bratenahl Investments, Ltd. and any Participating Stockholder that is a natural person, c/o TransDigm Group Incorporated, The Tower at Erieview, 1301 E. 9th Street, Suite 3710, Cleveland, Ohio, 44114, Attention: Gregory Rufus, Chief Financial Officer, or in the case of any Participating Stockholder that is not a natural person (other than Bratenahl Investments, Ltd.), c/o Warburg Pincus LLC, 466 Lexington Avenue, New York, N.Y. 10017, Attention: Kewsong Lee; provided, however,

22

that any notice to an Underwriter pursuant to Section 8 will be mailed, delivered or telegraphed and confirmed to such Underwriter.

12. *Successors.* This Agreement will inure to the benefit of and be binding upon the parties hereto and their respective successors and the officers, directors, partners, members, affiliates and controlling persons referred to in Section 8, and no other person will have any right or obligation hereunder.

13. *Representation.* The Representative will act for the several Underwriters in connection with the transactions contemplated by this Agreement, and any action under this Agreement taken by the Representative will be binding upon all the Underwriters.

14. *Counterparts.* This Agreement may be executed in any number of counterparts, each of which shall be deemed to be an original, but all such counterparts shall together constitute one and the same Agreement.

15. *Absence of Fiduciary Relationship.* The Company and the Participating Stockholders acknowledge and agree that:

(a) The Representative has been retained solely to act as an underwriter in connection with the sale of the Offered Securities and that no fiduciary, advisory or agency relationship between the Company or the Participating Stockholders, on the one hand, and the Representative on the other, has been created in respect of any of the transactions contemplated by this Agreement, irrespective of whether the Representative has advised or is advising the Company or any Participating Stockholder on other matters;

(b) the price of the securities set forth in this Agreement was established by the Participating Stockholders following discussions and arms-length negotiations with the Representative, and the Company and the Participating Stockholders are capable of evaluating and understanding and accept the terms, risks and conditions of the transactions contemplated by this Agreement;

(c) the Company and the Participating Stockholders have been advised that the Representative and its affiliates are engaged in a broad range of transactions which may involve interests that differ from those of the Company or the Participating Stockholders and that the Representative has no obligation to disclose such interests and transactions to the Company or the Participating Stockholders by virtue of any fiduciary, advisory or agency relationship; and

(d) the Company and the Participating Stockholders waive, to the fullest extent permitted by law, any claims they may have against the Representative for breach of fiduciary duty or alleged breach of fiduciary duty and agree that the Representative shall have no liability (whether direct or indirect) to the Company or the Participating Stockholders in respect of such a fiduciary duty claim or to any person asserting such a fiduciary duty claim on behalf of or in right of the Company or any such Participating Stockholder, including stockholders, employees or creditors thereof.

16. ***Applicable Law.*** This Agreement shall be governed by, and construed in accordance with, the laws of the State of New York, without regard to principles of conflicts of laws.

The Company, the Participating Stockholders and the Underwriters hereby submit to the non-exclusive jurisdiction of the Federal and state courts in the Borough of Manhattan in The City of New York in any suit or proceeding arising out of or relating to this Agreement or the transactions contemplated hereby. The Company and the Participating Stockholders irrevocably and unconditionally waive any objection to the laying of venue of any suit or proceeding arising out of or relating to this Agreement or the transactions contemplated hereby in Federal and state courts in the Borough of Manhattan in The City of

New York and irrevocably and unconditionally waive and agree not to plead or claim in any such court that any such suit or proceeding in any such court has been brought in an inconvenient forum.

If the foregoing is in accordance with the Representative's understanding of our agreement, kindly sign and return to the Company and TD Group Holdings, LLC one of the counterparts hereof, whereupon it will become a binding agreement between the Company, the Participating Stockholders and the several Underwriters in accordance with its terms.
